We deliver all orders free of postage charges. Send money by P. O. Order or
Registered Mail.

Address a Postal Card to

C. B. SCANTLEBURY,

Belleville,

The WALL PAPER KING of Canada.

Then write upon the other side:

Dear Sir,— 189
Please send me samples of Wall Paper suitable for
(mention rooms) and not to exceed (mention price) per
single roll. I saw your advertisement in (mention paper).
Yours truly,

YOU will receive by return mail samples of Wall Paper suitable for any kind of a home,
and which we positively guarantee better, and lower in price, than any other house
in Canada. The samples will be large and in sets comprising Wall Paper and Border, and
will enable you to make a selection for an entire house as you like by your own friends and
with your friends to assist in the selection.
You have no responsibility in the matter; you simply write the postal as
above and we do all the rest—send you samples enclosing order blanks, a guide "How to
Paper or Economy in House Decoration," showing how to estimate the quantities required
for the different rooms, and directions for ordering, etc., in fact we entirely relieve you of
the trouble and anxiety of Wall Paper shopping. We positively Guarantee Satisfaction.
Can we say more?

Our Mail Order Department reaches throughout the Dominion. We pay the express
charges on all orders of a reasonable size. Full instructions with samples.

C. B. SCANTLEBURY

CATARRH RELIEVED IN 10 TO 60 MINUTES

—One short puff of the breath through the
Blower, supplied with each bottle of Dr. Ag-
new's Catarrh Powder, diffuses this Powder
over the surface of the nasal passages. Pain-
less and delightful to use, it relieves instantly,
and permanently cures Catarrh, Hay Fever,
Croup, Sore Throat, Tonsillitis
and Deafness. 60 cents. At W. G. Eggar,

TYENDINGA COUNCIL.

Council met on Tuesday, the 26th day
of March, 1895. John C. Hanley, Mayor;
Benjamin Osborne, 1st Deputy Mayor;
Patrick McAlpine, 2nd Deputy Mayor;
George Munro and Robert H. Scott, Coun-
cillors.

The minutes of last session were read
and confirmed.
The Mayor introduced a by-law to ap-
point a Court of Revision and a by-law to
change the boundaries of certain school
sections in the Township of Tyendinaga
which were confirmed in committee,
signed and numbered.

In accordance with a resolution passed
at the February meeting of council the
Clerk asked the several printing offices in
the County to send him tenders for the
printing and stationery required for mu-
nicipal purposes for the year 1895, receiving
tenders from the following offices: Intelli-
gencer Printing Company, \$70; Sun
Office, \$72.30; Ontario Office, \$33.
On motion of Mr. Scott, seconded by
Mr. Osborne, the tender from the Ontario
Office being the lowest was accepted.

On motion the following bills were
passed in committee and placed on the
list for payment: R. F. Pagan, coffin for
John Winters, \$7; Patrick A. Shannon,
two cords of wood for poor, \$1; the Clerk
making duplicate collector's roll, expenses
in connection therewith, postage, etc.,
\$9.09; Wm. Drumme, repairing bridge
over Mud Creek south of Slacks road, \$10
and extra work on bridge, \$2.50; J. C.
Hawthorne, drainage, etc., \$10; the
Fitzgerald deed, \$3.05; Thomas, Car-
roll for poor, \$3.75; Dennis D. Callaghan,
wood for Town Hall, \$3.25.

Council adjourned till the first Tuesday
in May.

A. B. RANDALL,
Clerk.

SOMETHING

Sifters, Corners Improved Washing
Machines, Wringers, the Dandy, Disin-
fection and Cradle Churns at Miles S. Plan-
ley's, Napanee. 3t

IMPORTANT EVENTS.

To the Editor of THE TRIBUNE.

I desire to call the attention of every
farmer and fruit grower and particular-
ly the members of our local Farmers' In-
stitute to the announcement that a representative
of the Minister of Agriculture will be in
Belleville, and conduct certain spraying
experiments on the 10th of April at 2 o'clock
p.m. In view of the necessity of acquiring
all information possible regarding the pro-
tection of our fruit from the many insect
enemies, it is to be hoped that every
person interested who can find it possible to
attend will do so. J. C. HANLEY.
President of East Hastings Farmers' In-
stitute.

The Citizens' Band will contribute
some of their very best selections at
the concert in Union Hall this even-
ing.

O'Sullivan 177, Eddie Egan 169. (Maximum
300)

G. E. Snider has reduced the
prices of all lines of Jewellery,
Clocks, Watches, silver and plated
ware, etc., as the owners have de-
cided to rebuild the block in which
his store is located and he must
therefore move to other temporary
quarters.

MOSCOW.

Some of our weather prophets are predicting
a late spring.
Our little village was the scene of a happy
event last Wednesday evening, March 27th.
At her mother's residence Miss Sarah Con-
way was married to Mr. Geo. Loyst, of Gull
Creek. Congratulations.
Mrs. A. Martin is convalescent.
Miss A. E. Lucas is visiting her sister near
Odesa.

DEMORESTVILLE.

Mr. Adam Palmer has rented T. Mills'
blacksmith shop where he will be prepared to
do all kinds of blacksmith work.
Mr. Hugh Leach proposes moving to Deser-
onto in the near future.
Mr. Phillip McGonnet's baby, who has been
dangerously ill, is mending nicely under the
care of Dr. Mordean.
Mrs. Ernest Thompson has been visiting
her parents for a few days.
Everybody has had their share of the Ger-
man measles.

EMERALD.

Work on the new dairy is progressing.
The Miss Richards are recovering from
their recent illness.
A bear's den with three cubs was found in
the upper end of the Island.
A deer chased by hounds came over from
the main land and rushed into the upper gap
to cross to Prince Edward. It was followed
by men in a boat and captured alive. It
weighed 250 lbs.
The Shamrock is the name of our new foot-
ball club which will be prepared to hold its
own against all comers.

DORLAND.

Mr. Maggie Davy, of Bath, is the guest of
Mr. W. D. Roblin, this past week.
Mr. Samuel Huff, of Cressey, has been re-
newing acquaintances in Dorland and Adol-
phusville.
Rev. J. C. Ash, of Belleville, spent Sunday
in Dorland, the guest of Revford Dorland,
Esq.

Our school is progressing favorably under
the management of Miss Gurien, of Sandhurst.
Miss Fred Roblin and Mrs. John H. Roblin
visited Northport for a couple of days last
week.
A sugar social and concert under the
auspices of the A. O. U. W. will be given in
the Town Hall, Adolphusville, on Friday,
April 6th. Lots of sugar and a good pro-
gramme.
The roads are in a very bad condition just
at present.

MACDONALD.

The death of Mr. Gilbert Woodcock
occurred on Friday, March 28, at 5 a. m.
He had not been well for a few days but death
came to him very suddenly. He was a
victim of asthma. The funeral, which took
place on Monday, was very large considering
the bad roads and the snow storm, and gave
evidence of the esteem in which the de-
ceased was held by his friends. The service
was conducted by Rev. H. I. Allen, whose
text was Psalm 21, verse 4, "Yea, though I
walk through the valley of the shadow of
death, I will fear no evil." The remains were
placed in the vault of the
Napanee cemetery.
The snow is going rapidly and the roads
are in bad shape.
Many farmers have tapped their trees and
are making syrup and sugar.
Mr. Joseph Clarke's youngest daughter
sprained her ankle jumping out of a sleigh,
but she is doing well.

BATH.

April and—The road from here to King-
ston are very bad and on Saturday the stage
was five hours on the way.
H. Lewis is laid up from having run a
nasty nail in his foot.
Mate Johnson of the str. North King
having passed his examinations at the Ontario
Veterinary College is spending a few days at
home before leaving for his boat.
Mr. Balcock, of Odesa, waited on the
Council on Monday night, asking for a bonus
of \$500 to build a saw and grist mill here.
If the money is forthcoming he agrees to put
up a mill valued at \$4000.
A young deer that has been hovering near
the village for the past few days was run down
by Chas. Laird's dog on Saturday; it only
lived a few hours after being caught.
Sheriff Pugh says continues very low and
not much hope are entertained of his recovery.

PARMA.

Roads bad; weather fine.
Chopping wood and making sugar are all
the rage now.
Mr. Thomas Thompson, formerly of
Adolphusville, who has been staying with
Mr. William Clark this winter died on Sat-
urday evening the 31st, aged 84 years.
Mr. Herbert Diamond has returned home
after visiting friends in Belleville for the last
week.
Mr. Abraham Carter has moved into
Edward Clark's house.
Mr. Frank Clark is staying with his uncle,
John Clark, Conway.
Rumor says a wedding soon.
Mr. & Mrs. Finly B. Galt and sister have
been under the doctor's care from heavy colds;
we are glad to hear that they are much better.
Mr. Jonas Garrison, one of our aldermen,
is preparing to move on his own farm.
We are sorry to hear that Mr. George
Loyst has been quite ill.
Mr. Marshall Davis, our popular milk
drawer, has lost the contract this year, and all
capt. D. Griffith, our much esteemed Re-
gent of South Fredericksburg, has been quite ill
with a severe cold and lame back but we are
pleased to hear that he is much improved.
Mr. George Wagar has been busy drawing
his pressed hay to Napanee for the last few
days.

BOYS' ODD PANTS.

The Oak Hall has them and lots of them
too. We have in stock to-day over one
thousand pairs. For the little boy of 4-5
and 6 years of age you can get a pair of
pants for 25c. We won't be "just out
out" when you come after them. We not
only have a large stock of these goods but an
unusually ill selected stock. It don't pay
you mothers to make boys' pants.

MARYSVILLE.

We are grieved to have to chronicle the sad
news of the sudden death of Mrs. Thos.
Deacy, an old and esteemed resident of our
village. She was taken suddenly ill on Wed-
nesday while dining, and on Friday evening
passed peacefully away in spite of the united
efforts of physician and kind friends. She is
survived by her husband, one son, and four
daughters, who have the sympathy of the
entire neighborhood in their bereavement.
Rev. Father Maclear of Belleville, the
former pastor of St. Mary's attended the
funeral of the late Mrs. Deacy, on Sunday.
On Wednesday last, Miss Priscilla, Miss
Minnie and Master James Lafferty, of Stirling,
left here for Wyoming where they intend to
remain some time.
What makes one of our young men look
so lonesome this last week? Some near
friend must be "worse than dead."
Miss Libbie Dryden was the guest of Miss
Mabel Ryan on Sunday last.
La Grippe has visited this section again and
our school was closed last week.

CARMANVILLE.

March 28—Mr. and Mrs. Jas. Scanlin, of
Enterprise, spent Sunday with Mr. and Mrs.
D. McKewen.
Miss Ethel Brown spent a couple of days
with friends here.
Mr. and Mrs. Wm. Bell have returned to
Tarnworth.

Mr. John Reid who has been suffering
from an attack of rheum, is able to be around
again.

We heartily sympathize with one of our
young men here, he has to take a long
drive coming home from a social, not long
since. It was not the fault of snow so much
as of water.

Miss Mary Evans spent Sunday with Miss
Tat Dillon.

The buzz of the saw mill is heard now,
early in the morning and late in the evening.
Mr. Reid is very busy having an unusually
large number of logs to saw this spring.

Master Corrie Cummings is ill with malaria
fever.

Miss Rose Storey is visiting friends in
Kingston.

S. is a first class captain but it takes F. to
do the planning.

TYENDINGA RESERVE.

Exc-Precinct Chief J. B. Brant has leased
his farm for a term of years. The lessee is
going to turn his attention to market garden-
ing.
The wife of Chief S. Loft, who has been
suffering from a sore leg, had it amputated
below the knee by the skillful hand of
Dr. Newton on the 29th of March. She is
doing well and likely to make a speedy
recovery.

The Easter offerings of the Parish will be
attended services at the Methodist Church.
It is expected that the response to the appeal
will be liberal.
A young man of Deseronto who frequently
attends services at the Methodist Church, a
handsome prayer book for use on the altar.
Two of the teachers on the Reserve did not
bring in an appearance at the Inspector's town-
ship school on the 22nd of March.

The measles are prevalent on the Reserve.
R. M. Jack has been very busy overhauling
the machinery of the dock at the store house.
It is now complete and the genial Robert is
ready for the rush.

CONWAY.

Mr. Thomas Thompson died at the resi-
dence of his nephew, Mr. Wm. T. Clark on
Saturday night at the advanced age of
twenty four years. His remains were placed
in the Allison vault on Monday.
Mrs. Conrad Sills is confined to her bed
with lung trouble but we trust under the
skillful treatment of Dr. Northmore she will
soon be around again.
Mr. J. S. Nixon, of Stella, paid Conway
a flying visit last week.
The Workmen did not open their lodge
Monday night as their attendance was rather
small.

Mr. Jas. Hill, Jr., has gone to Centreville
to take charge of his cheese factory out there.
The farmers in this vicinity have started to
make sugar but find the weather rather un-
favorable yet.

Mr. W. H. McDonald reports business
rather slow here for the past few days.
Farmers started their spring work about the
9th of April last year but will have to pro-
ceed a little later this season.

The ice is in good condition on the bay yet.
March came in like a lamb and went out
the same which kills the old prophecy.

LONSDALE.

Our village is getting quite out of the
depths of obscurity of late and those who had
forgotten Lonsdale doubtless have now a
vivid recollection that this charming village
is still in existence.
The Epworth League is progressing very
favorably, and large crowds are in attendance
every Monday evening notwithstanding the
bad roads.
Mr. Hiram Stafford has removed from our
road and gone to Empey Hill having rented
the farm of Mr. Jas. Gordon.

Your correspondent of last week intimates
a wedding but a "little bird" has been good
enough to inform us that the event has been
decided off. Try again.

There is a good fish in the sea as ever was caught.
Doubtless the three ministers of the town re-
ferred very much the postponement of the
wedding.

Mrs. Jas. McGuinness, has returned from
Belleville, having spent a few days visiting
her daughter Mrs. W. A. J. Hardy of that
city.

Rev. F. H. and Mrs. McDonald, of Queens-
bury, paid a visit to Mr. and Mrs. M. C.
Lazier.

Several from Lonsdale attend the quarterly
S. S. review at Salem. A large number were
present and an interesting and profitable time
was spent.

Miss Anabel McKee is visiting friends in
Belleville.

We understand that Rev. Garbutt pur-
poses giving a special and interesting Easter service.

By consulting our optician you escape any
injury to your sight and ascertain the proper
course to pursue regarding the use of
glasses. Consult with us at 272 Front street, Belleville.

ODESSA.

Another winter has put in its appearance,
but we hope however it will not last long.
Mr. F. Barrows, I. P. S., paid his official
visit to our school on Friday and reports
everything in good shape.
Sunday was a gala day in our Sabbath
school which we observe has about three
anniversaries during the year. On Monday
evening the entertainment given by the
children was quite successful, the children all
doing their part nicely. We would particu-
larly mention Miss Pearl Hogle who gave a solo
entitled "Yes, I'll Be Your Sweetheart"
in grand style. Although young, Pearl did well.
She has a clear sweet voice and with proper
care and training she is sure to make her
mark as a singer.

A number of our young people attended
the concert in Newburgh on Friday night.
Mr. C. H. Finkle, of Newburgh, passed
through our village on Friday en route for
Kingston.

Mr. Woodruff, of Sydenham, who has lately
taken possession of our grist mill is so busy
that he has no time to-day.

It is reported that one of our belles is to
marry one of Yaker's business men.

Mr. John Wheeler, of Lamont, has bought
Shiner's barber shop and takes
possession on Friday.

SYDENHAM.

April 2nd—The last meeting of the S. L. S.
was held on Saturday last. The subject
for the evening was, "Why the Party Govern-
ment had proved itself more beneficial to a
country than a Coalition government. The
alternative had the best of the argument.
Songs were well rendered by Messrs Daggett
and Moon and Messrs Parry and Winter.

Mr. Sharp is about to move into the house
now occupied by Mr. Walker who intends
returning to his farm at Murvale.

Miss C. Wood has returned from Kingston
where she has been visiting friends.

Two deaths which call forth the heartfelt
sympathy of the community have occurred
during the last week. One is the death of
Mrs. Laidlaw, an old lady son, and the other
that of Mrs. Gibson, of Murray,
the mother of one of our high school students.
We have inquired of the coroner from the
medical college, Kingston. He intends dur-
ing the summer to act as pursuer on the Maud.
The S. L. S. intend giving an "At Home"
on the 24th inst.

Mr. Switzer and W. Knapp are building a
boat house.

James McMillan has gone to Perth where he
has secured employment.

Council met on Monday last.

The concert at Harrowsmith was attended
by a large number of people.

Mr. Joseph Kelly has returned from Ottawa.

FRONT OF THURLOW.

Mr. Harry McDonald moves to the Frank
McDougal farm this week.

Mr. Frank Wallbridge is putting a large
addition to his barn. The estimate is busy
hauling lumber to Stanhopeville.

William Daxator has started making maple
sugar.

Last spring at this time people were sow-
ing.

Miss Maud Greatrix is visiting friends in
Belleville.

Shannonville League held services here on
Sunday.

Mr. James Battent is busy getting out
posts.

Mr. Arthur Cooper occupied the pulpit at
Point Ann on Sunday.

Mr. Lewis McDonald was the guest of Mr.
Allen Palmer on Sunday last.

Miss Eva Greatrix who has been visiting
friends in this vicinity has returned home.

The weather is very cold for the first of
April.

Mr. Henry Davis and wife were the guests
of their daughter Mrs. Thos. Vinson on Sunday.

Miss Peasall held a social examination here
on Friday March 29th.

Mr. John Palmer, of Belleville, was visiting
in this vicinity on Sunday.

Mr. Wm. Clark has imported a thorough
bred Ayrshire calf.

Our choir was rather small on Sunday.
The country around is infested with tramps.

GREYNA.

Our village seems to be quiet at present.
The big snow storm of Monday set in and
now we are expecting warmer weather and to
go into something, everyone eager to get
into making.

The road to put it mildly, are of the worst
kind, scarcely able to go anywhere.

On Monday the funeral cortege taking the
late Gilbert Woodcock, who died after a short
illness, to the vault at Napanee passed this
place.

On Monday, Mr. S. Barnhart, of Hay Bay,
had a stroke of apoplexy, but we hear he is
improving.

On Tuesday two officers from Napanee
passed through here with a man taking him to
town, a free ride.

A few days ago we were startled in this
vicinity by hearing that some of our people
living at the East End could not make out the
language used by some people of the West
End which was likely to cause a great deal of
trouble between the parties, but by referring
to his worship at Napanee he made it all plain
as daylight to all concerned. Charged a
nominal sum for the use of his dictionary.

The P. M. says he was in a terrible fix
last week as the result of THE TRIBUNE
getting delayed or missed somehow, did not
arrive by the mail; parties that take THE
TRIBUNE cannot be properly without it. He
says he hopes it will not again occur.

Visitors: Miss Mary Lunn and Mrs. Solmes,
of Napanee; Mrs. Paul Howell, of Richmond;
and Mr. George Howell and Miss Howell,
also Mr. Benson Moore, of Napanee; at Miss
Ella Mellow's.

MOST LIKELY.

Most men expect to buy a new suit and
probably a light overcoat this spring.
Have you the desire to make \$5 to \$8 on
your suit and a similar amount on an over-
coat? Most likely you have. Then, you
will come to the Oak Hall, Belleville, and
see what we can do for you. If you walk
to the custom tailor, and pay him his price,
without first seeing what we can do for you,
why, it is your own fault if you are "sick"
afterwards.

The Tribune.

FRIDAY, APRIL 5, 1895.

DISTRICT ITEMS.

A cheese box factory may be started in Perth.

Kingston expects a grand demonstration on May 23th.

Mrs Mary Ray, aged 40, of Napanee, died last week.

The work of constructing the Ottawa & Percy Railway is being very vigorously prosecuted.

The town of Trenton is greatly disturbed owing to grave financial difficulties, the school is closed.

A bill to give Cornwall separate school a larger share of the taxes was thrown out in the legislative assembly.

C. Moore of Harrington, has been awarded the contract of building a church for the Anglicans of Harrowfield.

J. Beckson, of Mount Hope, near Lunenburg, was killed at measuring 4 feet 6 inches from the muzzle.

Hor-grover in Bloomfield have shipped 172 bales of hops direct to England and will make larger shipments in a few days.

Mr. Sawyer, mathematical teacher of the Campbellton school, has resigned to take a government position at Ottawa.

Mr. and Mrs. Monroe, Elbe Mills, aged 97 and 95 respectively, recently celebrated their fifty anniversary of their wedding.

The firm of Hinch & Company, Napanee, has declared a first dividend of cents on the dollar. The Shaw Company of that town has sold out.

J. E. Allyn, of Deseronto, O. J. Amey, Ernestown Station; J. Bean, Wellington; and J. W. Johnston, Bath, have graduated from the Veterinary College, Toronto.

Wm. Thomas, Carleton Place, affected by an unknown complaint, has been awarded \$1,000 total disability by the O. F., and given into the care of a friend who will maintain him on receiving the additional \$1,000 at his demise.

Peter K. Caverly and Mary Ellis Wanzanmaker, both of Carlow, were married March 20th; Donald Thomson and Sarah Harworth, of Bancroft, on the 25th; Duncan McCallan and Melinda Kelly, of Parry, on the 27th, and Edward J. McConnell, of Carlow, and Phoebe Catherine Weiss, of Deseronto, on the 27th.

A NEW USE FOR DOGS.

In May at Dresden, will be made the first public trial of efficiency of dogs which have been in training for so long in the German army for military service, such as guarding the camp, finding the wounded and carrying degrees and messages.

For the trial of the last these will be a journey of three miles and back. A number of barriers will be put in the way to tax the ingenuity of the competition, and what is harder still other dogs who have nothing to do with the matter along the route to tempt them to loiter.

NERVE BEANS

NERVE BEANS are a new discovery that cure the worst cases of rheumatism, neuralgia, sciatica, and all other forms of nerve pain. They are made of pure vegetable matter and are entirely harmless.

For sale by W. G. EGAR.

ALL OVER TWO TREES.

Chas. Walker, of Iyendings, charged Erastus Davis, of Thane, with appropriating trees and wood to his own use, at the police court this morning. Plaintiff bought two trees for debt, but subsequently sold them to a third party, whom deft, refused to allow to take them. Judgment for plaintiff for \$12.40. A. A. Roberts for fire prosecutor, and deft, conducted his own case—*Intelligencer*.

MR. GLADSTONE'S HEALTH.

LONDON, March 31.—The sight of Mr. Gladstone's eye which was operated upon is markedly failing. The general health of the ex-premier is good and he is in good spirits. The power of endurance is shown in his work last Thursday. He paid a visit to the Speaker, after which he spent an hour in the museum of National History. Leaving there he called upon Sir William Harcourt and in the evening he dined with a group of friends of his son, Mr. Henry Gladstone.

COUNTERFEITERS AT WORK.

HEALTH AND LIFE ENDANGERED BY UNSCRUPULOUS DEALERS WHO PERSUADE UNSUSPECTING PEOPLE TO TAKE IMITATIONS—SOME POINTERS WORTH REMEMBERING.

No medicine that is not of more than ordinary merit suffers from imitations or substitutes. The fact that an imitation is offered is one of the strongest proofs of the excellent qualities of the genuine article.

The Dr. Williams' Pink Pills are not only sold in securely sealed boxes, the wrapper around which is printed in red ink and bears the registered trade mark "Dr. Williams' Pink Pills for Pale People." Notwithstanding this constant warning there are unscrupulous dealers here and there who defraud the public by selling an imitation pill (also colored pink) either by the dozen, hundred or by the case, alleging that they are "just as good," or "just the same" as the genuine Dr. Williams' Pink Pills.

This is a falsehood and the unscrupulous dealer who offers the imitation knows it, but is more concerned for the extra he makes on the imitation than for the health of his unfortunate victims.

Will the public, in their own interest, bear in mind the following facts.—Dr. Williams' Pink Pills are never sold by the dozen, hundred or by the case. If they desire a pill in this form (no matter whether colored pink or not) he is trying to cheat you and should be avoided.

Thermals of Dr. Williams' Pink Pills is a secret and is known only to the company. Therefore if some dealer tells you a substitute is "just the same" or "just as good" he is simply trying to deceive you because there is a larger profit for him in selling the imitation.

When you ask for Dr. Williams' Pink Pills see that the trade mark is on the wrapper of every package, and do not be persuaded to take anything else, no matter how plausible the story the dealer may tell. Imitations in medicine are always cheap, always worthless and often dangerous, and people who have a care for their health will always refuse them.

Dr. Williams' Pink Pills cure when other medicines fail. That's why they are in constant demand. It is not by accident that getting the genuine. Used as a spring medicine, Dr. Williams' Pink Pills surpass all other medicines. If feeling "out of sorts" give them a trial.

RELIEF IN SIX HOURS.—Distressing Kidney and bladder diseases relieved by Dr. Williams' Pink Pills for Pale People. "SCOTT'S AMERICAN KIDNEY CURE." This new remedy is a great surprise and delight on account of its exceeding promptness in relieving the most distressing cases of kidney and bladder diseases. It relieves retention of water and pain in passing it, and it cures the most distressing cases of kidney and bladder diseases. It is a great relief and cure. This is your remedy. Sold by W. G. EGAR and W. J. Malley.

THE CHITRAL CAMPAIGN.

The Chitral campaign attracts more attention than is generally devoted to any Indian frontier war. It has been expected for months, and the government in anticipation of this and other northwest frontier difficulties, has always maintained a substantial army in readiness around Peshawar. With a fortnight they were able to move 14,000 men into the Pathan hills, and to take them straight across the country to the rescue of Robertson and his besieged escort. The Chitral region to be penetrated in a terra incognita. No Englishman has travelled between India and Chitral by the short route. Its passes and defiles have been mapped by a few of the large body of native geographers, trained in the Indian survey office, who for twenty years have travelled into the least known regions of India, where a white man or a Christian would not dare to show his face. But the difficulties of the enterprise are not only topographical. The expedition will have to show a hostile force of about 10,000 men. There is no tribe in Afghanistan more fanatical and warlike than the Swatis. The chief ruler of those regions, Mirza Khush Khan, is a man of great power and influence. He is an adventurer who raised himself to his present position by the sword. He has enormous influence and it is not improbable that the British expedition may find itself confronted by 70,000 or 100,000 hillmen at various stages of the journey. The British authorities are naturally exceedingly anxious about the outcome of this enterprise. It will be a great achievement to Chitral, beyond which is a comparatively easy pass into Russian Turkestan, for the command of that point is the real objective of the campaign; but the reasons for the expedition, obtained only by an enormous outlay of money and probably a large sacrifice of life. Chitral may prove another Afghanistan.

FOR OVER FIFTY YEARS.

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. It is distributed at night and during the day, for a child's comfort and crying with pain of Cutting Teeth, sent at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for Children Teething. It will relieve the poor little sufferer immediately. Deposed upon it, mother, there is no mistake about it. It cures Diarrhoea, regulates the Stomach and Bowels, cures Whooping Cough, softens the Gums, and reduces Inflammation, and gives tone and energy to the whole system.

"Mrs. Winslow's Soothing Syrup" for Children Teething is pleasant to taste and is the prescription of one of the oldest and best family physicians and surgeons in the United States. Price twenty-five cents a bottle. Sold by all druggists and grocers. Be sure and ask for Mrs. Winslow's Soothing Syrup.

HOOD'S Sarsaparilla wins its way into the confidence of the people by the good it is doing. Fair trials guarantee permanent CURES.

MUSCLE MEASURING.

THE INTERESTING SYSTEM IN VOGUE AT YALE COLLEGE.

By It Each Student's Weakness May be Ascertained—The Rule of the Institution and Its Effects—Keeping the Physical Records of Students.

On moving into the new gymnasium on September, 1892, the requirement of physical exercise for the freshmen was abolished and the work put on an optional basis, both as to exercise and examination. This is now the case at Yale, except that the corporation voted at its June meeting in 1894 that it be required that every man who presents himself for examination in the gymnasium, or who desires to use its privileges, should first submit to a physical examination by the medical director; or, in default of such an examination, should bring from his physician a written certificate (the form to be furnished by the medical director) that he is physically sound, or a written certificate from his parents or guardian that he wishes the student excused from the examination and that he himself will take the responsibility of the consequences of exercise without a previous examination.

Under this rule about 60 per cent. of the men in the freshmen class are given a physical examination and a prescription of such exercises as seem to be most helpful in building up the weaker parts of the body. They are also warned against taking exercises that would be likely to be harmful, as jumping when the student has varicose veins, etc. All cases of abnormality have thus an opportunity to receive care and special treatment by exercise without expense where this method is likely to prove efficient. In other cases, as in errors of vision, the student is informed of his abnormal condition, and if the case be severe enough to warrant, he is referred to a specialist or the family physician.

The data secured at this examination cover a wide field, and many of the questions seem to certain points of physical quiver, but all have a bearing on the present or future welfare of the individual, and in general they are answered freely, as it is fully understood that all information of a personal nature is strictly confidential and will be used only for the good of the student.

The tabulation of this data has received some attention, and it will in the future receive still more. It shows us the influence that personal hygiene in preparation for college life has on the condition of the students. It shows us the type of the Yale student of to-day and the changes he undergoes during the period of college life. It shows us the disabilities under which he works or the advantages that he has, and, therefore, what may be reasonably expected of him. It often shows the direction in which he most needs help. It shows some of the deteriorating influences on growth and health, and it also shows us what exercise can do for bodily improvement.

A late development of this line of work is the use of a universal dynamometer invented by Dr. Kellogg, that can be used for showing the muscular power exerted by any of the groups of skeletal muscles, viz.: It shows not only the power of the flexor muscles of the hand, but also the strength of the extensor muscles; it shows the power of rotating the hand into pronation or supination; it shows the strength of the four groups of muscles in the neck when used singly; it shows the comparative strength of the two sides of the body, etc. The dynamometer tests not only the muscles, but the nerves and nerve centres as well, so that it is a precise measure of the condition of the individual's motor apparatus. The tape-line merely gives the dimensions of a man; it tells nothing as to whether he is alive or dead. A dynamometer gives us an accurate picture of the living, active man.

Graphic methods are used to show comparative sizes, strengths, etc., the percentile method suggested by Francis Galton being employed in all the more recent tabulations.

The aim of this department at Yale is to turn out well developed, healthy men as the product of the university, and to stand between the students and physical disease so far as it can be done.—J. W. Seaver, in New York World.

A Modern Stenographer.

Here is a story of a colonel who was much addicted to travelling, and who once reached home when the house was full of his son's guests and stayed to dinner. One of the company, a notorious story of his being off the Cape of Good Hope, in an Indian, when a floating object was discovered which proved to be a cask, whereupon a man was seated clinging to a small staff in the bung-hole.

"Come on board!" retorted the ocean waif when hailed. "No, thank you. I'm very comfortable here. I'm bound for the Cape. Get on!"

"Then, amid the silence which followed this incredible yarn, Colonel G— arose and gravely addressed the narrator.

"Sir," he said, "for years I have been trying to find anyone belonging to that ship to return thanks for the great courtesy shown to me on that occasion. At last I am enabled to do so, sir—I was the man on the cask!"—Tit-Bits.

New Use for Electricity.

Electricity has now, it seems, beaten the record of the gold beater, and can produce a foil of the mineral from five to ten times thinner than ordinary gold leaf. Joseph Wilson Swan, the chemist of electric lighting fame, has presented to the Royal Society a specimen of this wonderful thin foil made by depositing gold on copper with the electric current and then dissolving away the copper from it with perchloric acid.—San Francisco Examiner.

Year St. Raphael's, Gleanery, the 14-year-old son of T. Laflamme, while cutting down trees, was caught by a falling tree on the outside of the right leg, the calf of which was carried away. 41 stitches were required for the wound.

When the blood is kept pure and the system thoroughly invigorated by the use of Dr. Harte's Celery Iron Pills, all changes of temperature and extremes of heat and cold, so characteristic of certain climates, are rarely attended with injurious results. Take it now.

The barns and contents belonging to Harvey Austin, Lansdowne, were destroyed by fire, March 25. Thirty head of cattle, a horse, several tons of hay and about 500 bushels of grain went up in smoke. Loss \$3,000; insurance \$300. Fire supposed to be work of an incendiary.

A CHANGE IN TONE.

THE STAND TAKEN BY DOCTORS ON THE KENT CASE BEGINNING TO WEAKEN.

Ottawa, April 1.—It is safe to say that the statement made under oath by Mr. G. H. Kent, of this city, with regard to his wonderful recovery from Bright's disease through the agency of Dodd's Kidney Pills, has definitely decided the question as to whether he owes his recovery to this valuable medicine, and hay.

While, however, there is now no objection raised to the statement, there is still a strong feeling in the city and neighborhood with regard to the cure, and those who at first combated the idea as incredible are now loud in their expressions of astonishment that what has been considered an incurable disease should succumb so quickly to a remedy, and in their praise of the remedy itself.

A CAUTION! A WARNING!

If, on blowing the nose in the morning, lime and flakes are discharged colored with blood, especially on one side, less no time in applying a remedy. Catarrh of the very worst kind has become seated, the ears are sore and full of small ulcers, and if not soon cured will be hard to cure and eradicate. "A stitch in time saves nine." Use Chas. Catarrh Cure.

To remove wounds of all kinds from children or adults Dr. Low's Wound Syrup is a safe sure remedy.

WHEN OTHERS FAIL.

Hood's Sarsaparilla builds up the shattered system by giving vigorous action to the digestive organs, creating an appetite and purifying the blood. It is prepared by modern methods, possesses the greatest curative powers, and has the most wonderful record of actual cures of any medicine in existence. Take only Hood's.

Hood's Pills are purely vegetable, and do not purge, pain or grip. 25c.

5 LINES ON K. AND L.

I did the people around here prefer Dr. Chas. Kidney Liver Pills to any other I have seen. They are hard to wonderful pill. Send 3 dozen at once, I am nearly out. P. S.—sent by post, J. W. Ireland, Guernsey.

Did you ever hear a Rooster play a Fiddle?

PAINE'S CELERY COMPOUND MAKES PEOPLE WELL.

Thankful People Everywhere Gladly Endorse the Great Medicine.

It is a Blessing to the Whole Canadian Dominion.

Physicians Acknowledge its great curing Virtues.

It Makes Strong Nerves and Pure Blood.

It cures Disease and Long-standing Troubles.

An Ontario Man Strongly Testifies.

"I am a living witness to the worth of Paine's Celery Compound."

This is the statement of Mr. G. J. Smye, of Sheffield, Ont.

It makes people well!

This fact is so widely known and so fully borne out by thousands of magnificent cures that the simple statement is in itself sufficient.

The whole Dominion has been blessed by the marvelous work of the great medicine, and an army of rescued and saved men and women bless the noble discoverer, Prof. Edward E. Phelps, M. D., L. L. D.

Master minds among the medical men of the present day readily acknowledge the potent and curing virtues of Paine's Celery Compound. They find that it makes strong nerves and pure blood, two essentials necessary for perfect health and strength.

Long standing troubles and diseases are cured by Paine's Celery Compound when all other medical agencies fail in their work.

For kidney and liver troubles, it is the infallible remedy. Nervous debility, exhaustion, sleeplessness, and headaches are quickly swept away by the curing powers of Paine's Celery Compound.

This is the season when the sick, must of necessity, recuperate lost strength, and gain the healthfulness so necessary to make life pleasurable for the summer. All should bear in mind the fact that Paine's Celery Compound "makes people well."

The following letter from Mr. G. J. Smye, of Sheffield, Ont., speaks of a wonderful cure after all ordinary means had failed to do the work:

"It is with great pleasure that I testify to the value of your great medicine, Paine's Celery Compound. For nearly two years I suffered from indigestion, kidney and liver troubles. After trying several medicines that did not effect a cure, I decided to try your Compound. Before using it I was so low in health that I could not eat or sleep. I could not lie in bed owing to pain in my back; it was only by resting on elbows and knees I was enabled to obtain a slight degree of ease. Before I had fully taken one bottle of your medicine I began to improve. I have in all taken fourteen bottles with grand results. I am a farmer and am now working every day. Anyone may refer to me in regard to those statements, or to any of my neighbors around Sheffield, where I am well known. I am a living witness to the worth of Paine's Celery Compound."

A Peculiar Case.

COVERED WITH PIMPLES.

AN ANXIOUS MAN.

THE DISEASE DISAPPEARS IN THREE WEEKS BY THE USE OF B. B. D.—LETTERS FROM MONTREAL FULLY DESCRIBING IT.

DEAR SIR,—During the winter of 1892-93, I was covered with Pimples on the inside of my right leg between the knee and the ankle. As I never had any thing of the kind before I was anxious about it, and sought medical advice, but getting no relief from the doctor I bought a bottle of B. B. D. applying some of it to my leg as well as using it internally, and to my surprise the nasty disease, whatever it was, was disappeared within three weeks, and I am thankful to say it has never re-appeared.

N. MITCHELL, Carmarthen, Man.

THE I. O. O. F.

THE ORDER HAD A PROGRESSIVE AND SATISFACTORY YEAR IN 1894.

The annual report of the Grand Secretary, Independent Order of Oddfellows, for the year ending Dec. 31st, 1894, is most satisfactory, showing that the order, notwithstanding the prevailing depression in commercial business, is still enjoying increasing prosperity. The net increase in the membership for the year was 1,104, within a trifle of the best since 1879, and twelve subordinate lodges have been instituted, with every prospect of several further additions in near future, the total membership in good standing, being 21,602. During the year 3,000 brothers, 156 widows, and 27 children had received six benefits and relief amounting to \$79,555.14. The total amount paid for current expenses was \$75,845.55, making total disbursements \$155,400.69, the grand total for the year.

The funds of the society are as follows: General benefit fund, \$764,064.45; widows and orphans fund, \$79,030; contingent fund \$17,966.55; total, \$860,967. The Rebekah branch also continues to prosper, having gained 736 members during the year, with increase of assets of \$743.57.

Sick headache and Constipation are promptly cured by Burdock Pills. Easy to take, sure in effect.

When Baby was sick, we gave her Castoria.

When she was a Child, she cried for Castoria.

When she became Man, she went to Castoria.

When she had Children, she gave them Castoria.

necessity, recuperate lost strength, and gain the healthfulness so necessary to make life pleasurable for the summer. All should bear in mind the fact that Paine's Celery Compound "makes people well."

The following letter from Mr. G. J. Smye, of Sheffield, Ont., speaks of a wonderful cure after all ordinary means had failed to do the work:

"It is with great pleasure that I testify to the value of your great medicine, Paine's Celery Compound. For nearly two years I suffered from indigestion, kidney and liver troubles. After trying several medicines that did not effect a cure, I decided to try your Compound. Before using it I was so low in health that I could not eat or sleep. I could not lie in bed owing to pain in my back; it was only by resting on elbows and knees I was enabled to obtain a slight degree of ease. Before I had fully taken one bottle of your medicine I began to improve. I have in all taken fourteen bottles with grand results. I am a farmer and am now working every day. Anyone may refer to me in regard to those statements, or to any of my neighbors around Sheffield, where I am well known. I am a living witness to the worth of Paine's Celery Compound."

These two ladies for home use see that your dealer gives you "Diamond Dyes," imitation and worthless dyes will ruin your materials and garments.

Thrift and economical mothers rarely buy new clothes for their children, yet the little ones are always well and handsomely dressed for school and church. This is the result of using Diamond Dyes, which make all the fashionable colors with but little work.

Suits for boys and little dresses and jackets for girls that have faded and come discolored, are quickly transformed into new garments by the magical working of Diamond Dyes.

These two package dyes cost but 10 cents per package; they are simple to use—indeed any child can use them and get a grand color. The colors produced by Diamond Dyes are fast and strong, and in many respects far superior to the colors used in large dyeing factories.

When buying dyes for home use see that your dealer gives you "Diamond Dyes," imitation and worthless dyes will ruin your materials and garments.

A YOUNG LAD

AND

HIS FAITHFUL FRIEND.

ERNEST MOOREHEAD, OF WHITBY, ONT., GIVES AN ACCOUNT OF HIS EXPERIENCE—CURED OF PERMANENT DYSPEPSIA BY B. B. D.

WORST KIND OF DYSPEPSIA.

GENTLEMEN,—I write to inform you that for years I had been troubled with Dyspepsia, and having tried other medicines which entirely failed, I at last found relief and cure in Burdock Blood Bitters, of which I took two bottles, the result being perfect cure. Although only a young lad I had been troubled with Dyspepsia for four or five years, but I can say now that B. B. D. does its work faithfully in the worst kind of Dyspepsia, and has proved itself the only cure for me.

ERNEST MOOREHEAD, Whitby, Ont.

"IF YOU SHOULD DIE TONIGHT"

Well, it would be your own fault, if it was consumption that took you off, and if you refused to take Miller's Emulsion of Cod Liver Oil, which has been pronounced by scientists to be a positive cure for that dread disease. If you have any lung trouble, if you are threatened with consumption, lose not an hour in obtaining a supply of Miller's Emulsion of Cod Liver Oil. It is the great blood maker, and blood is what is needed by the cot of vitality. Miller's Emulsion is the great nerve strengthener and blood maker, and cures Coughs, Colds, Bronchitis, Scrophulous and all Lung affections. In Big Bottles, 50c, and \$1, at W. G. Eggar and W. J. Malley's.

"She Looketh Well"

to the ways of her household." Yes, Solomon is right; that's what the good housekeeper everywhere does, but particularly in Canada.

But her ways are not always old ways. In fact she has discarded many unsatisfactory old ways. For instance, to-day she is using

the New Shortening, instead of lard. And this is in itself a reason why "she looketh well" in another sense, for she eats no lard to cause poor digestion and a worse complexion.

COTTOLINE is much better than lard for all cooking purposes, as every one who has tried it declares. Have you tried it? For sale everywhere.

Made only by

MUCH LIKE A MIRACLE.

A STATEMENT FROM A WELL-KNOWN BERLIN MERCHANT.

HOW HIS DAUGHTER WAS RESTORED FROM THE TORMENTS OF VITUS DANCE—HER CASE ONE OF THE WORST EVER KNOWN—HAS FULLY RECOVERED HER HEALTH.

The readers of the News have been made familiar with the virtue of Dr. Williams' Pink Pills for Pale People through the articles appearing from time to time in these columns, and while the druggists say that in this vicinity have received undoubted benefit from their timely use, it is only recently that we have heard of a cure in Berlin of such importance as to take rank among the most remarkable yet published. There is hardly a man or woman in the town of Berlin, or the town of Waterloo, who does not know Mr. Martin Simpson, issuer of marriage licenses and general merchant, King street. Anything said by Mr. Simpson will be implicitly relied upon. A day or two ago we had a talk with him in reference to his fourteen year old daughter Helen, who had for two years been a sufferer from St. Vitus dance. He tells us that it was the worst case he ever saw. She did not sleep for whole nights and was an intense sufferer. She was totally helpless, making her jump high above her couch. The best medical attendance was had, but all to no avail. She kept getting worse and worse and finally, when in the paroxysms, commenced to froth at the mouth, and her parents believed she was going out of her mind. Though unable to walk about eight months she would in her spells have fits, making her jump high above her couch. While in this condition, the worst case ever seen in this place, Mr. Simpson, as a last resort, purchased some Pink Pills and gave them to his suffering and afflicted daughter. He assures us that in thirty hours she found some relief. In a week the "dances" were entirely stopped and she was able to sleep, and was rapidly regaining her former strength. Some months after the use of the Pink Pills was discontinued she again had touches of disease, but a few doses of the pills stopped it, and for the last eight months has been entirely free from the terrible malady from which no one who has touched the wonderful merit of Pink Pills, it is little wonder that they are the favorite remedy with all classes. They are an unequalled agent for locomotor ataxia, paralysis, St. Vitus dance, sciatitis, neuralgia, rheumatism, nervous headache, the after effects of a grippa, palpitation of the heart, nervous prostrations, all diseases depending on vitiated humors in the blood, such as scrophulous, chronic erysipelas, etc. They are also a specific for troubles peculiar to females, expressions, irregularities, and all forms of weakness. In men they effect a radical cure in all cases arising from mental worry, overwork or excesses of any nature.

These pills are manufactured by the Dr. Williams' Medicine Company of Brockville, Ont., and Schenectady, N. Y., and sold in boxes (never in loose form) by the dozen or hundred, and the public are cautioned against numerous imitations (the shape), at 50c a box, or six for \$2.50, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Co., at either address.

Norway Pine Syrup cures Coughs, Colds, and all throat and Lung Troubles. Price 25 and 50c.

ARE YOU DRAPE

Or do you suffer from noles in the head then send 3 cent stamp and I will send a valuable treatise containing full particulars for home cure which costs comparatively nothing. A splid will on despatch and the ear. Address, PROF. G. CHASSE, Montreal.

Pure blood is absolutely necessary in order to enjoy perfect health. Hood's Sarsaparilla purifies the blood and strengthens the system.

The rapidity with which croup develops calls for instant treatment; and yet few householders are prepared to give it. An admirable remedy for this disease is Ayer's Cherry Pectoral. It has saved hundreds of lives and should be in every home where there are young children.

Belleville.

Did you ever hear a Rooster play a Fiddle?

LOCAL ITEMS.

Full moon next Tuesday.
Next Sunday is Palm Sunday.

To-morrow is known as Old Lady Day. It is 396 years ago to-day since Canada was discovered.

Mr. Edward Horsey will again be purser of the Hero this season.

Mr. George Butler will be purser of the Ella Ross this coming season.

The bicycle business is now pushed to the utmost by an army of local agents.

A caterpillar was seen crawling along the boardwalk on Main street last Friday.

W. S. Moore, the baker, is out with a neat new bread van of an attractive style.

By a vote of 304 to 260 the British house of commons has passed the second reading of the bill to disestablish the Welsh church.

All kinds of advertisements should be in early next week. Friday being a public holiday necessitates our going to press on Thursday.

The Steady Gleamers of the West End Mission are successful socially recently at the residences of Mrs. D. Fowles and Mrs. A. Smith.

Mrs. Oronhyatka, of "The Pines," left on Tuesday to join Dr. Oronhyatka on an extended trip to California and British Columbia.

The Gazette, a new paper recently started in Campbellford, comes to hand. It is a newly well arranged journal which cannot but be a success.

Deseronto Council, Royal Templars of Temperance, is in a very prosperous condition, initiations being numerous and meetings very interesting.

It is feared that as a result of the bite of a dog which attacked him recently, W. Harlett, chief engineer of the steamer Hero, may have his leg amputated.

Walkers Bros', Colossal Uncle Tom's Cabin Company Show will take the road May 4th on which date it will appear at Lonsdale at Deseronto, May 6th.

New shafts have been placed in the steamer North King. The wheels have also been renewed and it is expected she will run much faster than she did last year.

A Pembroke grocer who has adopted the cash system has closed his ledger and in this position spiked it to the counter. When credit is asked for, he simply points to the closed book.

At the convention held in Picton on Saturday, the Liberal Conservatives of Prince Edward decided not to select a candidate for the commons before the close of the parliamentary session.

The Canadian Order of Foresters have made arrangements for asking the Dominion Parliament at the approaching session for extended powers, made necessary by the increased business of the order.

Mr. David Creighton, formerly manager of the Empire, has been appointed deputy registrar-general in Toronto at a salary of \$3,000 per annum. His newspaper friends congratulate him on his good luck.

The girls will have a chance next year. It will be the last for eight years. The last years which fall in the last year of a century are not counted, so there will be only twenty-eight days in February of 1900.

Mr. Robert Adams, late of Napanee, is now making his home with his son Mr. Robert Adams, Thomas street. The old gentleman, who is a native of Kilkenny, Ireland, is in his 87th year, one of the oldest residents of the district.

Maple sugar and syrup producers claim that there is every probability of this being an extra season for the production of these toothsome articles, as the sap is already running plentifully and it is unusually sweet.

The weather continues rather cold and spring has not made much advance during the week. There were light falls of snow on Friday and Monday, three inches falling on the latter day, and deluges were out on Tuesday morning.

OYSTERS.

Remember we are still handling those fine-lined Baltimore Oysters, and parties wanting quantities can be supplied on short notice.

Wishing everybody the compliments of the season,

Yours Truly,

W. H. BRUTON,

Eight new buoys are to be placed in Napanee River, to locate the channel as soon as the ice breaks; the old buoys have all been repainted.

At Belleville market last Saturday, butter sold for 15c, eggs for 12c to 13c, chickens 60c to 75c per pair, lard 12c, potatoes 50c a bag, apples 50c to \$1 a bag.

Mr. E. S. Westmorland, the Main street butcher, is in Guelph this week making large purchases of fat cattle for the Easter market. He intends making a great display next week.

It is said that farmers in Tenebrides have lost more poultry this spring by foxes and coon than in any previous season. These animals are not only more numerous but more daring.

The drain on the west side of the Bay of Quinte Railway, between Sucker Creek and the Slush Road, works like a charm. The surrounding properties having never been so free of water at this time of year as they are at present.

The Pictou Times states that Miss Fair Morgan, daughter of Prof. Morgan, is ill at Belleville. She is suffering from overwork, complete nervous exhaustion and fainting spasms. It is feared she will never be able to resume her work.

The Steady Gleamers of the West End Mission contemplate holding an entertainment in Union Hall during the third or fourth week of the present month. Admission 10c. There will be good programme with all the attractive features.

The G. T. R. has new switch lamps which they will put on all the switches. It is called the Piper lamp and gives satisfaction. It shows a better light than the old style of lamp. The new lamp requires no globe and the wind cannot blow it out.

On Tuesday morning Judge Lader sentenced Mrs. Green, of the Reserve, to one month in the county jail for attempting to burn down her husband's residence. He would have sentenced her for life but as it was a family quarrel and the first offence, he was disposed to be lenient.

On Saturday afternoon the Chief arrested M. Maloney, a young man who had been imbibing rather freely and who got into a "scrap" with some others. He was released the next morning on conditions of his signing the pledge. His companions should take warning and also sign the pledge or trouble will be in store for them also.

Delegates from the Newfoundland government have arrived at Ottawa to negotiate terms for the admission of the Island into the Confederation. The Dominion government should grant as favorable terms as possible in order to secure Newfoundland as a province. The union will be followed ultimately by rich results as Newfoundland is a country of almost limitless resources.

The premiership of Great Britain and Ireland seems to be a trying position in the case of everyone except Gladstone. It killed Disraeli; put a score of years upon Salisbury's shoulder; and has brought Roseberry to premature old age. Yet Gladstone is young and vigorous at 85, and not averse to taking another hand at guiding the destiny of the nation.

A large mail bag containing the bundles of THE TRIBUNE for Marysville, Shannonville, Road, Belleville, etc., was miscarried on the railway tracks last week, and the subscribers at those points were greatly disappointed at not receiving them on Friday or Saturday. We learn that it has since turned up and the bundles have been distributed.

The Dr. Williams Medicine Company, manufacturers of the famous Dr. Williams Pink Pills, wish to impress upon the public the necessity of guarding carefully against parties who try to defraud by passing off imitation pink pills instead of the genuine article. The Dr. Williams Pink Pills are never sold by the dozen, hundred or ounce. They are only sold in securely sealed boxes, the wrapper of which bears the registered trade mark.

Mr. I. H. Walker has sold out his bakery business to his brother, Mr. George Walker, and will remove to Napanee. For ten years he has carried on the bakery business in his native town, Deseronto, dividing out satisfaction to his numerous patrons and proving himself a popular citizen. A member of a musical family he was ever ready to assist at church and society entertainments. He will now be connected with Walker Bros'. Uncle Tom's Cabin Company which goes out on the road this spring. He retains his house and lot in Deseronto and may return to this town at some future date.

Messrs. Dart & Oke, furniture manufacturers and dealers have decided to remove to new quarters, and Mr. John McCullough has commenced the erection of a warehouse and factory on the front of the old school site of historic fame, situated on Edmund street near the town hall, will be enlarged and rebuilt, the work to be completed by Mr. G. A. Clement before the first of May. The factory will be a separate building. A gas engine has been purchased to furnish the motive power. The firm have also secured the services of Mr. J. M. Smith who will direct the undertaking department. Mr. Smith, besides being a clever cabinet maker, has had over thirteen years experience as undertaker, embalmer, etc.

NO MORE DOOR-MAN.
The Oak Hall has come to the conclusion that it is not necessary to have a door man, as the store, hall and stopping people, is not at all in keeping with a first class establishment. We have thought that it was necessary in order to protect ourselves, but we have come to the decision that, controlling (as we do) the sale of goods of clothing in our town, it is not necessary. We expect to try to do this fact, and back us up in (what we consider) conducting a business in a modern way.

THE OAK HALL.
The man who has been wearing a heavy winter coat, and has it made this fine coat, you cannot possibly do without some kind of overcoat. The Oak Hall has the light suit that you want, for \$8 and \$10, pay \$10 if you can, as it is a beauty. You are surely not going to be foolish enough to pay \$18 to \$20 for what we will send you for \$10. Take the hint?

A very interesting programme at the "Herald" concert in Union Hall to-night (Friday). Admission, 10 cts.

Capt. Christie is overhauling the Ella Ross.

Prof. Matheson, of Napanee, is forming music classes in town.

The ice in the bay still holds solid, though gradually weakening.

Mr. G. A. Parham has tendered his resignation as a councillor for the Centre Ward.

Richard Marigan and Thos. Fox returned from the North yesterday; a sure sign of spring.

Dr. Oronhyatka has purchased from Chief Jacob B. Brant the latter's interest in lot 49, South Smith street.

The Kingston Whig now occupies new quarters. The new building is one of the finest newspaper offices in Canada.

Mrs. John Presley, of Kingston, and her son, John S. Chapman, leave for the old country immediately as a near relative has died and left them a small fortune.

A fine carcass of beef weighing 853 lbs. was greatly admired at Mr. R. H. Baker's shop last week. The animal was raised by Mr. John Russell of Richmond.

Mr. A. A. Richardson, manager of the Big Store, who was very dangerously ill for some days from erysipelas aggravated by the grippe, is, we are glad to state, very much better, and it is hoped he will be able to be about before many days.

The lively business and property of the late Mr. James Galt is offered for sale, as will be seen by advertisement in another column. This property is one of the best of the kind in Ontario, having always enjoyed a very extensive patronage while its location is unsurpassed.

During the quarter ended March 31st, there were on the roll of the Presbyterian Sunday school 5 officers, 23 teachers and 238 scholars, a total attendance of 266. The average attendance for the thirteen Sundays was 294, which was very good considering the weather.

The largest attendance was on Feb. 10th and 24th, when 213 were present on each day, the lowest was 155 on the last Sunday of January. 41 scholars never missed a day. The average attendance of teachers was excellent.

Wanted.
Any person having copies of THE TRIBUNE of June 8th, Aug. 10th, Nov. 16th and 30th, 1894, will be paid for same by leaving them at this office.

Pro-nominate Concert.
The singing school is arranging for a pro-nominate concert which will be held in Naylor's opera house about the last week of April. It will be the most brilliant event of the season.

Notice.
The members of the citizens committee appointed at a public meeting last fall will meet in the town hall next Friday evening to consider band matters. All are requested to be present.

Social.
The ladies of St. Mark's congregation will give a social in St. Mark's Hall on the evening of Easter Wednesday. There will be a scarf drill and a good programme of songs, music etc. Admission 15 cents, or two for 25.

Funeral Notice.
The singing school which was to have been held last week at the home of Mrs. G. E. Clement was postponed on account of the death of Mrs. Wellman. It will be held next Wednesday evening. All welcome. Good programme. Admission 15c, or two for 25c.

Latest Game Laws.
The following is the latest revision: Book agents may be killed from August 1st to October 1st; spring geese from March 1st to July 1st; scaudmangers from January 1st to December 31st, inclusive; umbrella borrowers, from February 1st to May 1st and from August 1st to November 1st. Open season all the year around on life insurance agents and the fellows who borrow their neighbor's papers.

Successful Students.
At the recent medical examinations of Queen's University among others who were successful we observe that T. J. Butler, of Deseronto, and R. A. Croft, of Hallowell, passed for M. D. and C. M. W. J. Giddis and Wm. C. O'Connor, of Deseronto, passed the first year examinations in junior anatomy and physiology and junior chemistry. At the Toronto College of Dentistry, W. D. Knight, of Deseronto, passed the first year examinations with honors.

Johnston Band.
The Johnston Band have been so fortunate as to secure the services of Mr. Josiah George, late of the Onondaga Reserve band, as their instructor, and have already commenced practice for the coming season. The visit of the Onondaga band to Deseronto will be remembered by our citizens as it was a very superior musical organization. The Johnston band made surprising progress last summer and there is every reason to believe that it will hold its own this year. The band will be open for engagements for all kinds of events.

TAKE OFF THOSE CLUSTERS.
The men who have been wearing a heavy winter coat, and has it made this fine coat, you cannot possibly do without some kind of overcoat. The Oak Hall has the light suit that you want, for \$8 and \$10, pay \$10 if you can, as it is a beauty. You are surely not going to be foolish enough to pay \$18 to \$20 for what we will send you for \$10. Take the hint?

A very interesting programme at the "Herald" concert in Union Hall to-night (Friday). Admission, 10 cts.

HOUSE AND LOT FOR SALE.
FOR SALE at a bargain, lot 12 in Block 2, near the town hall, fronting on the main street, desirable locality; tract of nine dollars per month; good well and out-buildings well fenced, in good repair. Price \$25.00. Call on Mr. McCullough for further particulars.

Remember the concert in Union Hall this (Friday) evening. Admission 10 cts.

JNO. MCCULLOUGH.

BOYS' CLOTHING.

Is it any advantage, in putting clothing on your boy, to have the garments fit properly? We think you will answer yes, the Old Hat Store, the sale of Sanfor's clothing for Belleville, and once your boy wears this make, you will not care for the appearance of his clothes. We guarantee to give you an assortment equal to any house in Toronto or Montreal, and can show 20 suits to 1 of any other firm in Belleville.

LETTER OF CONDOLENCE.

At a recent meeting of Aberdeen Lodge, Daughters of Rebekah, the following letter of condolence was ordered to be sent to the bereaved family: Similar letters were also sent to Mr. and Mrs. E. Arthur Rixen.

To Mr. Thos. Gault.
DEAR SIR AND BROTHER: The members of Aberdeen Lodge, No. 39, Daughters of Rebekah, desire to extend to you their sincerest sympathy at the loss of your dear brother.

It is with great sorrow we mourn the loss to our brother and faithful friend who was ever truly with words of encouragement and good cheer, sincere in his words, and in trouble and distress, showing such true principles of genuine manliness, thereby creating such an amount of love and interest while he was with us. His absence will ever be deeply and affectionately remembered.

We would commend you to the God of all consolation in this your hour of trial. We remain yours truly, the members of Aberdeen Lodge, No. 39, Daughters of Rebekah.

MRS. E. MCMASTER, N. G.
MISS NAY HARVEY, V. G.
MISS MAY FRICKETT, R. S.

MARRIAGES.

PERRY-McMASTER—At the residence of the groom's father, Mr. Perry, on the 3rd inst., Rev. G. Dunkley, William Daniel Perry and Caroline Wilmae McMaster, both of Deseronto.

DEATHS.

YOUNG—At Deseronto, on the 1st inst., Horace Frederick, infant son of Horace A. and Gertrude Young, aged 4 weeks.
WOODCOCK—At Deseronto, on March 31st, 1895, Mr. Jacob Byron Woodcock, aged 42 years.
WELBANKS—At Deseronto, on March 31st, 1895, Annie P., beloved wife of John Welbanks, aged 29 years, 5 months and 10 days.

Notice to Creditors.

In the Goods of William James Gault, Deceased.

NOTICE IS HEREBY GIVEN, PURSUANT to the Revised Statutes of Ontario, chapter 110, that all persons having claims against the estate of William James Gault, late of the Town of Deseronto, in the County of Hastings, Livery Keeper, who died on or about the 12th day of March, A.D. 1895, are on or before the first day of May, A.D. 1895, to pay by post, prepaid or deliver to the undersigned John McCullough, one of the Executors of the said deceased, a statement in writing of their names and addresses, and full particulars of their claims and the nature of all securities (if any) held by them.

And Notice is hereby given that after the said last mentioned date the said Executors will proceed to distribute the assets of the said deceased amongst the persons entitled thereto, having regard only to the claims of which notice shall have been given as above required, and the said Executors will not be responsible for the assets or any part thereof so distributed to any person or persons of whose claim or claims notice shall not have been received by them at the time of such distribution.

JOHN MCCULLOUGH,
Dated at Deseronto this 30th day of March, A.D. 1895.

Notice to Creditors.

ALL Creditors and other persons having claims against the estate of THOMAS TIMOTHY MCGOLDRICK (known in Canada as Thomas Mitchell), late of the Town of Deseronto, in the County of Hastings, book-keeper, deceased, who died on or about the nineteenth day of October, one thousand eight hundred and ninety-four, are hereby required on or before the Thirtieth day of April, one thousand eight hundred and ninety-five, to send by post, prepaid or deliver to Henry R. Belford, Esquire, at his office, in Deseronto, a statement of their names and addresses, and full particulars of their claims and the nature of all securities (if any) held by them.

AND NOTICE is hereby further given that after the said last mentioned date the administrators of the estate of the said deceased will proceed to distribute the assets of the said deceased amongst the persons entitled thereto, having regard only to the claims of which notice shall have been given as above required, and the said administrators will not be responsible for the assets or any part thereof so distributed to any person or persons of whose claim or claims notice shall not have been received by them at the time of such distribution.

PATRICK J. WIMS, Administrators,
JOHN EDWARDS,
Dated at Deseronto this 26th day of March, 1895.

Notice to Creditors.

IN THE ESTATE OF JAMES M. FINNIGAN, DECEASED.

NOTICE IS HEREBY GIVEN PURSUANT to the Revised Statutes of Ontario, Chapter 110, that all persons having claims against the estate of JAMES M. FINNIGAN, late of the Township of Tyndinaga, in the County of Hastings, farmer, who died on or about the 27th day of January, A.D. 1895, are on or before the first day of May, A.D. 1895, to send by post, prepaid or deliver to Richard M. Finnigan, or Mrs. Annie G. Finnigan, Leinster P. O., Deseronto, a statement in writing of their names and addresses and full particulars of their claims and the nature of all securities (if any) held by them; and notice is hereby given that after the said last mentioned date the said Executors will proceed to distribute the assets of the said deceased amongst the persons entitled thereto, having regard only to the claims of which notice shall have been given as above required, and the said Executors will not be responsible for the assets or any part thereof so distributed to any person or persons of whose claim or claims notice shall not have been received by them at the time of such distribution.

RICHARD M. FINNIGAN, Executors,
ANNIE G. FINNIGAN,
March 16th, 1895.

Casualties.

On Wednesday Mr. Robt. Farrell, foreman of the Big Mill, was struck in the head by a large wrench which fell from the floor above him. A small artery was severed and the wound bled profusely. Dr. Simpson dressed the wound. Wm. Bassett had his right hand cut by a saw in the Cedar mill. Dr. Yeoman dressed the wound.

Horticultural.

A movement is on foot to form a horticultural society in Deseronto. Similar societies have been lately formed in Napanee, Trenton and other towns, and there is no doubt a field for one in Deseronto. When fifty members join, the government gives a very substantial grant. There should be many ladies and gentlemen in Deseronto to take an interest in such a society. A meeting will be called at an early date for the purpose of organizing.

Important Business Changes.

The rumor is current that the Rathbun Company have about concluded to discontinue the "Big Store" department of their business, and the whole stock in trade is to be offered for sale. As the business done in this establishment has usually reached very extensive proportions, such a decision on the part of the Company would no doubt entail a complete revolution in the business community of Deseronto, and would in various ways affect the future of our thriving and growing town. The great volume of trade done by the Big Store would be divided among the other business houses of the town, who would find the new condition of things to their advantage in very many respects. It would also tend to draw other business men to town, and a large number of new shops would undoubtedly soon be opened. This would necessitate the erection of many new stores, for which there would be a brisk demand. Very many of the business men complain that the shops which they now occupy are altogether too antiquated and circumscribed for the changed conditions of modern requirements, and they are thus at a disadvantage in carrying on trade in these days of brisk competition. Local capitalists would do well to recognize these facts and govern themselves accordingly. We predict the erection of several good business blocks, additions to the number of our business men, and a boom in values of property on the principal business streets of Deseronto.

WEDDING BELLS.

A very pleasant event took place at the residence of Mr. and Mrs. J. C. Hoffman on Wednesday 27th of March when their daughter, Miss Edith Hoffman, was united in marriage to Mr. Wm. D. Reynolds of Deseronto. The ceremony was performed by the Rev. D. O. Crossley about 5 o'clock p.m., in the presence of a large number of friends of both the contracting parties. The bride who looked exceedingly charming, in a dress of green tulle, was attended by her sister, Miss Edith Hoffman, while Mr. George Vankatke acted as best man. After the nuptial knot had been tied and the happy couple had received the best congratulations of their friends the guests sat down to a sumptuous repast to which due justice was done. The rest of the evening was spent very pleasantly and happily. Mr. and Mrs. Wm. D. Reynolds left for Deseronto where they will reside with many good wishes for their future happiness and prosperity from their friends. The bride was the recipient of many valuable and useful presents. She is a popular young lady and a member of the W. M. A. church choir. The bridegroom has many friends in wishful that he and his wife may have many years of conjugal bliss.

A DREADFUL DISEASE CURED.

Messrs Douglas Bros. & Co.:
Gentlemen,—I have much pleasure in offering you testimonial on the cure of Bather's Itch. For over three weeks my face was nothing but a mass of sores, and it was still getting worse. It got so bad that I was ashamed to go out on the street. I went to a very prominent doctor of this town, and he told me it would be a few months before I could get rid of it. On a rainy day a neighbor came in to see me with about half an ounce of your Douglas Egyptian Liniment and requested me to try it. I thought I would give it a trial; I put it on my face that same day, and in a matter of three days my face was as smooth as ever it was. I might also say that I only bathed my face once, and that I consider I have a permanent cure. I can never recommend your Liniment too highly for the value it has been to me. This I declare to be true and correct.
I remain yours,
C. A. MURDOCH, Painter,
Tamworth, 16th May, 1893.

The Vice President's Candor.
The desk in the vice president's room at the capitol looks very desolate during a recess of the senate, and the space that used to be taken up by the large silver tray, cardholders and writing outfit which had been on the desk for four years seemed larger while it was vacant. It was a very handsome outfit, and according to time honored custom was presented by Mr. Morton by a special order from the senate. During the recess the sergeant-at-arms went shopping and purchased new desk furniture, which four years hence will become the property of Mr. Stevenson.—Kate Field's Washington.

Electrically Welded Steel Barrels.
It is reported that a large industry is being built up at Barrow, England, in the production of steel barrels for the conveyance of petroleum. The barrels are made in halves by means of compression in a mold when hot. Afterward they are welded together by means of electricity. The barrels are intended for use by the large oil carrying companies engaged in the oil trade in the east, where the temperature has a great effect on wooden casks and results in so much leakage.—New York Telegram.

NOTICE.

A SUITABLE REWARD offered for the recovery of a Light Wagon taken from the premises near Mr. George Hunt's.—Apply at this Office.

— AT THE —

Deseronto Tin Shop,

2 Doors East of Post office,

You will find everything required in the Tin, Copper, and Galvanized Iron line.

Repair work neatly and promptly attended to.

E. T. MILLER,
DESERONTO.

To Whom it may Concern

TAKE NOTICE.

THAT A Meeting of the License Commissioners for the License District of East Hastings will be held at Ganoung Monday, the 22nd April, 1895, to consider applications for Liquor Licenses for the coming license year commencing on the 1st of May, 1895.
Applicants for premises not licensed for the current year are:—James Davidson, for the house known as the Albion, in the village of Shannonville, for a tavern license; William Clark, tavern license for his house at Shannonville Station, formerly used as a hotel; also Hugh Collins, for a tavern license in the village of Thomastown, in the Township of Hungerford, in the house known as the Latchford Hotel, formerly kept by J. Latchford. Total tavern licenses issued for the current year, 25; shop licenses, 2. Total applicants for the coming year are—tavern, 28; shop licenses, 2.
All licenses granted on above date will be issued at Deseronto on the 2nd and 3rd of May.
By Order,
GEORGE ANDERSON, Chairman.
M. LALIBY, Inspector E. H.

Livery Business for Sale.

FOR SALE, in the Town of Deseronto, the Livery Business and Establishment, known as the Stock-in-Trade, of the late William James Gault, deceased. This property, established over thirteen years, covers two full lots, and is undoubtedly one of the best of the kind in Ontario. The house is in excellent condition, while the barns and other outbuildings are in a complete state of repair. There is also a back-siding in the immediate vicinity of the principal hotel, and convenient to boats and trains. There is a large business for express companies, and the establishment has always enjoyed an extensive patronage from commercial travellers.
For terms and other particulars, apply to
JOHN MCCULLOUGH, Executor,
Deseronto, April 4th, 1895.

CARD.

I desire to inform the people of Deseronto and vicinity that I have sold out my bakery business to my brother, Mr. George Walker, by whom it will be conducted in future, and for whom I would be deemed the liberal patronage that has been extended to me in the past as I can assure the public that he will give entire satisfaction. I also take this opportunity to thank the public for the liberal patronage so kindly and constantly extended to me during the past ten years and for the friendly relations which have always existed between myself and my patrons.
I. H. WALKER,
Deseronto, April 2, 1895.

HORTICULTURE.

POPULAR CHRYSANTHEMUMS.

How to Propagate Them From Cuttings—Three Flowering Varieties Described.

It is well within the possibilities to produce flowers of the finest quality upon plants that are inserted in the soil as cuttings any time from December 15 to April 15. As a general rule, however, those planted in March give the greatest satisfaction. A place which can be kept close and at a temperature of about forty-five degrees, with the cuttings near the glass, and a moist and firm surface, such as sand or ashes, on which to stand the pots, is just the right place.

Firm, healthy, short jointed shoots should be selected for cuttings. The cuttings should be at least three inches in length and cut horizontally with a sharp knife just below a joint. The leaf at the base may be removed and all others retained. The small pot is well drained, filled with a rather fine mixture of loam, leaf mold and sand in equal parts, with a thin layer of sand on the top. With a pointed stick, make a hole in the centre; insert the cutting about half its length; press the soil firmly about it, taking care that the stem is not bent or injured during the operation. Having potted the

PRUNING OF TREES.

The Different Results Gained From Summer and Winter Pruning.

Amateur gardeners know very little of pruning, and the results in this line are not dissimilar. Thus, Moehan, in his Monthly, very truly says: "The unfortunate part of all attempts at these practical lessons is that in pruning one must have some object before he starts, and that this object will vary continually not only on various trees, but with a tree itself—and it is impossible, therefore, to give practical lessons in detail without knowing the particular object one may have in view."

One may have fruit trees growing in a comparatively small space, and which he wishes to keep in check. With this object in view, a very special system of pruning would be necessary, and the object would be not growing branches nearer to the ground and not up in the air a long distance, where the trees would make large spreading limbs. In order to accomplish this one has to prune out during the summer months all the strong and vigorous growths at the apex of the plant, so that the sap in the sap into the branches near the ground, for in a state of nature the tendency of the tree is to go up, and to go up as rapidly as possible. The upper branches are therefore the strongest, and the lower branches are the weakest. To cut the strong ones out, therefore, strengthens the lower ones.

It is on the same principle that we prune hedges. These we wish to keep low, and for this reason the plants are pruned in the summer time, the strong vigorous branches—the top of the hedges—being the ones cut out, and this throws the sap into the branches near the ground, thereby strengthening them and making them of equal growth with those at the apex, and this work has to be done during the growing season.

If the same kind of pruning were done in the winter time instead of the summer, the result would be that the next spring, innumerable strong shoots would push out, whereas the upper ones are cut off and growing so strong they would absolutely draw the nourishment from the lower branches. The pruning has to be done in this case while the sap is in vigorous circulation, so that the channel may at once be turned into these lower branches. One might take up any number of questions of trees in detail—apple cherries, plums, grapes or whatever it may be—and the lesson is just the same for all of them: If you want to keep trees dwarf, with abundance of good growing branches near the ground, cut out all the strong shoots at the apex during the growing season.

Different Species of Oaks.

The oaks are all admired for the beauty of their foliage and their varied habits of growth. In modern gardening the de-

QUEEN—IVORY—VIVIAN MOREL.

desired quantity, water thoroughly, and then transfer to the frame or house prepared for their reception. Here they should be kept close and sprigged lightly, until they root, when air may be admitted gradually at all favorable times.

American Gardening, from which the foregoing is reproduced, names the Queen as the variety belonging to the Japanese incuring selection. The color is pure white, and the bloom reminds one of flakes of snow. The stem and foliage are all that is to be desired in a chrysanthemum. The Vivian Morel is of European origin and ranks among the best of the reduced pink varieties. Both in Europe and America it has been highly spoken of and has taken many premiums. The color is not exactly pink—rose striped with white would more nearly correct description. It is a large and elegant flower.

Ivory is a well known favorite, is one of the best for all purposes, but when grown as a specimen plant a few equals. It is rather a dwarf grower, but the habit of the plant is white. The color of the blooms is pure white.

An interesting feature in growing chrysanthemums from seed is the fact that if a hundred seeds of any given variety are sown, no matter whether they are from a good or a poor variety, they will be a hundred distinct varieties when they come into bloom.

Leaf-Blight of Strawberries.

The Connecticut experiment station thus describes the leaf-blight of the strawberry and treatment they would recommend:

"This disease is characterized by the appearance of reddish areas on the upper surface of the leaves. Later these appear in the centre of these discolored areas gray or whitish spots, upon which in autumn and winter are developed several forms of the fungus. The appearance of the fungus which causes the discoloration of the leaf."

"In annually renewing the settings, and planting only in deep and thoroughly drained soil, the loss from blight will be very largely diminished. Removing and destroying all the old leaves after harvesting, followed by cultivation, and the application of a quick fertilizer, is a process which has produced good results."

A more simple method, which has been adopted with complete success by certain growers is as follows: As soon as the berries are picked, run a mowing machine over the bed, cutting all the leaves close above the ground. As soon as the leaves and old mulch are dry enough, set fire to them and burn the bed over. If necessary, loosen up this with a little water, and a fork before burning and put on more where it is scanty, in order to secure as even a burn as possible. Unless a severe frost follows, the plants will come up new, vigorous, and healthy growth; much as usual in the autumn. In a dry season this method can be used with caution, but if the burning is followed by rain, the process has in all cases proved a complete cure for the "leaf-blight."

Curious Orchids.

The Stanhopea represent a singular family of orchids growing in tropical America from Brazil to Mexico. The flowers are large, and many are singularly marked. Not a few are quite sweet scented. The flowers hang down in a basket or in such a manner that the flower spike can pass through the moss, and the flower buds hang below the support. This method of growing is natural to some other orchids, but in none is so conspicuous as in the Stanhopeas. These last baskets are filled with sphagnum moss and pieces of rough paper, and on no account should the Stanhopea be treated as other plants, or even in flower pots, as the flower spike has a downward growth only.

Horticultural Notes.

Great extremes of cold and heat are injurious to apple trees.

The northwest, a winter remark, must have apple trees of a rugged nature.

The begonia likes the shade, a hint that those with shaded yards can profit by it.

It is recommended when cucumbers are grown on a small scale, to let the vines run over small trees or bushes. A great increase of fruit results.

An exchange thinks hedge hedges should be more common, as they are cheaper than other kinds of fence. The hedge is not growing in popularity. The average farmer votes them down.

THE ALABASTER INDUSTRY.

It Has Flourished in Italian Caves Since the Days of the Ancients.

Thirty-two miles to the south-east of Pisa, in the province of that name, a very remarkable and very ancient industry is carried on. We refer to the alabaster industry of which a full description from actual observation is given by Vice-Consul Carmichael, of Leghorn, in a Foreign Office report just issued. Volterra, where the alabaster is found, enjoys special distinction among places in the world which produce that commodity. The material, which is of five main varieties, is found in nodules, embedded in huge masses of limestone. At the end of each cavern whence it is extracted there are three men are to be seen working away with small T-shaped picks by the dim light of unprotected oil lamps of Etruscan pattern, which, by a singular tenacity of tradition, are still in use in the district. In one case the block of alabaster will be already well projecting from its bed of limestone, and the operator is carefully picking away all around it, in order to extricate the complete block. The larger the specimen the more valuable it is in proportion to its weight. In another, search is still being made for the alabaster, and the workman is vigorously beating down the wall of limestone upon which he lights upon the white mass of what looks like a block. He then picks away carefully, so as not to injure the prize. When there seems a likelihood of a large quantity of limestone having to be removed, blasting with gunpowder is resorted to.

The alabaster industry dates back to classic times. Great changes have taken place in it, however, within living memory. In former days there were three distinct classes of workmen engaged in the work of fashioning the raw material—the master artist, who owned a workshop and employed numerous workers, selling his products direct to the alabaster shops or "galleries;" the journeymen, and the travellers, who took huge cases of the goods and sold them as they went along, in all the countries of the world, civilized and uncivilized. Of these, two, the masterworkman and the traveller, are extinct species. Nowadays three men, usually relatives, work together in intimate partnership, being a turner, another a modeller and the third a decorator, who carries such decorative adjuncts on the finished articles as fruit and flowers. Their gains are very small, and, indeed, travellers who put in at the port of Leghorn and have alabaster cases, and the like, offered at almost absurdly low prices, refuse, as a rule, to believe that they can be made by hand.

One kind of alabaster is made by a process of dyeing, which is still a trade secret, into an excellent imitation of marble. For a time this was a very large sale, but the trade is now threatened with extinction. It is suggested that the people of the East, who used to buy it largely, left off doing so as they were doubtful whether the sham article could properly be used in the religious art wherein coral plays a part. The alabaster worker has the artistic characteristics, but in their desire to turn out what they think will sell they neglect the fine models that are to be found in such profusion in the churches of Italy, and flood the market with cheap reproductions of a limited number of classical figures and with modern dancing girls, coquettish diving girls, fantastically clad pifferari and impossibly spruce lazzaroni.—London Daily News.

Jealous of a Stage Lover.

Too much zeal in the discharge of his stage duties has led a jeune premier at a Paris preparatory theatre into a disagreeable, not to say painful adventure. The young actor was acting with a lady of his own age in a new piece, and had to make a declaration of love. He held the mirror up to nature so well in the matter that the young lady's intended husband, who was looking on from the stalls, flew into a towering passion and thirsted for blood. When the performance was over the man possessed by the green-eyed monster waited at the stage door for the jeune premier and whacked vigorously at the actor's face with his cane. The player—bruised, bleeding and fearful—did not make any effort to return the blow for blow, but, holding up a manuscript which contained his part in the play, remarked to his aggressor that he had done no more than follow the instructions of the author of the little love comedy in which he had acted with the beautiful young lady. The affair ended there.—London Telegraph.

An African Chief's Umbrella.

Visitors to the Nelson Bazar and Exhibition lately had an opportunity of examining "Alumma's Umbrella," which was the centre of much attraction. It is a gigantic sunshade, the nine sections of which are made of silk each of a different color and is trimmed with two rows of rich gold fringe. The whole is mounted on a staff of silver nine feet long. This gorgeous trophy was the principal personal property of Alumma, a West African chief, and was captured by British blackjacks in the town of last year at Brokoma, the stronghold of Nana, Alumma's son. It reached the Admiralty a few days ago, having been sent home for preservation after the capture of the slave-trader's headquarters.—London Telegraph.

Scientific Potato Growing.

At one of the experimental agricultural colleges in Germany the remarkable yield of 43 tons of potatoes per acre has been obtained by treating the seed tubers with sulphate of ammonia. The solution of six pounds of saltpetre, six pounds of sulphate of ammonia and 25 gallons of water, and afterwards allowed to stand and drain for a day, in order that their buds might swell before planting them.—San Francisco Examiner.

POWER FROM NIAGARA.

SOMETHING ABOUT THE ELECTRIC PLANT AT THE FALLS.

What is Expected to be Accomplished in Furnishing Power to Distant Points—Description of One of the Big Dynamos—100,000 Smokeless Horse Power.

It is expected that the wheels of the great electric plant at Niagara Falls will soon be set in motion, and that what may be considered one of the greatest engineering works in the world shall have become an accomplished fact.

The plans for carrying the power to Buffalo, eighteen miles distant, are complete. In a month or two factories may be in full operation; in a year Buffalo may be supplied and, "in two years," says Prof. George Forbes, "the company will be working the Canadian side of the Falls, and in ten years (shall we say?) the whole of the 100,000 horse power which can be supplied by the existing hydraulic works will be giving power to smokeless manufacturing towns."

One of the three big dynamos with which the Cataract General Electric Company proposes to distribute its power has already been placed in position, and the shafting and hydraulic connections are ready to be put in motion. The unique machine, which in many ways represents the height of electrical ingenuity, was constructed by the Westinghouse Company at Pittsburgh. A description of one of the dynamos has been obtained by the Electrical Engineer, which in substance is as follows:

To a circular foundation is bolted a vertical cast-iron cylinder, provided with a flange on top, the stationary armature rests. The inner part of the cylinder is bored to the shape of an inverted cone, and serves as a bearing for another conical piece of cast iron, supporting the shaft bearings. The armature cone is made of thin, oxidized iron plates, held together by a steel spiral bolt. In the outer edge of the plates are one hundred and eighty-seven rectangular holes to receive the armature winding.

The outer rotating field magnet consists of a wrought-steel ring, to which are bolted the twelve inwardly projecting massive cast-iron pole pieces. The ring constituting the field magnet is supported by a six-armed cast-steel spider keyed to a vertical axis. The field magnets act also as a fly-wheel. The shaft rests on two bearings supported by four arms radiating from the inner adjustable cast-iron cylinder. The bushings of the bearings are made of bronze provided with zig-zag grooves, in which oil constantly circulates. On the outer side of the bushing there are also grooves into which cold water may be pumped if required.

The armature conductors are rectangular copper bars 32 by 8 millimeters, and each of the 187 holes of the armature contains two of these bars, surrounded with mica. The upper and under sides of the armature are connected by means of V-shaped copper bars, riveted to the ends of the armature, and the ends of the armature. The connections are made so as to give two independent circuits, a pair of cables connecting each circuit with the switchboard. The magnet winding is also composed of bent copper bars, air-insulated, inclosed in brass boxes, two of which are fastened to each pole piece. Continuous current for exciting the field magnets is obtained from a rotary transformer.

The current is conducted to the field coils by means of a pair of brushes and copper rings fixed at the top of the shaft of the generator. At a speed of 250 revolutions a minute the machine produces two alternating currents, differing in phase 90 degrees from each other, each of 775 amperes and 2,250 volts pressure. The alternations are 50 per second. The height from base of belt plate to top of machine is nearly 131 feet.

R. H. Stevens' "Brechees" Bible.

A well preserved edition of the "Brechees" Bible, published in 1586 by Christopher Barker, printer to Queen Elizabeth, is in the possession of R. H. Stevens, of No. 44 Clinton place, this city. The volume has come down through successive generations from his ancestors.

This celebrated translation of the Bible owes its name to the use of the word "brechees" instead of the word "aprons" in the seventh verse of the third chapter of the Book of Genesis. The work is printed in old English black letter type, and is still in its ancient binding, with brass bound corners. In addition to the Old and New Testament, with references and foot notes, it contains a calendar, "two right profitable concordances," dated 1578, and all the Psalms set to music.

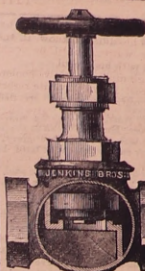

The music for the Psalms was composed by Thomas Sternhold and John Hopkins. The staff notation was printed in a primitive way. The "Solfaing" system is referred to in an introduction to the Psalms as "a system intended for the more perfect reading and rendering of music."—New York Herald.

Shoes in Japan.

Japanese shoes vary for the use. Mud stiffs for the foot, but keep them up in sloppy weather. Wooden clogs are ordinarily used, but big straw sandals, costing only a cent or so a pair, are used for walking or mountain climbing.—San Francisco Examiner.

Tea-Making in Japan.

In making tea in Japan the hostess pours powdered tea from the caddy and the water from the kettle simultaneously into a bamboo dipper, as a French waiter pours hot milk and coffee, and stirs it carefully with a "chocoon" bamboo, one end of which is split into small slivers.

Iron Pipes and Fittings, STEAM PACKINGS, OILS, MILL and Engine SUPPLIES.

SCHOOL BOOKS
—VERY CHEAP AT—

THE TRIBUNE - OFFICE.

The Tribune.

MARYSVILLE.

Mr. and Mrs. Jas. Fitzpatrick, of Belleville, were the guests of Lizzie White on Sunday last.

Annie Callaghan was visiting friends here last week.

Walter Deacy has returned from Rochester.

Low Anderson had an attack of a gripple this week.

Joseph Farrell has completely recovered from his severe illness.

Mabel Ryan has gone to Belleville to reside.

FOXBORO.

Sugar socials are greatly in vogue in the adjoining district.

An Epworth Christian Endeavor league has been formed in connection with the North church.

The annual sugar social of the North church was a great success. Dr. Jose acted as chairman.

Wm. Vincent and M. King have returned home from Montreal.

The snow has disappeared, though the bad frosts during the week have retarded spring.

Some visitors from our village to Deseronto were greatly pleased with what they saw in the works. Had no idea before that there were so many different industries in your town.

Making wood alcohol out of smoke was what took their fancy.

CARMANVILLE.

Mad! mad! mad!

Miss Maggie Hinch has returned home after a three weeks' visit with relatives in Marlbank.

Miss Eliza Carroll is visiting with friends in Toronto.

A number of young people from Oak Flats surprised Mr. S. Cameron on Tuesday last week.

They spent a very pleasant evening.

Miss Bridget Spratt, of Enterprise, spent last week with Maggie Hinch.

John Scanlin spent Sunday with Hugh Carroll.

Maggie Brown has gone to Kalarad to teach.

If a certain young man will kindly send notice when he is again to visit the village, he will find a piece of silver awaiting him also a pair of straps.

BLESSINGTON.

Seeing no news I will send a short account from here.

Our sugar season is going along very slowly no rush this time. Some may stay out nights and boil but honest people will not have reason to do so.

La gripple is still lingering around our vicinity although quite unobtrusive.

Miss B. McGee has taken up her abode with Mrs. L. Ross. We wish her every success this time.

E. Palmer, of Prince Edward, is staying at M. Ross' helping with sugar operations.

B. Robinson entertained a few friends at her home Saturday evening.

G. Balcanquhall and Nora have left our part and gone to Brighton the home of their bachelor brother, Fred. Much was felt for him, his loneliness, but we are sorry to lose the girls.

Some young people enjoy seeing younger ones in trouble. Such has been the case of late in the vicinity but we hope they are satisfied and it won't occur again.

The roads are quite passable around here and people are driving once again.

Rainy weather. Some Sunday—inconvenient was it Harry.

EMMONSVILLE.

April 10th—The fine weather of the last few days has made things look more spring like.

Mr. D. Thompson started on Tuesday for Manitoba.

Miss L. Goodman, of Blessington, spent last week visiting her many friends in this vicinity.

Mr. M. Palmer, of Deseronto, spent Thursday and Friday as the guest of Mr. Byron Thompson.

Mrs. D. Green left on Thursday last week for her home in Chicago. Her brother, Mr. Harry Clark, accompanied her.

Mr. N. Oakley is running his sugar bush on quite an extensive scale this spring. Mr. D. English of Melrose, is attending to his stock while he is in the bush.

Mr. & Mrs. Ed. Simpkins, of Melrose, were the guests of Mr. & Mrs. Milligan on Monday.

Mrs. A. Thompson is keeping house for Mr. N. Clark.

Mr. V. Cook and mother were visiting at Mrs. C. Clark's, Shanville, on Thursday last.

Everybody is preparing for a big feed of eggs on Sunday.

TYENONAGA RESERVE.

The body of the late Lawrence Claus was taken from the Deseronto vault on the 5th inst. and deposited in Christ Church burying grounds in the presence of a number of friends and relatives.

The annual Easter Vestry meeting will be held in Christ Church on Monday, the 15th inst. All members of the congregation who under Canon of Synod are entitled to vote are expected to attend.

The repairs and improvements to the ferry boat Prince Edward are rapidly approaching completion. The staunch little steamer will be ready for her summer work in a few days.

We are pleased to hear that the Mohawk Brass Band has been resuscitated under the able leadership of Josiah George of Onondaga, N.Y.

Envelopes will be distributed for Mission Fund Easter offerings.

The historic Communion service given by Queen Anne to "Her Indian Chapel of Mohawks" 181 years ago will, D. V., be used in church Easter Sunday.

There will be service in both churches on the 14th and 15th inst. the 14th inst. at the usual hours.

HARPER'S BAZAR.

Harper's Bazar includes in its several departments everything interesting to women and valuable in the domestic circle.

The wisest economy dictates a subscription to this brilliant weekly paper, as in fashion alone its readers save during a single year money times its cost. The women who takes Harper's Bazar is prepared for every occasion, economical or informal.

LONSDALE.

The snow is fast disappearing here and I think all are well pleased.

The Misses Cole and Hawley, of Blessington, were the guests of Mrs. A. Winters last week.

Rev. Garbutt's children are able to be out again after their severe illness.

Mr. Albert Lazier of Napanee is spending a few weeks under the parental roof.

The ladies met at the home of Mrs. Chas. Kimmerly on Wednesday last.

Chas. Kimmerly met with an accident last week in cutting his foot while splitting kindling wood. He more careful next time Charlie.

Maggie Smith spent Sunday in town.

Mrs. Cadman, of Croydon, is visiting her aunts Mrs. Haight and Mrs. McDonald.

MELROSE.

R. Lennox, of Napanee, spent Sunday in the village.

We are glad to state that Mrs. John English is slowly improving in health. She has been confined to her bed for a number of weeks with slight hope of recovery and we trust the present change may continue.

Ferg. McFarlane has entered into business with R. P. Hamilton of Belleville, for the sale of agricultural implements.

There is a great deal of disease among stock in this section.

The influenza is prevalent among horses, in some cases proving fatal, and quite a number of cows have died from various diseases.

John McKinney intends building, in addition to, and otherwise repairing his barn during the summer. D. B. Morden is now framing the timber for him.

The Epworth League, which was organized a few weeks ago in connection with the Methodist church, is meeting with good success.

The meetings are held every Tuesday evening and are well attended.

E. Bennett will use coal instead of wood at the cheese factory during the season and has ordered a car load from Mr. Stewart, of Belleville.

NAPANEE ROAD.

It is everywhere—mud, and plenty of it.

The sweet song of the spring birds can be heard far and near. We welcome their return.

After the fall of snow of last week and a few days of rain, snow has disappeared very fast.

Farmers are in their sugar bushes nearly every day working faithfully as busy as making syrup and sugar. Prospects are for a short sugar making season.

The Napanee river is open about half way to Deseronto.

It is reported that Mr. Alf. Keech will draw milk to the Deseronto creamery.

Fall grain and meadows are looking fine so far.

It is reported that one of the mashers or toad town men, big bend, is visiting at Napanee as the guest of the jailer.

Mr. John W. Thompson started out in good faith on his milk route on Monday morning but did not succeed in getting a load; he will draw to Mr. Crow's factory at Clarksville, East Napanee.

Mr. Albert Hudson, who has been ill for some time, is slowly improving and will soon be able to get out again.

Mr. Hiram Sager, who has been sick with la gripple is still seriously ill.

Mr. E. Hudson died of a quantity of his hay. He has had a very disagreeable time in getting through the side road.

SOMETHING

That you can buy on very reasonable terms. Good hand made harness, warranted at \$12.00 a set. McLaughlin's Carriages, the Champion Drill, Sewers, Mattresses, Harrows, the best make of Plows, Cows, Scullers, Conners Improved Washing Machines, Wringers, the Dandy, Daisy, Perfection and Cradle Churns at Miles S. Plumley's, Napanee.

A TIMELY LETTER.

To the Editor of THE TRIBUNE.

DEAR SIR,—The receipt of the Annual Report of the Ontario Agricultural College is as it is with facts and experiments of the greatest interest to every farmer in Ontario suggests to me the idea of again reminding, not only every farmer, but those of any calling who occupy a garden plot, of the advantages of becoming a member of the Farmers' Institute and thus securing the valuable amount of information to be acquired from the Reports and Bulletins forwarded to each member. I am surprised to think that any farmer, no matter how unpretentious, should not, for the small sum of twenty cents per annum, avail himself of this easy method of informing himself on all matters relative to his business. By filing away these reports and lectures for reference when needed, there is nothing necessary to successful farming that may not be found from time to time. Those who have not yet given their names should lose no time in doing so that all the reports issued during the year may be received. Those who may not find it convenient to send their names direct to the secretary, John Stokes, Thomasburg, may hand their names to Mr. Russell, Deseronto; Mr. Brickley, Marysville; or myself or any of the secretaries of the Institute.

J. C. HANLEY.

Windsor Hotel, Kingston, A. J. Frank, proprietor, centrally located on Princess Street. When leaving boats or cars take electric cars to the door. Good sample rooms and stables, large airy dining and bed rooms. First class in every respect. Charges moderate.

The Citizens' Band will contribute some of their very best selections at the concert in Union Hall this evening.

G. E. Snider has reduced the prices of all lines of Jewellery, Clocks, Watches, silver and plated ware, etc., as the owners have decided to rebuild the block in which his store is located and he must, therefore, move to other temporary quarters.

DISTRICT ITEMS.

John D. Wright, of "Hallowell," is dead, aged 78.

Business is very brisk at Collins Bay this season.

A cheese factory will start up at Dunblun on May 1.

Mrs. J. A. Greenwood, Kingston, died recently, aged 59.

Rev. Bullis will remove from Kingston to Toledo, Ohio.

Kingston city council voted \$250 to the Hotel Dieu hospital.

A court of Catholic Foresters will be instituted at Belleville.

Belleville city council had a deficiency of \$4,923 on last year's operations.

A branch of Christi's laundry, Belleville, has been started at Gananoque.

A lot has been purchased at Prescott for \$3,000 as a site for a grain elevator.

Rev. Thos. Cleworth, Napanee, is steadily sinking and the end is near.

At Collins Bay Lily Lalonde cut her wrist very seriously with a glass bottle.

On May 1, 1895, Mrs. Evans, aged 75, died at Oranby of inflammation of the lungs.

John Hewton has been elected president of Kingston's energetic and useful board of trade.

Many Belleville business men have a peculiar habit of leaving their doors unlocked at night.

Cobourg people have abandoned the project of a new steamer to Charlotte in opposition to the North King.

Michael Loyer, Hayburn, died on the 9th, aged 78. He had been ill for some time.

At L'Amable, on the 2nd inst., James Kelly and Mary Ferguson, both of Dunagans were united in marriage.

Alfred Penner has left Napanee, for Revelstoke. B. C. O. J. Vancott, of the same town, leaves for Manitoba.

Emanuel Wager, Tweed, has sold his farm and will remove to Prince Edward county.

H. Wulfsberg, of Redwater, has three goose eggs measuring 12 inches in circumference one way and 9 inches the other.

At Cherry Valley, twenty-five descendants of John Macdonald assembled to celebrate the 97th anniversary of his birth.

Rev. W. H. Smythe, pastor of the Church of England congregation, Stirling, will resign at Easter on account of advancing years.

A bill to incorporate the Kingston and Gananoque electric railway has passed the private bills committee of the legislative assembly.

E. Eplett, a student of the Ontario business college, Belleville, died in that city after a short illness. He belonged to Coldwater.

At Belleville James Baldwin was sentenced to two years in the Kingston penitentiary for setting fire to a lumber camp in the north county.

On Saturday evening the frame house owned by Edward Beck, Rossmore, and occupied by Edward Kane as a shoe shop was destroyed by fire.

At Norwood on Sunday the house of George Henderson, valued at \$300 and cash was stolen, belonging to his son Stanley and a note for \$60 was also taken.

The weights of the city hall clock, Odenburg, broke through the tower ceiling on floors and nearly wrecked the tower. The weights cut through six two inch elm planks. The accident was due to corrosion of the cable.

CATAHRIS RELIEVED IN 10 TO 60 MINUTES

One short puff of the breath through the Blower, supplied with each bottle of Dr. Agnew's Catarrh Powder, dissolves the powder over the surface of the nasal passages. Painless and delightful to use, it relieves instantly, and permanently cures Catarrh, Hay Fever, Cold, Headache, Sore Throat, Tonsillitis and Deafness. 60 cents. At W. G. Egan's.

THE CHITRALI CAMPAIGN.

LONDON, April 8.—Advices from Calcutta received, report that the Chitrali expedition succeeded in carrying the Wazir of the Swat river on Saturday. The entire expedition with provisions, munitions, etc., were transported and at once proceeded by the route to Dir. The second brigade forced the passage, doing excellent work with their battery and Maxim guns. The Bengal Lancers, after forcing the enemy, who killed hundreds of the enemy, broke into a run. They were pursued for miles by the Lancers, who succeeded in capturing Umra Khan's fort. The British losses were slight.

CHINA MUST ADMIT FOREIGNERS.

The Central News correspondent in Shanghai states the conditions of peace proposed by Japan. In addition to the independence of Corea, the cession of Liaoning and Manchuria, including Port Arthur, Japan requires, he says, that China shall allow the free importation of machinery into her territory and the establishing and management of manufactures by foreigners. She must pledge herself to open up the river as far as Chung King-Foo, the Siang-Tan-Kien; the Canton River as far as Quo-Hoo-Foo; the Wasing River and the canal as far as Soo-Choo for the north and Hang-Chu-Foo to the south. China must remove all import duties on the Wasing River and provide means to maintain constantly a depth of water sufficiently for large vessels, and the cities of Chung King-Foo, Quo-Hoo-Foo, Soo-Choo-Foo, Hang-Chu-Foo and others, to be heretofore agreed upon, must be opened up to foreign commerce. Japan emphasizes the fact that she does not desire for herself commercial advantages that are not extended to the other treaty powers.

WOOD'S SANGAPARILLA WINS ITS WAY into the confidence of the people by the good it is doing. Fair trials guarantee permanent CURES.

DOUGLAS' EGYPTIAN LINIMENT

FEVER SORES CURED WITHOUT A DOUBT.

Douglas Bros. & Co., Napanee, Ont.

Sirs,—Your Egyptian Liniment has strayed to this part of the world, and has performed some remarkable cures, notably one of a severe case of Fever Sores, and he says they were cured by your remedy alone. He got it while on a visit to Canada.

We have a story to have your figures, etc., for control of same in this section.

Yours truly, H. D. DENNIS.

Howard City, Mich., 3rd Feb., 1894.

MONEY LETTER FRAUDS.

For some time past the practice has been growing of endeavoring to discredit the Postoffice Department by allegations that money enclosed in letters has gone astray or been stolen. Unscrupulous parties have written letters to business houses with whom they have had dealings pretending to remit money owing by them, but never enclosing the money in the letters. When an alleged money letter has thus reached its destination, the firm receiving it has at once commenced an investigation into the matter. Thereupon the Postoffice Department has been blamed for having dishonest officers in its employ. It is a well known fact that the chief inspector's branch in cases of this kind, with the result that it has been shown that often the charge against the services was altogether false. With a view to putting a stop to this irregular proceeding, which is an indictable offence under the criminal code, the Department has issued a warning against the beginning of a letter and has secured the imposition of a sentence of two months with hard labor. This should prove a salutary warning to any parties who may think they can fool with the Department with impunity.

HARPER'S MAGAZINE.

The first instalment of the Personal Recollections of Joan of Arc having shown the environment in which the heroine's childhood years were passed, the second (in the May Harper's) will carry forward the narrative to the beginning of Joan's efforts to take to the Dauphin the message she had received from Heaven: "It is appointed that I shall drive this sword into France, and set the crown upon your head."

Novel Road Repairing Method.

Mr. Jeff Van Nor, of Hamilton, Caldwell county, says of the roads in his neighborhood:

About fifteen years ago we began the improvement of the roads in this township. The farmers turned out in the fall and we worked nearly two weeks in grading them up and bridging the little brooks and rivulets. We pledged one another to keep them in repair voluntarily. We made cheap scrapers by inserting a pole into a slab, setting the slab at an angle. From that date to this the farmers along our roads have kept them up by dragging these scrapers over them. When Neighbor Jones, living at the east end of the road, has occasion to go over it, he hitched a scraper behind his wagon and drags it the distance he comes in such a way that it throws the dirt to the south side of the road to the centre. Then he goes over it with a scraper Smith, going in an opposite direction, comes along with his wagon, picks up the scraper where Jones cast it off and drags it along the north side of the road, throwing the dirt to the centre. The straw, hay and other substances mix with the dirt and are pressed down in the centre, and the sun converts the mass into adobe. We have as good roads as any in the country and they are kept up in this way. No tax, no working the roads—only voluntary labor. Every man is ashamed not to do his part. I do not see why other communities cannot do what we have done.—St Paul Pioneer Press.

The Vice President's Cantinestee.

The desk in the vice president's room at the capital looks very desolate during a recess of the senate, and the space that used to be taken up by the large silver tray, candlesticks and writing outfit, had been on the desk for four years, seemed larger while it was vacant. It was a very handsome outfit, and according to time honored custom was presented to Mr. Morfitt by the senate.

During the recess the sergeant-at-arms went shopping and purchased new desk furniture, which four years hence will become the property of Mr. Stevenson.—Kate Field's Washington.

Broken in Health

That Tired Feeling, Constipation
and Pain in the BackAppetite and Health Restored by
Hood's Sarsaparilla.Mr. Chas. Steele
St. Catharines, Ont.

"For a number of years I have been troubled with a general tired feeling, shortness of breath, pain in the back, and constipation. I could get only little rest at night on account of the pain and had no appetite whatever. I was that tired in my limbs that I gave out before half the day was gone. I tried a great number of medicines but did not get any permanent relief from any."

Hood's Sarsaparilla Cures

source until, upon recommendation of a friend, I purchased a bottle of Hood's Sarsaparilla, which made me feel better at once. I have continued its use, having taken three bottles, and I feel like a new man."

I have a good appetite, feel as strong as ever I did, and enjoy perfect rest at night. I have much pleasure in recommending Hood's Sarsaparilla. CHARLES STEELE, with Mrs. E. E. Steele, St. Catharines, Ontario.

Hood's Pills are prompt and efficient, yet easy in action. Sold by all druggists. 25c.

The Tribune.

FRIDAY, APRIL 12, 1895.

DISTRICT ITEMS.

Napane has a horseback brigade.

Division court at Picton, on the 30th.

Jacob Wilson will remove from Belleville to Toronto.

A large grist mill will probably be erected in Prescott.

T. W. H. Beckett, of Morrisburg, is dead, aged 71.

Wm. McClymont gets the Picton market toll for \$140.

Joseph Kemp, a Ramsay farmer, was found dead in his bed.

Mrs. Wm. Cummins, Belleville, died on the 10th, aged 62.

Allan Clegg, of 5th con. of Hillier, has tapped 400 trees this year.

The kindergarten school in Belleville has proved a great success.

Hiram Van Ness, Colebrook, has removed to his farm at Bell Rock.

B. Blute is now sole proprietor of the Windsor hotel, Campbellford.

A very large acreage of pines has been sown in Amelburg this year.

There are looking up in Oswego and there will be much building this year.

Ten students from Hastings county attended the dairy school at Kingston.

The residence of Mrs. Narden, near Colborne, was recently destroyed by fire.

Arthur Chapman, Gananoque, and Alma Lanning, Phillipsburg, were married March 31.

Queen's College students contributed \$409 to the support of Dr. Smith, missionary in China.

Thos. Johnston, Napane, has bought out the business of John R. Scott, Napane Mills.

Mr. H. Davis, formerly of Wolfe Island, is a candidate for the mayoralty of Toledo, Ohio.

The K. & P. Railway have built a new iron bridge across the narrows at Sharbot Lake.

Wm. M. Hobbs, of Sydenham, and Charlotte M. Bunt, of Kingston, were married, April 5.

A mineral spring has been discovered on the farm of J. B. Blanchard's farm near Napane.

The brass band in connection with the Oddfellows lodge, Smith's Falls, has twenty members.

A Fitzroy farmer living near Annapolis has cleared \$2,000 cash in three years by raising stock.

Thomas Thompson, formerly of Adolphustown, staying with Wm. Clark, Parma, died recently, aged 84.

Mabel Pearson, Napane, had a narrow escape from drowning, having broken through the ice.

C. A. Mallory, of Warkworth, grand president of the Farmers' Union, has been left a legacy of \$40,000.

The late Col. A. Gilmour, of Ottawa, left an estate valued at \$1,452,224, of which \$35,000 will go to charitable institutions.

The Post publishes a list of 32 gentlemen of Cobourg who are between 70 and 85 years old, and says there are as many ladies of a similar age. Cobourg is a quiet old place where people don't never live in a hurry.

THE GENUINE MERIT.

Of Hood's Sarsaparilla wins friends wherever it is fairly and honestly tried. To have perfect health, you must have pure blood, and the best way to have pure blood is to use Hood's Sarsaparilla, the best blood purifier and strength builder. It expels all taint of scrofula, salt rheum and all other humors, and at the same time builds up the system.

Hood's Pills are prompt and efficient. 25c.

CANADIANS IN CHICAGO.

(Chicago Herald.)

There are 70,000 Canadians in Chicago; but the importance of the Maple Leaf contingent in the city is not so great as it appears. It includes a very large proportion of noteworthy men and stands for a high average of honesty and capacity. That it does not hold a higher place in the public esteem is due to the ignorance of many of its members, who, fearing the bugbear of alleged anti-British prejudice, have retroceded as to their nationality from the moment of their arrival, and quite often claim to be Americans.

About 40,000 may be classed as British, French, while the remainder are French from the historic Province of Quebec. Both nationalities add distinct and desirable elements to our cosmopolitan population.

THE GIVING OF A NAME.

Col. Walter B. Camp, president of the Jefferson county historical society, writes to the Watertown Standard asking it to return to the historical spelling of Sackett's Harbor. Very interestingly he gives a brief review of the manner in which the name was given that harbor, saying: "Augustus Sackett purchased 1,700 acres of land here, early in the century, and the harbor was his by possession. It was Sackett's Harbor. The village was incorporated in 1812 as such. Deeds and conveyance, to be seen on the public records, marriage and death notices, letters and legal papers all carry the familiar 's'. All the historic events of the local history are sacred to the memory of Sackett. When Cleveland's first administration began an order came from the post office department to add another 't' to Sackett, which the postmistress respected, but on one side of the street, as to the present administration order 't' and 's' off."

VALUE OF A PAPER.

The New York World has just scored a great success. A negro girl was found guilty of murdering a white man, and the entire police force and detective agencies were unable to locate the murderer. The World put three reporters on the case, and in a couple of days, through their efforts, the murderer was arrested and has now made a confession. Another evidence of the value of a newspaper.

NERVE BEANS.

NERVE BEANS are a new discovery, and are a great remedy for all nervous diseases. HEALTH AND HAPPINESS.

HOW IT WAS FOUND BY A LANARK COUNTY LADY.

SHE HAD SUFFERED FOR YEARS FROM WEAKNESS AND PAINTS IN THE BACK—SHE HAD CONSIDERED THE THOUGHT AND ADDED TO HER MISERY—HER HEALTH ALMOST MIRACULOUSLY RESTORED.

On a prosperous farm in the township of Montague, Lanark county, lives Mr. and Mrs. Joseph Wood, esteemed by all who know them. Mrs. Wood was born in the village of Merrickville, and spent her whole life there until her marriage, and her many friends are congratulating her on her recovery to health and strength after years of pain and suffering. When the correspondent of the *Recorder* called at the Wood home, Mr. Wood, although not looking the least like an invalid, said that since girlhood and until recently, she was troubled with a weak back which gave her great pain at times. As she grew older the weakness and pain increased, and for nearly twenty years she was never free from it. About a year ago her misery was increased by an attack of sciatica, and this with her back trouble forced her to be bed for over four months. Dr. prescribers attended her and she tried numerous remedies said to be a cure for her trouble, but despite all she continued to grow sicker. In last advised to try Dr. Williams' Pink Pills, but she had done herself with so many medicines that her faith in the healing virtues of any medicine about her was gone. She had made up her mind that her trouble was incurable. At last a friend urged her so strongly that she decided to give the Pink Pills a trial. Before the first box was all used she felt a slight improvement, which determined her to continue the treatment. From that time out she steadily improved, and was soon able to be up and about the house. A further use of the Pink Pills drove away every vestige of the pains which had so long afflicted her, and she found herself again enjoying the blessing of perfect health. Eight months have passed since she ceased using the Pink Pills, and at that time she has been entirely free from pain or weakness, and says she is confident no other medicine could have performed the wonder Dr. Williams' Pink Pills have done for her. She says "I feel happy not only because I am now free from pain or ache, but because if my old trouble should return at any time I know to what remedy to look for a release."

Dr. Williams' Pink Pills are especially valuable to women. They build up the blood, restore the nerve and eradicate those troubles which make the lives of so many women, old and young, a burden. Dizziness, palpitation of the heart, nervous headache and nervous prostration speedily yield to this wonderful medicine. They are sold in boxes, the trade mark and wrapper printed in red ink, in a box or six boxes for \$2.50, and may be had of druggists or direct by mail from Dr. Williams' Medicine Company, Brookville, Ont.—Brookville, Recorder.

EIGHT LIVES SAVED BY A DOG.

Some years ago a vessel was driven on the beach of Lydd, in Kent, England. The sea was rolling furiously. Eight poor fellows were crying for help; but a boat could not be got out, and the men were in danger of drowning. At length a gentleman came along the beach accompanied by his Newfoundland dog. He directed the animal's attention to the vessel, and put a short stick in his mouth. The intelligent and courageous dog at once understood his meaning, sprang into the sea, and fought his way through the angry waves towards the vessel. He could not, yet, get close enough to deliver that with which he was charged; but the crew understood what was meant, and they made fast a rope to another piece of wood, and made the dog jump on it, and then, with a degree of strength and determination scarcely credible—for he was again and again lost under the waves—he dragged it through the surf, and delivered it to his master. A line of communication was thus formed with the vessel, and every man on board was rescued.

NEGLECTS AND THE RESULT.

Neglect cold in the head and you will surely have catarrh. Neglect nasal catarrh and you will be sure to incur pulmonary disease or catarrh of the stomach with its disgusting attendants, foul breathing, hawking, spitting, blowing, &c. Stop it at once by Dr. Chase's Catarrh Cure, 25 cents all by box cure.

SHOE SUFFERINGS.

When you buy a pair of new shoes never put them higher than your head, unless you want to bring bad luck; and if you blacken them before you have had both shoes on, you may meet with an accident, or even sudden death. This is an old Irish superstition. The Scotch girls believe that if they drop their shoes before they are worn, trouble will ensue, while a French lady losing her heel is sure of a disappointing love, and a German mother in the same predicament feels that she will soon lose one of her children. You must not put your right shoe on your left foot or your left on your right, nor must you put your left on before the right unless you want bad luck. This superstition dates back to one of the emperors of Rome, who, it is recorded, put on his left shoe first one morning and came near being assassinated during the day.

RELIEF IN SIX HOURS—Distressing Kidney and Bladder diseases relieved in six hours by the "GREAT SOUTH AMERICAN KIDNEY CURE." This new remedy is a great surprise and delight on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing urine almost immediately. If you want quick relief and cure, take your remedy. Sold by W. G. Egan and W. J. Key.

FOK OVER FIFTY YEARS.

Dr. Winslow's Sooling Syrup has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of teething, send at once for a bottle of Dr. Winslow's Sooling Syrup for Children Teething. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Diarrhoea, Colic, Wind Colic, softens the Gums, and reduces inflammation, and gives tone and energy to the whole system. Dr. Winslow's Sooling Syrup for children teething is pleasant to the taste and is the best remedy in the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists and grocers. Be sure and ask for Dr. Winslow's Sooling Syrup.

NEWS OF THE DAY.

A rupture between Norway and Sweden is said to be imminent.

The Sir John Macdonald Club of Montreal propose to banquet Sir Mackenzie Bowell at an early date.

Lieutenant Governor Chapleau of Quebec left for Florida Sunday on a trip which will last some weeks.

Mrs. Mackay's daughter, the Princess Colonna, has been granted a separation from her husband by the Roman courts.

Mrs. John Sims, an aged lady residing with her husband in Woolstock, was killed by escaping gas from the Roman courts.

An Imperial order in Council ratifying an extradition treaty between Great Britain and Germany is gazetted in The Canada Gazette.

Mr. John Sweetman, anti-Parnellite member for East Wicklow, has resigned his seat. He will run again as an Irish Nationalist independent.

The O.P.A. branch of the Women's National Council voted in favor of a resolution to strike the Lord's Prayer out of their opening exercises.

The engagement of the dowager Duchess of Marlborough to Mr. Hamarley of New York, and Lord William Somerset, is again announced.

The British Board of Trade returns for March show that the imports increased \$553,558, and the exports \$524,127, as compared with those for the corresponding month last year.

Mr. Macmillan has issued a writ against the widow of the late W. C. McLeod, Woodstock's well-known millionaire, claiming \$20,000 damages for the alienation of her husband's affections.

A petition has been forwarded to the Dominion Government by the residents of Barry's Bay, on the Ottawa, Annapolis & Parry Sound Railway, asking that the Executive should use their influence to have that station reopened.

The verdict of the Coroner's jury at Glenora was that Frank Skinner came to his death from a gunshot wound inflicted by a Blackfoot Indian (Scraping Hides), and acquitting Constable Rogers, who shot the Indian while making an arrest.

The will of the late Col. Allan Gilmour of Ottawa was probated on Saturday. The estate is valued at \$1,452,224. Deceased was married. The bulk of his estate is left to Mr. John Martin, a cousin by marriage. There are several charitable and other bequests.

Mr. C. Spencer Millicamp, paying teller in the Bank of Toronto, shot himself through the head in the bank office Saturday afternoon. In the absence of any known motive for suicide the friends of the deceased are at a loss to account for the sad event which may have been an accident.

A California town anxious to get its doctors to repeat a visit East when they made last summer to attend a medical convention. They were about about two months, and on their return they found that all their patients had recovered, the drug stores had closed, the saloons had opened, the dancing schools, the cemetery had gone to making puddles, and the horses had been painted and sold for a circus wagon.

Gough sells Cheap.

DISTRICT ITEMS.

Mrs. Watson, of Petworth, is dead, aged 82.

A canoe club may be organized at Ganacque.

A children's aid society will be formed in Belleville.

Abel Yates has opened a pool room in Newburgh.

A new drill hall will probably be built at Ganacque.

A fine new cheese factory is being erected at Larkins.

A lodge of Rebekahs will be formed at Ganacque.

There will be races at Cape Vincent on July 3 and 4.

Cape Vincent will spend \$25,000 on a water race.

A Young Liberals' Club has been formed in Harrowsmith.

The Methodist of Arden cleared \$38 by their tea meeting.

James McGivra, of Ganacque, died on the 3rd inst., aged 75.

Wm. Grey and Lizzie Rogers, of Morven, were married last week.

A. W. Hepburn has leased the docks at Redville for five years.

Two men and a dog, near Ganacque, caught 28 foxes during the past winter.

James Mesinger has purchased the Ross farm, 2nd con. of Ernestown.

Robt Leeshy has been appointed secretary of the Y. M. C. A., Brockville.

The village of Sand Bank, near Oswego, will be known as Altmar hereafter.

The Ganacque council is taking action against houses of disreputable character.

Mrs. John Venn is erecting a fine store and boarding house at Cranberry station.

Carey Kingston's strong man, defeated Scro, of Belleville, at feats of strength.

John McDonald and Mary Ida Fleming, of Cosmopolis, were married on the 3rd inst.

Killaloe in Renfrew is becoming an ambitious village, and a rival of Eganville.

There were 110 converts as the result of the revival in the Methodist church, Foxboro.

Blackie street Methodist church, Belleville, Rev. A. Campbell, pastor, is free of debt.

Mrs. Thos. Carroll, and Wilfred, son of Rev. Mr. Williams, died at Plainfield last week.

Mrs. Caylon Robinson, aged 32, of Kingston township, died suddenly from diphtheria.

Royal Morgan, of Ivanhoe, was seriously burned while splitting logs with giant powder.

Mrs. Richard Carroll, daughter of Thos. Hinchey, Tamworth, died of consumption, March 27.

The receipts of Hurlford township for the past year were \$13,301.44; expenditures \$13,641.73.

The brass band in connection with the Smith's Falls Oddfellows lodge has twenty members.

Mr. Babcock, of Odesa, will build a grist and saw mill at Bath if the village gives him a bonus of \$500.

The Rathbun Company has secured the contract of furnishing Ganacque corporation with lumber this year.

Samuel Nym, and his wife, sheriff Gillespie, will both build new houses in Picton during the coming summer.

A young lady of Athens was surprised to count 400 words on a post card which she had written by the clock.

W. T. Bray, son of Solomon Bray, Hamilton township, fell from a sleigh loaded with wood and broke his neck.

Edward Corrie, harness maker, killed at Tamworth by a kick from a horse, was a Mason, Workman and Select Knight.

At Ivanhoe, on March 26, the residence of Allen Dafe, together with \$100 in cash, was reduced to ashes; insurance \$300.

George Nym, and Conway, his wife, pine tree, which has been so conspicuous a landmark for many years, to James Wilson, of Picton.

The next meeting of the Napanee and North Fredericksburg Sabbath School Association will be held in Anderson's church, North Fredericksburg.

Robert Tyler, of Prescott, died on the 2nd inst.; his wife, Martha, in delicate health, on learning of his death, was so affected that she immediately expired.

A Peculiar Case.

COVERED WITH PIMPLES.

AN ANXIOUS AN.

THE DISEASE DISAPPEARS IN THREE WEEKS BY THE USE OF D. B. R.—LETTERS FROM MONTANA FULLY DESCRIBING IT.

DEAR SIRS.—During the winter of 1892-93, I was covered with Pimples on the inside of my right leg between the knee and the ankle. As I never had any thing of the kind before I was anxious about it, and sought medical advice, but getting no relief from the doctor I tried a bottle of D. B. R., applying some of it to my leg as well as using it internally, and to my surprise the nasty disease, whatever it was, disappeared within ten days. I am thankful to say it has never re-appeared.

N. MITCHELL,
Carmar, Man.

Sick headache and Constipation are promptly cured by Burdock Pills. Easy to take, sure in effect.

To remove worms or all kinds from children or adults Dr. Low's Worm Syrup is a safe cure remedy.

5 LINES ON K. AND L.

I find the people around here prefer Dr. Chase's Kidney Liver Pills to any other I have in stock. They are a wonderful pill. Send 3 dozen at once. I am nearly out. S—send by post, J. W. Ireland, Guernsey.

An Eminent Surgeon

Prescribes and Recommends Paine's Celery Compound.

He Declares it to be The Best Spring Medicine.

It Builds up Run-down Men and Women.

The Only Remedy that Makes Pure, Bright And red Blood.

Cleaning and purifying the blood, and putting the human organism in proper working order, is a work that demands very special attention in the spring season. Many of the ablest and most experienced physicians are of opinion that Paine's Celery Compound does the best and most thorough work in the way of blood cleansing, nerve strengthening and tissue building. No other medicine can impart to weak and run-down men and women the grand vigour, health, robustness and general good health that Paine's Celery Compound gives.

Dr. A. W. K. Newton, the eminent physician and surgeon of Boston, says:—

"Paine's Celery Compound is not a patent medicine, and it must not be confounded with the ordinary nervine, bitter and purgative. It is much superior to them in formula and results as the diamond is superior to glass. It purifies the blood, strengthens the nerves, and is nature's food for the brain."

"I had some trouble myself from blood poisoning, received in a very delicate surgical operation. The formula of Paine's Celery Compound led me to try it, and I was much pleased with the result. I prescribe it for men and women who have no appetite, cannot sleep, and feel that life is a burden. When a man or woman has lost appetite, lost sleep, and feels that life is a burden, that person is in a serious condition. I prescribe Paine's Celery Compound for my patients who have these common and dangerous symptoms, with infinitely satisfactory results. It is the best possible remedy to keep up one's strength and energy during the spring and summer months."

PROPERTY OF THE SIX NATIONS.

Judge Baker, of Fredonia, and Thomas Jenkins, of Odesa, will meet representatives of the Six Nations of Indians at Syracuse Friday, April 12th. The Indians were Friday a big tract of land in Kansas in 1888. In 1888 the United States government sold the land for \$140 an acre. The Indians succeeded in getting their claim of \$2,000,000 allowed by the government and now they want to get the appropriation law through the house and senate. The meeting next week is to argue the claim which Messrs. Jenkins and Baker make for 24 per cent. extra for their services.—Oswego Times.

Naturally fair complexion would be the rule rather than the exception, as unfortunately it is at present, if the ladies would wholly abandon cosmetics, and more generally keep the blood pure and vigorous by use of Ayer's Sarsaparilla, the only reliable blood purifier.

An baldness makes one look prematurely old, so a full head of hair gives to mature life the appearance of youth. To secure this and prevent the former, Ayer's Hair Vigor is confidently recommended. It is a hair dressing and gentlemen prefer it to any other dressing.

A YOUNG LAD AND HIS FAITHFUL FRIEND.

ERNEST MCGREGOR, OF WHITBY, ONT., GIVES AN ACCOUNT OF HIS EXPERIENCE—CURED OF CHRONIC DYSPEPSIA BY D. B. R.

WORST KIND OF DYSPEPSIA.

DEAR SIR.—I write to inform you that for years I have been troubled with dyspepsia, and having tried other medicines without success, I at last found relief and cure in Burdock Blood Bitters, of which I took two bottles, the result being a perfect cure. Although only a young lad I had been troubled with dyspepsia for four or five years, and I had tried all the best kind of dyspepsia, and had proved itself the only cure for me. ERNEST MCGREGOR, Whitby, Ont.

CHOOSE the DIAMOND.

WHIPPING SEPARATOR CREAM.

As many of the readers of this paper are buying separator cream from the Rathbun Company farms we have been requested by the Farm Superintendent to reprint the following from the *Country Gentleman* of 1894, page 459, so that the many pat of it will temper their cream when intended for whipping and not lay the blame of their sometimes unsuccessful attempts where it does not belong.—(Without giving the details of all my experiments allow me to say that first I succeeded in whipping perfectly the cream that came from any of the various makes of separators. Second by changing the cream separator, cream that tested below 20 per cent fat whipped with difficulty, while that testing 30 per cent whipped so quickly that great care was necessary to avoid turning the cream into butter. Third, Separator cream would whip at the room temperature or above, but by cooling to 50° most excellent results were obtained. Below 50° the results were not satisfactory, with some slight misgivings I bought a box of your pipe cream, which I am pleased to say gave me almost instant relief and permanent cure. I consider your Separator a God send. ALF. J. DEAN.

ORILLIA'S PROMINENT FURNITURE DEALER GIVES FACTS.

Orillia, Feb. 10th, 1894.

EDMANSON, BATES & CO.

Gentlemen—About three or four weeks ago I had an attack of itching Piles. I tried various remedies, but without success, until I was advised by a friend to try your Piles, etc., but, got no relief. About the time I was beginning to despair of finding any relief, with some slight misgivings I bought a box of your pipe cream, which I am pleased to say gave me almost instant relief and permanent cure. I consider your Separator a God send. ALF. J. DEAN.

THE KENT CASE

A VISIT TO THE WORKS OF THE BRITISH NORTH AMERICAN NITROGEN COMPANY.

OTTAWA, April 3.—A visit paid yesterday to the works of the British North American Bank Nitrate Fertilizer Company in whose employment is Mr. G. H. Kent, the report of whose recovery from Bright's disease with its attendant complications of swollen limbs, convulsions, coma, and fearful pains, has been the cause of so much discussion in the city, showing that he is still in the enjoyment of the best of health, has been gained by a judicious use of Dodd's Kidney Pills. For a man who may be said to have had one foot in the grave, and whose health is described by the leading medical picture of health and vigor, and pursued his work at the heavy press without any indication of weariness. He is loud in his praises of the remedy which cured him.

GLAD TIDINGS OF GREAT JOY

There could be no gladder tidings than news of a cure for consumption. Miller's Emulsion of Cod Liver Oil cures consumption and every disease of the lungs and respiratory organs. Why? Because it supplies new blood to the exhausted system, thus giving a new lease of life. Miller's Emulsion is made from the Oil of Norway Cod Liver, and in conjunction with hypophosphites of lime and soda forms the greatest vitalizer of the system. Emulsion is the great nerve strengthener and blood maker, and cures Coughs, Colic, Bronchitis, Scrofula, and all Lung affections. In Big Bottles, 50c. and 10c. at W. G. Egan's and W. J. Malley's.

WASHINGTON EXCURSION.

The Rome, Watertown & Ogdensburg railroad will run their ninth annual excursion to Washington on Tuesday, April 9th. The fare will be \$10 to Washington and return. Tickets will be good for ten days, and permit stop off, on the return trip, at Baltimore, Philadelphia and New York. Reduced rates will be made at thirty hotels in Washington. Sleeping cars will run through from R. W. & O. stations to Washington. The train will stop at Jersey City for breakfast, arriving at Washington early in the afternoon.

The R. W. & O. R. R. requested its agents to interview all patrons of Washington excursion, and to advise them of the great benefit to be derived from the trip. About eighty per cent. decided on April 9th, because that is the pleasantest time of the year in Washington and New York. Seats and fare on April 11th, and excursionists will have an opportunity to spend Easter Sunday in Washington. Tickets, 10c. and 5c. at W. G. Egan's and W. J. Malley's.

SPRING TIME.

Is when nearly every one feels the need of some blood purifying, strength invigorating and health producing medicine. The real merit of Hoods Sarsaparilla is the reason of its widespread popularity. Its unequalled success is its best recommendation. The whole system is susceptible to the most good from a medicine like Hood's Sarsaparilla. It is a blood purifier, and it would be a great stress upon the time and remedy, for history has it recorded that delays are dangerous. The remarkable cures which have been effected by Sarsaparilla and the many words of praise it has received, make it worthy of your confidence. We ask you to give this medicine a fair trial.

Cottolene A SHORTENING.

Down the street through the busy way A lady passed on marketing day. Who, pausing at a grocery store, Stepped quickly to an open door. With hasty breath and anxious mien She queried: "have you COTTOLENE?"

The grocer, leaving off his work, Interrogated every clerk; But none up to that time had seen An article called "COTTOLENE."

"What is it?" said he to the dame, That answers to this curious name. What is it made of? What's its use? My ignorance you'll please excuse."

"You're not the merchant for my times, I see you're quite behind the times. For COTTOLENE, I'd have you know, Is now the thing that's all the go, An article of high regard; A healthful substitute for lard. Its composition pure and clean; For cooking give me COTTOLENE."

As from his store the lady fled, The grocer gently scratched his head— On his next order, first was seen, "One dozen cases COTTOLENE."

Ask Your Grocer for It.

Made only by N. K. FAIRBANK & CO., Wellington and Ann Streets, MONTREAL.

VACCINATION OF LAND.

Interesting Experiments Being Made in France and Germany.

One of the strangest things in recent science has to do with the recent "vaccination" of land. Everyone knows that it enriches, instead of impoverishes, a field to plant it occasionally with a leguminous crop, such as clover or lucerne, the roots of which have a power of absorbing and retaining more nitrogen than they take from the ground. But when the nitrogen comes from another matter, when people began to study the problem, and Messrs. Lawes and Gilbert, among others, spent many months in fruitless endeavors to trace the source to the air, coming at last to a negative conclusion. The discovery was eventually made by Herren, Holtriel and Willfarth, of Germany, that the absorption was due to minute organisms (a sort of disease) in the roots, which, when the supply of nitrogen in the soil began to fall, appeared in the form of small excrescences, drew nitrogen from the air and so caused the enrichment. A remarkable fact has been settled it became a matter of importance to foster and, if possible, hasten the growth of the disease in the fields sown with leguminous, and extensive experiments have been made during the last few years in France and Germany with this object. Fields have been literally "vaccinated" by sowing over them soil in which tuberculous crops have grown, or even water in which they have been soaked. In a tract of old peaty land was sown with clover and vaccinated with about one and a half tons to the acre of an old clover field. Scarcely any other leguminous plants were sown. A more convincing experiment still was performed in Prussia, where a large field was sown with lupines, and divided, one part being treated in the ordinary fashion, the other inoculated from an old lupin crop. The yield in the latter part was five and a half times as great as in that under the normal treatment. A remarkable fact has been settled it became a matter of importance to foster and, if possible, hasten the growth of the disease in the fields sown with leguminous, and extensive experiments have been made during the last few years in France and Germany with this object. SOME GHOST STORIES.

A THEORY WHICH MAY FULLY EXPLAIN SOME OF THEM.

The Self-Hypnotism Puzzle.—Several Cases Minutely Explained, Showing the Possibility of the Mesmeric Power Lying Within One's Own Will Power.

The two following histories demonstrate the source from which many puzzling cases have their origin—cases of hysteria in all its innumerable forms of hypochondria.

Case 1.—An ex-surgeon, a gentleman of education, culture and wealth, at the age of 60 became interested in Spiritualism, starting from curiosity, with a disposition to investigate. He read extensively the subject. During the first period of his study he visited many Spiritualists, and the conclusion he arrived at was that these people were frauds. Having satisfied himself of this, he pursued his studies alone. With much practice, he was at last able to perform mental concentration, which, as he explained, was the condition to arrive at, in which one could free his spiritual body and commune with the spiritual world. At one of these times, when practicing mental concentration, a body which had all the appearance of being material appeared before him. It was the form of a woman in black. The conversation he carried on with her surprised him, as she was as well versed as he on topics to which he had devoted much of his time. She also told him things which no other than himself could possibly know, yet he acknowledged that the spirit had told him nothing more than he already knew. From this time on he frequently conversed with the spirits of deceased friends and relatives. In which case there he used to see them in life, and their voices were identical. These spirits would disappear as they came into space. This man never used alcohol; he has used tobacco moderately, and would not allow anyone to guess that he was interested in this subject; even his friends and family have been ignorant of the fact. He attends to his business as satisfactorily as ever, and has no semblance to one who is insane on any subject.

Case 2.—In 1892 a recent graduate in medicine made a wager with some of his associates that he could sleep in a room with a corpse. He had dissected a great deal; even at times he had worked alone at night in the dissecting room, had attended many autopsies, and had been associated considerably with the dead. Every night he was arranged with his friends; joking to be exact. At 10:30 p.m. he was taken to a room in an empty house in Brooklyn, N.Y. In the room were a small table, a chair, a lamp, and in the centre of the room a small corpse clad in ordinary clothing. Fine had been told that the corpse was driven into the table to make sure that it would not be removed. The young man was locked in the room with the understanding that he was to be called for at 6 a.m. At that hour, when his friends arrived, they found him in the room, found him undoubtedly insane. He was taken home, where he did not improve, and at last he was taken to a private asylum. Among other therapeutic agents, hypnosis was used. In six months he was cured.

The story of that night is as follows: On being left alone he had no fear of the corpse whatever, and went over to look at it, assuring himself that it was a corpse, and no joke had been attempted. He strolled around the room and finally sat down at the table. Now and then he glanced nonchalantly at the dead man. As time passed and he became tired, he noticed that he was glancing more frequently at the body. What had an hour previously not interested him, now he began to feel that his attention considerably. Every minute he found himself looking at it, and as it became late and he grew more tired, it absorbed his mind to the exclusion of everything else. He gradually became much anxious, and he wished he was home. He thought upon the life, death, the soul and spiritualism. To hide the corpse from view and cease thinking on these subjects, he determined to try sleep. He removed some of his clothing, and pulled the blankets over his face. He heard noises, but he felt that in his mind by reasoning that it was either the wind or the settling of the house. He, however, glanced at the dead man from time to time, and at last got into a position in bed to keep it in view. His eyes were terribly strained, and he had a frontal headache. His eyes were riveted upon the figure and he felt drowsy, but could not close them. The corpse at last rose in a sitting posture, then stood up and walked toward him. His eyes were open, and had a stary, glassy appearance. It spoke. After that he could remember no more until he was taken from the house; even then he could not remember it. He had only a slight recollection of, and even now that he recovered he is positive that what occurred that night actually happened.—Pacific Medical Journal.

An Altruistic Barmid.

There will soon be quite a library of "blue books" dealing officially with the cause of woman—of the real serious cause of women who have been born toilers and workers, and who actually have experienced the at times brutal tyranny of man. One of the most interesting, too bulky even to preach here, deals fully with the various conditions of labor under which women work, and which it is hoped legislation will ameliorate. A genuine tale of the good influence of woman working in the midst of the most tempting temptations is told in a very pretty manner; it tells of a barmid in a seaport town where crews were frequently paid off, who made it her business to be as attractive and nice to the men as possible and to persuade them to fly from temptation and get home with their money to their wives.—Lady's Pictorial.

SAP'S A-RUNNING.

Fun and Hard Work in the Maple Bush in the Early Spring.

To get the best flow of sap, the nights must be freezing and the days warm and pleasant. When it reaches the camp the sap is poured into the big kettle and a pile of dry boughs is soon crackling away under it. After that for several weeks the camp in the sugar bush is the scene of great activity and excitement. It is really a good deal of a picnic. In the evening the fires are set to roaring high around the kettle, and the boys sit near and tell stories. Sometimes the girls in the neighborhood come out in a body with a big basket of doughnuts and sandwiches, and then the boys "see them home." After having been boiled partly down in the kettle the sap is dipped out into the pans and again boiled until it is thick and syrupy. Just before the time for "sugaring off" arrives the syrup is dipped out of the pans and placed in tubs, where the "sugar sand"—otherwise the malate of lime—can settle out. Then it is poured back into the last pan in the series and until it is boiled. One of the boys stands over it with a spoon and from time to time he drops a little syrup into a snow bank, and if it hardens or "sugars" it is time to pour it off. Sometimes it is "sugared" in tubs and sometimes in molds of various sizes and shapes. In these forms the big brown blocks go to the market.

Toward the end of the sugar season the yearly "sugaring off" festival is held in many places, and it has come to be regarded with the husking bee and apple-paring party. Some pleasant April afternoon when the snow has been driven to the protection of the fence corners and the robins are hopping on the moist sod the people from all the country round gather at the "bush," bringing their lunches with them. Each boy and girl is provided with aspoon and a big white chip. When the syrup is thick and brown in the last pan a little of it is stirred with much jesting and laughter until it has "sugared" almost white. By this time the women of the party have laid out the bread and butter, the cold ham and the pickles—for pickles are always present at a sugar party. Then the lunch begins and continues until everything is eaten up.

Some big maples will yield as high as 30 gallons of sap daily, but the average is much below this amount. The sap has only about 2 per cent. of sugar in it, and the boiling, therefore, is for the purpose of driving off the moisture and leaving the sugar. This is accomplished in some sugar bushes by means of a patent evaporator in which the process is much more rapid. Sometimes the sap is not boiled down to sugar, but is allowed to remain in the form of syrup, weighing about ten pounds to the gallon.

The great element of success in sugar making is cleanliness. Much of the pure syrup and sugar on the market is believed to be adulterated, simply because the makers were not careful to keep leaves and twigs out of the sap, and neglected to clean out the kettle and pans frequently.

Maple sugar making is distinctly a Canadian industry. Practically maple sugar is made nowhere in the world outside of Canada and the United States, and we learned the process from the Indians. In many of the tribes sugar making was in times past one of the favorite pursuits. The first sap which flowed after the trees were hacked—for the Indians had no saws—was sacrificed by the medicine men to the Great Spirit. Then the braves boiled the first and the women tanned the trees, chopped the dugouts and did all the rest of the work.

A large part of the country's supply of maple sugar comes from this province, and hundreds of farmers produce it. Trees are planted every year, so that a vigorous bush may always be maintained. Even the roadsides are lined with great maples, and in the sugar season these, too, are tapped. The taking of the sap from the trees in no way injures them. Canada used to send a considerable quantity to the United States.

It is a common impression that maple sugar is much adulterated, and to a certain extent this is true. The pure maple syrup contains a large amount of ordinary granulated or "A" sugar. This variety is used largely in hotels and restaurants. A still cheaper grade is made by mixing a little maple sugar with a great deal of glucose. This gives it a certain "maple flavor" on the market which are put into a glucose compound and the resulting syrup is palmed off as an unsuspicious article as "pure maple syrup." Reliable dealers, however, do not countenance any such practices.

Maple sap is also used sometimes for making vinegar. By exposure to the sun for four days it becomes sour, and can hardly be told from the best vinegar.

Geraniums Disliked by Flies.

Here is an interesting idea for the housewife who is troubled with the annoying flies flourishing in their furnace-heated rooms long after cold weather is supposed to have destroyed them. The suggestion comes from abroad that the fragrant geranium—the old-fashioned rose geranium—loved by our grandmothers—keeps flies away. A moderate sized geranium of this variety is said to be so disagreeable to flies that they avoid its neighborhood, and two or three of those plants in a room will drive them out altogether.

Glory at Cost Price.

Marshal Lefevre, created Duke of Dantzic by Napoleon the First for his services in battle, was called upon one day by an old comrade who had not succeeded in the world. He expressed very envious of his friend's riches and beautiful house and made unkind remarks about them to the marshal. "Well, now," said Lefevre at last, "you shall have it all but at cost price. We will go down into the garden; I will fire at you sixty times; and then, if you are not killed, everything shall be yours."

THE PRINCE OF ROMANY

SKETCH OF THE RICHEST NOMADIC HORSEDEALER IN THE WORLD.

The Prince Loved All Things Gorgeous—He Travelled in Splendor and Dazzled the Eyes of Countrymen With Whom He Traded Horses on the Square.

Prince Williams is dead—the prince of Romany, the richest nomadic horsedealer in the world. He was an Englishman, and his word was as good as his bond. A strange quality in a mercantile horse-dealer. During the American Civil War he was located in Buffalo, where he bought horses for the Government, and many times he ran over into Canada in pursuit of his business. During the first ten years of his residence in America the Prince travelled about altogether in the Southern States, where he was a great favorite with the horsemen and plantation owners. During the last thirty years, however, his headquarters have been in East Hartford, Ct.

No one understood better the effect of gorgeous finery on the minds of the back country horsemen than the Prince. One of his horses went about with pomp and pageantry. The country folk received him with open-eyed wonder and somewhat of the deference that is paid to a monarch. The Prince was by no means an ordinary everyday trader, but all his horses—there were always a score or more in his train—were sleek and blooded animals, the finest in the land, whose glossy coats shone with the polish of skilful grooming.

All day the business of horse-dickering went briskly on. At dusk the rural traders set off homeward with their purchases, and then the Prince and his attendants kindled their evening camp fires. Horses were tethered or fed hay, and there among the forest trees, the glittering canvas waggon drawn up in a circle, and then the nomads partook of their supper. They slept in their waggons, in roomy chambers on wheels that were fitted up in elegant and comfortable style.

Very orderly and proper, and neat withal, was the Prince's encampment always, for "the Chief," as his people fondly termed him, was rigorous and inexorable in respect of his temperance convictions, and would brook no disorder, intemperance or licentiousness.

Lavish as the Prince unquestionably was in his mode of living and travelling, dispensing hospitality with an open and prodigal hand, nevertheless his charity was even more bountiful and generous. His purse was always open to the needy applicant—it is said that a person in pecuniary distress never applied to him in vain—hence his memory is revered by many thousands of poor persons in every part of the land.

All his life the Prince travelled in great magnificence, with imposing equipage and harness gloriously decked. A few years ago he had a wonderful chariot constructed for himself that exceeded in its splendor anything of the kind ever produced.

Those who have seen him in his troops of haltered, high-stepping steeds, clattering over the stony country roads, kicking up clouds of dust. Prince Williams always rode ahead in royal style, in a sort of triumphal every-day procession of majesty, and he no less with his rumbling chariot, was at once a wonder and a caution to the hard-fisted and penurious farmers, among whom he journeyed and sojourned.

He had that towering chariot, which was even bigger and grander than the one he used to ride in, and he rode and quakes in the circus procession, designed for him by an artist of his trade, who spent many a sleepless night concocting novel schemes to debauch it with sunset splendor. It cost him not a dollar less than \$5,000 or \$6,000. It was worth every penny of the sum, at that, for it fairly wallowed, the chariot did, in gleaming gold, silver, paint and trimmings.

Half a dozen sleight horses drew it, as round and sleek and pompous as Pegasus, and they stepped along a back country road, resplendent harness jingling with bells and silver buckles, flashing back the sun's rays in contemptuous mockery of Pegasus Apollo's steeds in splendor, with all their plumes nodding and fluttering in the breeze.

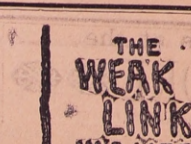

All this gawdaw spread just delighted the Prince, and what was of vastly more account, it dazzled the country, lured the unwary traveller, and made nothing else could do; for the Prince was a mighty shrewd and sagacious judge of the pecuniary side of a glittered business phenomenon.

So the Prince rode and glittered habitually for many a year, and all the time shining hard dollars in his pocket rolled into his capacious coffers, his bank account waxed steadily more plethoric, and folks said: "H'm! the Prince is getting rich."

The Prince always chose an ideal spot for an encampment. The brilliantly painted and decorated wagons were quietly hidden in the woods, with groups of horses tethered beside the highway, all combining to form a romantic and bewitching scene. In the company were from 15 to 20 persons—men, women and children—and all in all they had 35 horses, and magnificent animals they were. The great chariot, of course, attracted most attention on the part of the awe-struck countrymen, for it was like a buffet parlor railroad car, equipped with all the necessities and luxuries demanded by the most luxurious travel.

Indeed, it was a perfect boudoir inside, with beds covered with spotless counterpanes and hung with silken curtains and drapery. The camp trimmings were in that encampment were valued at more than \$5,000; the persons there were all young and handsome, and the whole camp was as neat and pretty as that of an ideal picnic party.

A strong statement—"Maria, that's a skunk in the cellar!"—Boston Courier.

Upper Canada College is nearing its end and not too quickly. The teaching staff has been notified of dismissal for the purpose of being reorganized.

This season Capt. Cornelius will sail his sloop, the Woodcock. She has been repaired and fitted with a new set of sails. He has been a sailor for fifty-seven years.

The Picton Gazette states that the hop growers during the incoming season will reduce their yields materially, while some producers will go out of the business altogether.

It is said that Lord Salisbury, recognizing the inevitable, has asked the bishop in the house of lords, to yield to the popular demand and accept the bill of establishing the church in Wales.

The high wind of Tuesday night broke up the ice in the bay very quickly and there is now open water for a long distance down the reach.

The season in Manitoba and the Territories has been unusually early and the farmers are already well forward with seeding operations. The weather, however, is dry.

Word has been received that J. M. Wheeler, who is employed by the Rathbun Company as a cutter, had a close call the other day, having been nearly drowned.

Mr. A. A. Richardson, though still very weak after his recent serious illness, came down to the Big Store on Monday and resumed his duties in that establishment.

E. S. Westmoreland recently purchased fifteen fine beef animals from Robt. Dowling the well known stock feeder on the Napanee road. They were fit for the English market.

The new books for the Mechanics Institute will soon be placed on the shelves of the library. Already new members are being enrolled as a result of this valuable acquisition of reading matter.

It is to be hoped that the Town Council will do effective work on the streets this year. There has always been a painful lack of system in the management of this department of the public service.

Patrick Foley, of Marlbank, came to Deseronto and while under the influence of drink was relieved of fifteen dollars by some of his home companions. The same thing occurred to him a year or two ago.

The Wig states that an effort will be made to form a junior cricket league at Kingston, embracing Deseronto, Napanee and Belleville. The matter will be brought up at the annual meeting of the Kingston cricket Club.

The action of the legislative assembly in voting down Mr. Haycock's bill to abolish railway passes to members, meets with general disapproval. The measure was only supported by the Patron members and one Reformer.

Two important resolutions have been carried in the imperial house of commons, one favoring home rule to England, Scotland and Wales, and the other a second ballot in elections when a candidate does not get a majority of the votes cast.

Civil war between Norway and Sweden is threatened. The Norwegians really favor a republican form of government and a separate existence, but the Swedes are in favor of constitutional union. Russia will in time gobble the two countries.

R. H. Baker, the Edmund street butcher, recently purchased a fat animal from John Wilson, of Richmond, which when dressed weighed 994 lbs. With the heart thrown in the carcass tipped the scale at exactly one thousand pounds. It was of superb quality.

The snow is rapidly disappearing from the Boundary road where it was thought it would be seen until the end of June. Even where the drifts were deepest the ground is visible, and in a few days the 'beautiful' will have said good by for the season.

The Chatham Evening Banner, one of the most sprightly and enterprising dailies of the province, has entered upon its second year. Mr. J. F. MacKay, a thorough newspaper man, now assumes the entire management, thus ensuring even greater success in the future.

Mrs. David Gerow, who lived with her husband in a little shanty on Cedar Island, near the Ameliasburg shore, committed suicide on Monday morning by cutting her throat. Her maiden name was Lizzie Daw. She was about fifty years of age and her life had been one of dissipation and domestic trouble.

Relations are strained between England and France over the African question, the British government resenting the advance of French expeditions into the upper Nile region. The dispute will be settled in a friendly manner. The dark continent has been pretty well divided up between the European powers.

The young man, Burton Spafford, of Picton, sent down for trial two weeks ago by P. M. Curry for using the mails with intent to defraud, on information laid by Acting Postoffice Inspector McCarrow, was put for trial before County Court Judge Merrill. He pleaded guilty and was fined \$5 and costs, and ordered to refund all the money obtained by him through the fraudulent advertisement.

Many building projects are in embryo. Business men have stated to THE TRIBUNE that it is useful to emphasize the erection of larger and more modern stores in future as they are cramped at present in many of the shops which they are obliged to occupy. There is not one shop in town of half sufficient depth for purposes of trade.

Local capitalists and building companies would find it a profitable investment to run up several good blocks in Deseronto.

The financial returns of the Dominion for March are greeted. They show a falling off in ordinary revenue of one million dollars compared with March of last year. The figures are March, 1894, \$3,759,326; March, 1895, \$2,748,195. The total revenue for the year is expected to be \$3,319,000.

The total revenue for the year is expected to be \$3,319,000. The total revenue for the year is expected to be \$3,319,000.

Pike are running up the creeks and several have been speared.

Next Thursday night is the regular date for the meeting of the Town council.

Local sportsmen have been successful in bagging wild fowl.

There is an increasing demand for Canadian horses in England.

Mr. P. O'Connor, who is still at Hotel Dieu hospital, is steadily growing weaker.

It is pleasing to see that apathy concerning ferry matters is at last giving place to action.

It is thirty-six years ago next Monday since President Lincoln was assassinated.

If Sunday is a fine day there will be a grand display of spring bonnets of the latest fashion.

It will be 191 years ago next Thursday since the appearance of the first newspaper in America.

There are frequent desertions from 'A' battery, Kingston. Sergt. Kelly left suddenly the other night.

The inimitable Sim Fax keeps the house in roars of joy. Hear him in the opera house next Tuesday evening.

Wm. N. Prentice, insane, aged 25 or 30, left his home in Hungerford and his friends will be glad to hear of his whereabouts.

The social announced to be held in St. Mark's Hall on the evening of the 17th has been cancelled for the present.

It will be sixty-six years ago to-morrow since the Catholic emancipation Bill was passed by the Imperial Parliament.

Sturge upon fishing has already commenced at Ogdensburg. A man named McDonald last week captured one weighing 149 lbs.

The High School closed yesterday for the Easter vacation and will open on the 22nd; the public school will open on the 10th.

We understand that the streets committee has appointed Mr. William Harvey as commissioner of streets for the current year.

As Good Friday and Easter Monday are Dominion holidays the Bank of Montreal will not be opened for business on those days.

A party of 98 boys and girls arrived at the Marchmont Home, Belleville, on Tuesday. Another party of 70 is expected next week.

Mr. Wm. C. Gully was elected speaker of the British house of commons by a majority of eleven votes. He is a member for Carlisle.

Mr. Wm. Dunning, Centre street, has greatly brightened the appearance of his premises by painting the fence a fashionable shade.

Redford Vanalstine had his hair and whiskers singed at the fire on Tuesday. He did excellent work at putting out the blaze up stairs.

Great interest is manifested here as elsewhere in the Halldimand election. The candidates are Hon. Dr. Montague and Mr. Jeffrey A. McCarthy.

The Kingston board of trade will ask the G. T. R. for a reduced fare on a day in each week from Belleville and Brockville and intermediate stations to Kingston.

Miss Mahala J. Burdett, of Belleville sister of the late Mr. S. H. Burdett, M. P., died from paralysis on Tuesday, aged 45. She was born in Shannonville.

The Bay of Quinte Railway Engine No. 5, has been thoroughly repaired and overhauled in the locomotive works and is now to all intents and purposes as good as new.

Why do not the street committees put on fifty men and scrape the mud off the streets in a couple of days, is a question asked by several citizens during the past few days.

Dr. Yeomans will move his office and residence to the house on Main street at present occupied by Mr. Jarritt and a tuasted immediately opposite THE TRIBUNE office.

A gang of counterfeiters has been located at Chicago who have been flooding the United States with two cent stamps, thus cheating the government out of large sums of money.

Four bye-elections for the commons next Wednesday. Quebec, West, Vercheres, Anticosti and Halldimand. Vercheres was formerly held by the opposition, the others by the government.

The price of grain on Kingston market remains unchanged; oats, if anything, are a little weaker, 35c. and 36c. Owing to the scarcity of Ontario wheat there has been an advance of 10c. per cwt. on flour; butter is cheap, 16c. to 20c.

Cricket Club. A meeting of the members of the Deseronto Cricket Club will be held in the rooms of the Deseronto Club on the evening of Friday, 19th inst., for the purpose of electing officers and transacting of general business. All lovers of cricket are invited to be present.

Church of St. Vincent de Paul. The usual Easter service will be observed at the Church of St. Vincent de Paul. Rev. Father Hogan will hear confessions on Saturday at 2 p. m. On Sunday at 11:15 a. m. there will be the usual Easter services and Easter offerings. There will be special music at this service.

Reducing Values. Sweeping reductions in the value of lake vessel property appear in the inland Lloyd's vessel register for 1895. At present vessels on the lakes are earning nothing, and the cost of building vessels has declined heavily owing to the industrial depression. For these reasons the values in the register had to be reduced. It would be unfair to permit owners to insure their properties in valuations five to twenty-five per cent. higher than the building prices of the same kind of property.

What about ferry communication with Fredericksburg?

The Big Mill will probably start work about the middle of next week.

New bicycles are coming in on every train. There are said to be twelve agents in town.

Mr. C. O. Dein has moved to Mr. Hogle's house on the corner of Thomas and Centre streets.

There was a lively set to between two men on East Thomas street the other day. They pomelled each other in a lively manner.

Fresh salmon are being shipped from British Columbia to England by way of Australia.

The old school house on Edmund street has been torn down. Thus disappears another venerable relic of Deseronto's early history.

The presence of the Sophiasburg farmers was greatly missed during the past two weeks. The ferry boat has not been running and they could not, therefore, get to town.

The meeting between the citizens' committee and the band has been postponed until next Monday evening at eight o'clock. All members of the committee will please attend.

The business men are talking of holding an indignation meeting as they are incensed because the ferry boat at Peterson's ferry is not yet running, thus depriving the town of a great deal of trade.

Mayor Rathbun and a deputation from the Kingston board on trade interviewed the Ontario government on Wednesday in reference to matters affecting the further extension of the Bay of Quinte Railway from Tweed north.

Humphrey Guest, a resident of this county, will be liberated from Kingston penitentiary next week. He is 73 years of age and has served eight terms in the penitentiary. His last term was for eight years.

Mr. Trist, superintendent of the shipyard, has the fleet of the Deseronto Navigation Company well forward and will be ready for the opening of navigation now not very far distant. All the steamers have been painted and thoroughly overhauled from stem to stern.

People along the Napanee road were alarmed one night not long since by the loud cries of a woman in distress who was evidently being maltreated by her husband or some other person who was in the rig with her.

The Roman Catholic congregation of the Church of St. Vincent de Paul have purchased a piece of the east end of the Deseronto cemetery for their own use. The congregation have for some time felt the great need of a cemetery, that at Napanee being too remote, thus causing much expense and inconvenience.

By an order-in-council the age at which candidates may present themselves at the Royal Military College for entrance examination has been changed. The rule has been that the candidate must be between fifteen and eighteen years of age on the first of January preceding the examination. This has been changed so as to admit as candidates those who face between fifteen and nineteen on the first of January preceding the examination.

On Monday Mr. James Gammon was patching a boiler when a piece of steel flew from his hammer and struck the ball of the left eye. It is feared that as a result he may lose the sight of the eye. He left for Toronto yesterday morning to be treated by an eminent oculist in that city.

Sad Fatality. On Sunday evening, about 6 o'clock, smoke was seen issuing from the residence of Mr. Philip Brown, 8th con. of Rawdon. On entering the premises it was found that the place was on fire. The owner was found dead in his bed, having been suffocated by the smoke. The body was removed and the house was soon destroyed by the fire which rapidly gained headway. Mr. Brown, who was upwards of eighty years of age, had dwelt alone since the death of his wife. He was one of the most respected residents of the township, having been township treasurer for many years. He leaves five daughters and two sons to mourn his death.

Naylor's Opera House. There are extraordinary attractions at Naylor's opera house on Wednesday evening, April 17th, when Miss Jane Coombe, one of the leading actresses of the day, will appear with a full company in "Romeo and Juliet." Mr. Naylor secured them at considerable expense as they only had one date open between Kingston and Toronto and he would call on all lovers of good drama to help him out in this venture as he positively assures the people that his company is everything that it represents itself to be. Plans now open.

The house owned by Mrs. Botting, Thomas street, was found to be on fire on Tuesday forenoon, having caught in the upper story. The alarm was given and neighbors rushed to subdue the flames which were making rapid headway. The furniture of Mrs. Botting as well as Mr. Martin Reid, who occupied part of the house, was quickly removed. Fortunately there was a good supply of water on the premises and the full brigade by active exertions extinguished the conflagration, though not before considerable damage was done to some rooms upstairs. The loss is covered by insurance. The fire engine was very slow indeed in getting out and did not arrive at Centre street tank until the fire was out, the hose cart following some time after. There were general expressions of dissatisfaction at the slowness with which the brigade performed its duty.

THE BUSY MAN.

If you would get a favor done
By some obliging friend,
And want a promise, safe and sure,
On which you can depend,
Don't go to him who always has
Much leisure time to plan,
But, if you want your favor done,
Just ask the busy man.

The man with leisure never has
A moment he can spare,
He's always "putting off," until
His friends are in despair;
But he'll save you some time
In crowded hall of work,
For he's the sort of waiting time
He cannot stop to shirk.

So when you want a favor done,
And want it right away,
Go to the man who is constantly
Working thirty hours a day.
That has no other use,
And find a moment, sure, somewhere,
And fix you, while the idle man
Is framing an excuse.

National Anthem.
The words and music of "God Save the Queen," or, as it was at first, "God Save the King," were by Henry Carey. This anthem was first sung in public in honor of the victory of Portofino, on November 30, 1740.

"Hil dir in Slegerkranz" was adopted from the preceding and was proposed as a German hymn, in 1881, by Balhassar Gerhard Schumacher.

"Die Wacht am Rhein," written in 1848 by Karl Wilhelm, has since 1870 become the most popular German song.

The Austrian "Gott erhalte" was written in 1790. Haydn visited England and was very much impressed by the solemn strains of "God Save the King," and resolved to write a hymn which would compare favorably with it. It was first performed on Emperor Francis's birthday, February 19, 1797, and shortly after it was officially declared the national hymn.

The "Marcha Real" (Royal March) of the Italians, by G. Gabetti, is not an anthem in the sense as applied here, but a military march, which takes its place.

"Bozic, Czara Kralj," the Russian national melody, was composed by Col. Alex de Loeff in 1881. This was pleased by Nicholas I so much that he ordered it to be made a national chant.

Philosophy for the Bill Collector.
A collector of unpaid bills has a hard time of it, but one who visited England some time ago, said that he had seen some of the most successful bill collectors in the world. He said that he had seen a man who was getting on very well, and was getting on very well, and was getting on very well.

"Say," he said, "when he made his last trip, 'are ever going to pay this bill?'"

"Why, yes, some day," the philosopher replied. "But I don't know, young man, I want to show you a thing or two. How many bills have you in that pack?"

"About forty," said the collector.

"How long does it take you to visit all these people?" the philosopher inquired.

"About a day."

"What if all paid up promptly?"

"Why, that would be great!"

"Would it? What would you do for a living if all these debtors paid up in one day?"

The collector looked blank for a moment. "Great Jerusalem! I'd be out of a job."

"Well, then, don't be so anxious to collect every penny due to your people. One bill a day is enough. As for me, I come around some time next week and I may do something for you, and the philosopher faded away.

Dishes For Great Men.
Plus IX, during his pontificate, ate only an egg and a bit of bread for breakfast.

Meysbeer said that no man could work well who did not live well. He was a hearty eater.

Swift said: "No bread is so bitter as that of a dependent." He spoke from personal experience.

Locke said that the proper breakfast for a studious man was a bit of fish and a piece of bread.

Cowley liked fried eels. He said that when properly cooked they were a dish to set before a king.

Michael Angelo, during the greater part of his life, lived on the plain food of an Italian peasant.

Rare Ben Jonson asked no better treat than a pork pie, with an abundance of Canary wine.

Bernadotte, Napoleon's marshal, who afterwards became king of Sweden, liked geese and onions.

Walter Scott liked venison better than any other meat, and potatoes better than any other vegetable.

Stub Debt of Thought.
Language is the bucket which hangs in the wall of thought.

What breaks one heart makes another. Art is the sublimation of the artificial. Don't trust a man who is too ready to trust you.

A woman's brain doesn't empty into her heart.

An impulse should be kept on ice for a time.

Advertisements are the legs that business walks on.

Religion is the heart of the church and theology is its brains.

A woman never makes up her mind to do a thing; she does it, and makes up her mind afterwards.

For Idle Moments.
The orbit of Jupiter is 1,000,000,000 miles in extent, and it takes the great planet 4,332 days to make one complete trip.

Land in New York City has been sold at a price equal to \$8,000,000 per acre. The highest in London at \$6,000,000 per acre.

It is proposed to erect a monument to Tecumseh at London, as a tribute to "one of the noblest spirits of Britain."

They don't do it in the States, but in China they do. Their national hymn is so long that people take a half day to listen to it.

PARAGRAPHS POINTS.

MANY BRIGHT SMILES GATHERED FROM NEWSPAPER WITS.

Statements Written in Such a Vein that the Laugh Comes Natural—All Sorts of People Lamponed for the Ticking of Their Friends' Ribbles.

Even in the case of strawberries those that come early are able to avoid the jam.—Chicago Inter-Ocean.

Guest—I say, landlord, your food is worse than it was last year. Landlord—Impossible, sir.—Texas Sittings.

"Your reckoning John will graduate this term." "He will if he can get somebody to write his valedictory."—Atlanta Constitution.

Phil A. Dei—What is the best hand of poker out in your country? Arizona Pete—Three aces and a pair—a pair of guas.—Exchange.

"Are you fond of classical music?" "Why," replied Mrs. Parvie Now, "of course I am. That always costs the most."—Washington Star.

Miss Mayjune—Do you believe in women suffering from indigestion? Well—er—I haven't quite come to that yet, but I ride a bicycle.—Roxbury News.

Wife—Here's an article on how to keep a husband. Husband—Cut it out and send it to my old friend Henry. He might take the hint.—Boston Courier.

"Is your new maid good about dusting and—?" "Oh, dear me, yes; I've only had her a week, and I haven't a whole case left in the house."—Chicago Inter-Ocean.

"It pains me very much to smack you, Johnny," said his mother with deep feeling, "and I shall have to hand you over to your father. His hands are harder."—Exchange.

Mrs. Topplite—Nora, did you tell the janitor that we wanted more heat up here? Nora—Oh did, mum, an' he foired up right away, had 'cess 't' his ngly pig.—Judge.

Papa—How was it that Tommy Jones reached the head of his class and you didn't?—Dickey—Cause he got to guess at all the questions fore I did.—Chicago Inter-Ocean.

Teacher—I know a place where good men always go wrong. Where? Where is it? Teacher—In the Cannibal Islands when the missionaries get eaten.—Philadelphia Inquirer.

"That lady across the room is going to make a great name for herself some day." "Plunk—'Never.'—How do you manage it?" Plunk—"Always stand up."—Chicago Inter-Ocean.

First Beggar—Hello! Pickin' up anything on your rounds these days? Second Beggar—Ain't nothin' doin' at all. I had to draw \$20 out of the bank to-day ter pull me through.—Roxbury News.

Hill—MacShorth has sold a poem to Scribblers' Digest. Ode to a Fair Lady. Hill—Has he? Well, he is more competent to write verses entitled "Ode to a Landlady."—Exchange.

Customer (in Chinese laundry)—"John, ain't you afraid you'll burn your hands with the acid you put in your wash tub?" Chinaman—No; me stull him with a stick.—Philadelphia Inquirer.

"Now, here is a furnace that we guarantee to be simple enough for the average servant to run." "Um! What you need is one that will run in spite of the average."—Smith, Gray & Co's Magazine.

"Ha, ha! I think those jokes about the women who shop and don't buy are too funny." The Other—"Do, eh? That's because you're not married and don't have to foot the bills when they come in."—Brooklyn Life.

O'Money—I'm in a lucky devil and robbed got into my room last night and robbed me. Hobbs—I can't see that that's lucky. O'Money—But don't you see, he didn't get anything but unreceipted bills, and so he got himself into debt. See?—Philadelphia Record.

The Death of Nelson.
It may be of interest, in connection with the Nelson bazaar, to quote a passage from the memoirs of Robert Gordon LeMay, who was posted in the shrouds of the Redoubtable during the battle of Trafalgar.

"Near the stern of the Victory was an officer covered with decorations and having only one arm. From what I had heard of Nelson I felt no doubt that it was he. He was surrounded by several officers, to whom he appeared to be addressing some words. At the moment of my perceiving him several shots fell near him, struck by the shots from the Redoubtable. Receiving no orders to descend, but seeing myself forgotten in the shrouds, I thought myself bound to fire at the deck of the English vessel, which I saw unprotected and very near me. I might even have aimed at the individuals, but I fired in succession on the different groups formed by the sailors and the officers." "Suddenly I noticed a commotion on the Victory. People hurried round the officer whom I believed I had recognized as Nelson. He had fallen, and was being carried away wrapped in a cloak. His star at that moment shined me. It was not mistaken, but that it was really the English Admiral. A moment later the Victory ceased firing, the deck was deserted by all who had been stationed there, and I presumed that the consternation caused by the Admiral's fall was the cause of this sudden inactivity." Guillemaud, on learning that Nelson had died, rushed through the shrouds and passing through the ship, was confirmed in the belief that in this, his first engagement, he had killed the dreaded English Admiral.—Paris Correspondence London Times.

LADY STANLEY OF ALDERLEY

A Woman of Unusual Personality and Sweetness of Character.
The death of Lady Stanley of Alderley, practically from the wave of cold, but for which she might have reached her natural age, 60, removes a figure from the stage of London society of which there will not in the next generation be many replicas. There will be many grand ladies still society altogether, but the present character, which will probably not happen in any period worth considering; but they will not be like Lady Stanley.

She resembled the great Scotch ladies of the beginning of the century, of whom Mrs. Oliphant has drawn so charming and powerful a sketch in her picture of "Mrs. Catherine Douglas, who, protected alike by station, etiquette, and by charm, dared say precisely what arose in their minds; which was, nine times out of ten, the actual truth, expressed either epigrammatically or roughly, or, successively, according to the character of each interlocutor, but which was invariably made forcible by hard, clear sense. Always a liberal, always inquisitive, always eager for new ideas, provided she could learn them from persons and not books, Lady Stanley of Alderley probably never believed a fad in her life, and never was carried away by an unusual idea. As independent as the most independent of the advanced school, utterly careless of many conventionalities, very brusque both in manner and talk, the impression she always left—if she had a chance of making herself felt—was one of sane originality, and of a reserve force which could be used if necessity arose.

She was even singularly tolerant of opposition, at least outside her own doors, but people were shy of fighting her in committee—and she sat much on various committees—partly because she was sure to speak the exact truth without regard to persons or consequences, but partly also because of her remarkable business efficiency. She was as good a chairman as the ablest man, and better in this than she would put down the wandering or the legions or the foolish with a trenchancy which, when men display it, always gains them personal force. Lady Stanley did not make personal foes even among women who were not in the habit of saying she was "so rude." Possessed of such tact and so well placed, and so interested in all the life around her, politics more especially, Lady Stanley exercised an influence which, when the world was a third of its present size, and people repeated clever things to each other instead of reading the evening newspapers, must have been very considerable.

The politicians who talked to her found what men seek in able women, sense, which is not sensible, that is, which is not an indication of many facts, but a self-generated, and so to speak, instinctive opinion, which may not serve as a guide, but is an invaluable contribution towards guidance. Lady Stanley, for example, probably hardly understood the "alteration policy," which is called, of abandoning the Mediterranean for the moment in the event of war with France; but her instant remark reported in the Times by Mrs. Courtney, that she disapproved clearing out of any one's house or surrendering any of its contents, was a most apt and most completely in a sentence. Her summaries of character were just as effective, and had usually this effective quality, so rarely found in women who speak epigrammatically, that they were not ill worth the trouble of listening to a character and not its special words or peculiarity. We do not know if she ever used her influence, as Lord Beaconsfield thought she did, to secure patronage for her friends, but we are quite sure that she was not in the least partial for the right persons, and never left of the patron's mind a false impression.—London Spectator.

A Musical Typewriter.
An ingenious young woman of New Orleans is about to bring to completion one of the most unique musical instruments perhaps ever yet invented. It is nothing more or less than a simple device with strings and sounding plate to be attached underneath the keyboard of a typewriting machine, in such a manner that when a letter is struck by the operator a note of music will be produced instead of the ordinary click-clack noise which sometimes becomes so very disagreeable. Of course, it is only once in a hundred times, no doubt, that such a combination of keys will be struck as to produce any real harmony in sound, still each note will be distinctly musical, and the invention will probably greatly enhance the use and value of the typewriter. It is expected that a patent will soon be applied for.

A New Way of Catching Rabbits.
In some parts of Australia the tank trap is growing greatly in favor for the extermination of rabbits. It consists of a tank containing water at the bottom, into which the rabbits jump, and from which they are unable afterwards to escape. It, however, is not successful on a large scale only during the dry months of the year. A couple of stations using seven of them recently captured 23,000 rabbits in one week, and it is calculated that they can destroy the pest in the month regularly.—New York Advertiser.

The King and the Page.
The great Frederick was very fond of snuff. He had a box of it put on every mantelpiece in the palace. One day he saw his page helping himself liberally. He said nothing then, but a little while afterwards he told the boy to bring him the box. "Take a pinch," said the king; "How do you find it?" "Excellent, sire." "And the box?" "Superb, sire."

"Very well," returned Frederick, "keep it, then; it does not hold enough for two."

Two Opinions.
Mr. Morally Gough—My dear sir, there's no earthly use of my joining the church.

Pastor—But there's a heavenly use, my dear friend.

HER MAJESTY.

She wears a royal golden crown,
Our little, laughing, blue-faced queen;
The clustering curls o'er eyes of brown
Are bright as summer sunlight's gleam.
She wears a sceptre o'er us all,
And we obey each proud command;
For we are held in slavery's thrall
By the imperial, dipt hand.
Her robes of state are pure as snow,
In every heart she finds a throne;
In all the land she has no foe—
The name of rebel is unknown.
Her loyal subjects, low and high,
Call many a costly tribute bring;
The clories of her kingdom, I,
Her humble poet-laureate, sing.
Around my neck her soft arms twine,
My song is smothered in her curls;
Her sweet, fresh lips are pressed to mine;
Oh, baby—little queen of girls!
—Golden Days.

NINE TAILORS MADE A MAN.

An Old Proverb Very Interestingly Explained.

"Nine tailors made a man." This expression brings us to the consideration of the universal custom of the ringing of church bells, a practice regarded as almost sacred in most minds as being one of the ceremonies attached to the Christian faith.

In origin, however, is a very superstitious one, and the ringing of bells was formerly practiced from a belief in their efficacy to drive away evil spirits. The "tailors" in the above phrase is a corruption of the word "tellers," or strokes tolled at the end of a knell.

Immediately on the death of a person a knell is tolled, the idea having originally been, as previously observed, to keep off hostile spirits from the now departing one.

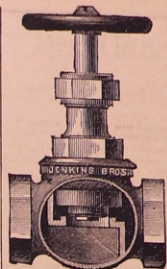

In some places the departure of an adult was announced by nine strokes in succession; six were rung for a woman; three for a child. Hence it came to be said by those listening for the announcement, "Nine tellers make a man." As this custom became less general, and the illusion less generally understood, there was an easy transition from the word "tellers" to the more familiar one "tailors." At the present day, "tumbledown it is still the custom to toll nine times for a man."

That inveterate joker, Curran, took advantage of this popular saying to poke some fun in a good-natured way at his host on the occasion of his being entertained at dinner by eighteen of the Guild of Tailors, Curran, on leaving, rose and said, "Gentlemen, I wish you both good evening."

This anecdote reminds one of the tale told of a former skipper of a good-sized ship on which several hands had been employed. The skipper had become so impregnated with the phases of command used in directing such a craft, that, when at length he took to working a small boat with the assistance of one other individual, and it became necessary to summon the latter, he would cry out, "All hands about!" then, suddenly recollecting himself, he would add, "both of us."

The Parrot's Fanciful View.
The family of a professional man, living on the East Side, is the owner of a parrot of such precocity, wit and enterprising, that there often is some doubt as to whether the family owns the parrot or the parrot owns the family. On Christmas Day all the members of the household where this bird holds forth, with some relatives and guests, partook of a late breakfast and afterwards went into the parlors, where gifts were distributed, with the usual merriment and chat. This started the parrot, and all day long it made more noise than a sewing society. This was amusing at first, but became monotonous as the hours passed, and at last, after vain efforts to quiet the bird by expostulation, its master, took it from the cage and cuffed its head severely. This had often proved sufficient as a means of discipline, but the master of the house fled in terror when the parrot, cocking his head on one side, exclaimed in falsetto: "Thank you so much; that is exactly what I needed. The bird evidently had stored up the expressions of the morning.—Rochester Democrat and Chronicle.

Wisdom of the Wolf.
The extraordinary sagacity of wolves has been powerfully instanced in a recent event on the upper Waldron Ridge. A cold died and Mr. Warnock took ten strychnine tablets and inserted them carefully in various parts of the body. He did not go near that vicinity for a couple of days, and when he did he went expecting to see some results from the bait. There was, however, no sign of a wolf, living or dead, in sight; he hunted around within a radius of a mile or two, but found nothing, and finally he went over and examined what remained of the dead colt. There was not much; the skin appeared to have been neatly and completely flayed from the body; nearly every particle of flesh was gone, as were also the ribs and bones and gristle smaller. The fore and hind legs had been wrung off from the knee joint down and carried off some distance, where everything mashable on them had been properly mashed. The skin was almost intact, and spreading it out, hair side down, Mr. Warnock casually examined it, when he noticed with some surprise a small bunch of flesh that had been left untouched and which was adhering to the hide and inclosed in which was the strychnine tablet. A closer examination revealed that every single one of the ten strychnine pellets that had been inserted had been left singularly. Every shred of flesh had been eaten all around them and not a single one touched. No wonder it is a difficult matter to catch wolves when they are endowed with a cunning like this. The solution is that on the kind of the ranchers have to deal with.—McLeod Gazette.

W. T. BONNER,
GENERAL AGENT

He went in. Alice was sitting up for him. She was sitting in a luxuriously

over a book. She wore a loose gown of some soft white material. Her cheeks and

over a book. She was a loose gown of blue and white. Her cheeks and lips were white too. She had a very ghostlike look, seen in the dim light of the shaded lamp.

She glided away quickly as her husband entered. Her face looked drawn and hard. The blue had gone out of her eyes, leaving them pale and dull.

"What is it, John?"

"Yes, I have spent a very painful evening."

"Really? How?"

"I went to Harry's room. I found that entanglement I told you of had come to a crisis, and—"

"Well?" as he paused.

"I was told a very long story short. I prevailed on him to let me up this draughtsman and go to Africa instead."

"She will thank you, I am sure," said Alice, in a low, hard voice.

"I think she will—maybe."

Brown leaned against the mantelpiece opposite his wife. It had been a hard evening for him. He looked endlessly old and weary. His face was very sad, his white lips dry and tremulous. He had been tirelessly in her comfortable chair, then, leaned forward and looked hard at him as he reached for the book.

He had a curious expression, half-reckless, half-earnest, and he had, in fact, clutched the arms of the chair with a grasp that hurt her delicate fingers.

"Well, John, have you nothing more to tell me? I would be asked in a voice whose studied brightness carried a terrible suspense. "Nothing really interesting? Did you actually let Harry Hastings go or without telling you who she is?" Come now, John, be frank."

John Brown made no answer, but he looked at his wife, and the read in his eyes that he knew—London Society.

There's Something in This

"Men will believe anything you tell them about themselves," said the woman to her husband.

Bohemian breakfast, served on the flap
a davenport by the aid of a gas pump stop
and some paper bags. "Guthrie,"
said I suggested, "Nice or not, it's
something." I suggested the better make of man
move apart to believe the other thing. "I
thought I'd try how this worked one
times, and began on a man who knew
nothing whatever about art. I asked
him of a woman hastening to say
him that I should think a good deal of
because people knew he was an author
and that I had heard him quoted on
several occasions. That all true, but
twist in it. He gave his opinion, and
a week after I heard him say, "You
I'm a bit of an authority on color."
which I say generally goes." But for
this I don't quite believe in what
clever woman said about the other
thing." Men would be much more
likely to resent any information about
failings, and to think little of their
forerunners. And so they should—I

NEWS OF THE DAY.

The New York Senate passed a bill for extending the time for the completion of the New York Canadian Pacific Railway.

The freshet in the St. Lawrence, at Deseronto, swept away Dams' dam and Hammond Bros' saw mill, carrying away a quantity of timber.

Mrs. H. A. obtained a verdict at Hamilton for \$5,000 damages against Bracey Bros. & Co. for the loss of her husband, who was killed while thawing out dynamite.

The decision of the Supreme Court of the United States declared those portions of the income tax law unconstitutional which imposed a tax on rentals and on State and municipal bonds.

Rev. George Munroe, president of the Hamilton Ministerial Association, preached a sermon last Sunday in favour of Sunday street cars, and said he believed they would come to stay. He said he considered the protest of the Lord's Day Alliance was on the wrong track.

The Chitral expedition succeeded in carrying the loads of the Swat River on Saturday. The second brigade forced the pass, doing excellent work with their heavy and Maxim guns. The Bengal Lancers, after forcing the enemy, who broke into a run. They were pursued for miles by the Lancers, who killed hundreds of them.

Mr. Justice Killam gave judgment at Winnipeg on Monday in the matter of a by-law passed by the Municipality of Louise prohibiting the sale of intoxicating liquors. The Judge held that the by-law was illegal, and an order was made that it be quashed without costs. This is in accordance with a recent decision of the Supreme Court, and some ten municipalities in Manitoba are affected.

Rev. J. Lanning accused President Cleveland of immoderate drinking in an address at the New England Conference at Salem, Mass., on Monday. Cleveland took the matter up and pitched into the clergyman as a scandal-monger, and several of the President's political opponents repudiated the reverend gentleman's statement. Mr. Lanning has withdrawn his offensive charges with apologies and regrets.

RHEUMATISM CURED IN A DAY.—South American Rheumatism Cure, for Rheumatism and Neuralgia, radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease at once disappears. The first dose greatly benefits. 75 cents. Sold by W. G. Edgar and W. J. Malley druggists.

CASH PAID.
 For Eggs, Bacon, Shins, Cow Hides, Horse Hides and Tallow at Miles, S. Plunk's, Napanee.

By consulting our optician you escape any injury to your sight and ascertain the proper cause to pursue regarding the use of Spectacles. Testing by Augustus McFee & Co., 272 Front Street, Belleville.

CHURCH OF THE REDEEMER.

Rev. P. A. Macleod conducted both services last Sunday with great acceptance. Rev. James R. Craigie will occupy the pulpit both morning and evening next Sunday.

The Women's Missionary Society held their monthly meeting on Wednesday afternoon.

There will be a special service of praise at the Sunday school next Sunday afternoon.

The Senior division of the Mission Band meets this evening in the lecture room at 7:15; junior division in the same place tomorrow at 3 p. m.

A FEW HINTS TO GIRLS ON THE TREATMENT OF THE HAIR.

A girl's hair is one of her points of beauty, and it should never be neglected. Regular steady brushing of the hair with a clean brush, dry strokes before going to bed at night, will keep the hair thick, smooth, soft and lovely. Once a month at least the tips of the hair should be clipped off, just as the merest tips, and at the same time, a month the head should be very carefully washed, with tepid water and soap, thoroughly rubbed, and well dried. If mamma has time to take this sort of care of her daughter's hair, she will be repaid by seeing rich flowing tresses, or sisters may easily do it for one another. Do not cut your hair in bangs. It is very much prettier simply parted and combed back plait, then braided in one or two long tails and tied with a ribbon. Avoid the use of oils and pigments; the hair needs only cleanliness, and much brushing. Keep your hair-brush clean by frequently dipping it into a bath of hot water and ammonia and drying it in the sun. Everything used in treating the hair must be scrupulously neat.

It is nice for a girl to have dainty toilet articles if she can. Silver, China and Ivory are beautiful on one's dressing-table, but if she has none, she can still keep every detail of her toilet in perfect order if she will only take pains, and order is itself beauty. Have a linen cover for your bureau or table prettily embroidered, and always add as a finishing touch a little vase of flowers.—*Harper's Young People.*

FREZZING OUT THE BRITISH FAIRMER.

The Department of Trade and Commerce has received from Mr. E. Sinton, commercial agent of the Dominion at Christians, a very interesting account of the new enterprise of shipping frozen milk to England, which is just called forth a wall of distress from the *Mark Lane Express* that the British farmer's last resource, the milk trade, is being taken from him. Mr. Sinton says that about a year ago a gentleman, having a farm about three miles from Gathway, tried the experiment of sending a small quantity of frozen milk to England, and it proved so successful that he extended the process, formed a company with a large capital, transformed a creamery into a freezer and factory for preparing the milk, and has now made arrangements for shipping a million of year round from farmers in his neighborhood in such quantities as will ensure the company delivering fifty tons of milk weekly to Manchester, Birmingham, Newcastle, Leeds, Hull and London. It is also proposed to send frozen milk to Ireland. The process, as described by Mr. Sinton, consists of scalding the fresh milk, then freezing it in special process. About five hundred pounds of the frozen milk are placed in a barrel made of white pine and five hundred pounds more of frozen milk added. The barrel is filled very full so that there are no churning in transit, and the milk, it is said, will keep sweet and good for a month.

A DREADFUL DISEASE CURED.

Messrs. Douglas Bro. & Co.,
 Goddards—Late in the morning, Messrs. Douglas Bro. & Co. were offered a testimonial on the cure of Barber's Itch. For over three weeks my face was nothing but a mass of sores, and it was still getting worse. It got so bad that I was ashamed to go out on the street. I went to a prominent doctor of this town, and he told me it would be a few months before I could get rid of it. On a Sunday I decided to try the medicine, and about half an ounce of your Douglas Egyptian Liniment and requested me to try it. I used it three times a day, and inside of three days my face was as smooth as ever it was. I might as well state that I only bathed my face with it, and that I consider your Liniment most too highly for the value it has been to me. This I declare to be true and correct.

I remain yours,
 G. A. MURDOCH, Painter,
 Tamworth, 16th May, 1893.

THE BAND OF MERCY.

The moral and value of the Band of Mercy lies in the influence of the simple promise made by the children, and given in the words "I will try to be kind to all living creatures." The only things under the power of children are living creatures. Younger brothers and sisters and playmates, a dog, a cat, a mouse, a bird, a hopper, these are the subjects of their childish power, and if they learn in their early days to use this power mercifully and gently, they have gained the greatest of life's lessons—self-government. The boy that holds in his hand unharmed, or out of the clutches of the athlete, or a child, has made that conquest of himself which lays the foundation of all virtues and absolutely forms the backbone of character. Will a man who has learned to control himself, conquer in boyhood, and gained this power of self-control, be easily tempted to crime in manhood? It gives strength to the childish heart and makes the passionate and brutal instincts inherent in humanity, and as small gymnastic feats, fully practised, will develop, at last, the muscles of the athlete, so a child surrounded by the influences of humane education, accustomed daily to repress these lower instincts, and to use active benevolence toward living creatures, gains moral muscle, day by day.

METHODIST CHURCH.

Rev. E. N. Baker, of Belleville, conducted the services last Sunday, preaching able and eloquent sermons and advocating the claims of the missionary funds for support. The contributions to the cause were satisfactory.

Rev. R. Taylor filled the pulpit of Bridge Street Methodist Church, last Sunday, preaching with great acceptance to large congregations.

The pastor will conduct the services next Sunday, singing the "Crucifixion" for his subject in the morning, and the "Resurrection" in the evening. There will be suitable music on the occasion. All invited.

The Epworth League will for a time take charge of the Sunday evening prayer meeting.

The Sunday school attendance is very good. Superintendent Richardson says, probably be at his post again on Sunday.

ST. MARK'S CHURCH NOTES.

The accustomed 'Holy Week' services are being held each evening in the Church up to and inclusive of Good Friday. On the latter evening the anniversary of our Saviour's Death upon the Cross, divine service is also held at 10.30 a. m. and 3 p. m.

The offerings on Good Friday will be devoted to Bishop Blyth's mission work among the Jews in Jerusalem and the East.

An invitation was extended last Sunday to all who could assist in providing the usual floral offerings for Easter Sunday by the loan of plants, etc., to bring or send them to the church on Sunday afternoon or evening. Kindly placing owners name on pots.

In order that all Communicants may have opportunity of receiving the 'Holy Feast' at Easter as the Church provides, there will be a celebration at 8 a. m. as well as at mid-day.

Bright and happy services are hoped for next Sunday. The officers of the Church also hope there will be a general and liberal response to the invitation to make special offerings for the 'Feast of the Resurrection' to the general fund of the church.

The holding of the annual Easter vestry meeting, which will be held on Sunday next, will be announced on Sunday next. The choir will be assisted on Easter Sunday by a junior choir of young boys who have been training by the choir-master for several weeks past. Their assistance will no doubt be much appreciated and the general musical excellence of the Easter services of past years maintained.

In the Sunday School a handsome Easter number of a Sunday School paper will be given to each member present.

READERS—

At Miles & Plumley's, Napanee, is the place to buy the best make of Farm Implements for spring use. He has the right to sell "The Farmers Level" which every farmer should use when making drains. It is recommended by the leading Civil Engineers and Land Surveyors of the Dominion. Be sure you call and see it when in Napanee. The genuine "Flax Cutter" is sold only by him in Napanee. Call at his sale room opposite the Brisco House and he will be pleased to show you the goods and handle them for you. Eggs, Skins, Hides, Tallow, etc. Remember the place.—Miles and Plumley's, Napanee.

High Grade Bicycles a specialty.

H. FOWELL, Belleville.

P. S.—See our new Four Spring Road Cart, positively Horse Motion. Three second hand Buggies for sale.

A MARVELOUS BLOSSOM.

Something About the Strange Flower of the Holy Ghost.

Many of you may, perhaps, in the greenhouse or in a collection of orchids, but it is a rare sight even there, and is seldom seen in its native land, except in its native land. It was first seen in the Isthmus of Panama.

It is not a common plant, being found in certain sections only, and in isolated clumps. It does not like high, dry soils, but low, marshy spots springing up from decayed logs or from crevices in the rocks.

To describe this beautiful flower, after a fashion, is easy enough, but to fully realize its peculiar loveliness and the marvelous accuracy of its shape one must see it. The larger and older bulbs frequently stand up like stalks six or eight feet in height, and from these, which are joined, broad lanceolate leaves are thrown out in pairs.

The plant is an annual, and in June, July and August the flower stalks start up from the base of the bulb, devoting their energies to the formation of the buds. The buds are arranged on the stalks much like those of the hyacinth, the usual number for a well grown stalk, the leaves being from twelve to fifteen. The leaves are very pale green in color, as though in harmony with the delicate purity of the blossom.

The blossom is of alabaster whiteness, much like the old-style English pulpit. This, of itself, is strikingly curious, but it fades into insignificance when one gets into the centre of that strange blossom, for there, nestling in its very heart, is the perfect image of a dove. It requires no imagination to see it. No one could take it for anything else, for no human skill could fashion its shape more perfectly than nature has done it with its delicate tints, and no perfume could endow it with a more delicate fragrance.

Right in the cup of the blossom, with the snow-white canopy about its base, this wondrous image, its delicately molded wings drooping, half extended at its side, its gilded head bent slightly forward, and its tiny, crimson-tipped bill almost touching its snowy breast.

And just as the figure of the dove itself is there, beyond dispute, so does an exclamation pervade the image, an exclamation that even the most careless cannot fail to notice, the very incarnation of humility and spiritual purity.

It is in the least to be wondered at that the early Spanish Catholics, brought up in ignorant superstition and ever on the watch for miraculous manifestations, should have paused, awestruck, before this strange dweller of the forests and bowed down before it, reverently calling it the "Flower of the Holy Spirit," or "Flower of the Holy Ghost." No wonder, either, that the still more superstitious Indians should have knelt before it, deeming the ground whereon it grew and the air it perfumed as holy things.

So deeply was this feeling implanted in the hearts of the Indians, and so carefully was it handed down from generation to generation, that it has only been within a comparatively few years that collectors have been able to trace the precious bulbs to their native haunts—Philadelphia Times.

Marriage Under Difficulties.
 A romantic story of the vicissitudes of a wedding party comes from Cumberland. The marriage of Miss Mabel Selus, youngest daughter of Major Selus of Enniskillen Hall, Frizington, with Mr. John Howe, mining engineer of Havercort, should have been solemnized at two o'clock on Wednesday afternoon, and the bride party of fourteen persons proceeded to Alreton Church to assist at the ceremony. The Rev. Arthur of Harrington, got so far as the house of the curate, the Rev. H. Sugden, where he became snow-blocked. The bridegroom started from his residence in a severe snowstorm, but, failing to make progress, he was obliged to try driving, but was completely weather-blocked. Some of the snowdrifts were sixteen feet deep, and the horses and roads were lost to view. The party of fourteen had meanwhile gained the church unknown to the bridegroom, who gave up the quest and returned to his home. The bride party and bride were now snowed up in church, where they had to pass the night, provisions and wraps having with difficulty been conveyed to them by Messrs. Perry and George Enslin. The happy couple were married at one o'clock yesterday afternoon by the Rev. Sugden, but the room of the church had to be cleared by 300 laborers.—*Yorkshire Evening Post.*

A Well-Heeled Tramp.
 Probably there wasn't another person in Maine so well prepared for emergency as a tramp who has just visited Saco and Biddeford. He had no overcoat, but as he wore two coats, two vests, two pairs of trousers and plenty of underwear, he didn't miss one much. When he wandered into the police station he bore a big bundle consisting of a heavy comforter rolled in a piece of cloth. In his pockets were found several dozens of loose matches, a big roll of newspapers, two dozen railroad time tables, a box of valves, a bottle of insect powder, two hammones, a lot of cards, a handful of toothpicks, a shoestring, a wire nail, a collar button, a lead pencil, a comb, a teacher's pencil, a box of indelible lead, an illustrated catalogue of rubber shoes, a purse with six cents and an old copper, a broken glass, a piece of a new pocket-book, a piece of silk hat lining, two pieces of castle soap, three sea shells, a broken glass shell, a plug of tobacco, some thing tackle, a spool of thread, a piece of wood, a paper of needles, a roll of birch bark, a suspension buckle, a page of elegant pictures, a notebook containing several sketches of Bar Harbor and vicinity, a chestnut, a whetstone, a dozen pieces of rock, a new hairbrush, a pocket comb and a big pepper spoon.—*Boston Herald.*

Drunkennes in England.
 In England, during one year for which returns have been made, there were 148,725 convictions for drunkennes, of which 111,178 were for offences committed between noon and midnight on Sundays.

This does show that there was excessive indulgence on Sabbath days more than on others. In Wales the proportion of Sunday offences was still smaller, numbering only 773 out of a total of 10,347. Compared with this return for the whole of Wales, there is significance in the fact that in the Breck county of Monmouth, to which the Sunday closing act does not apply, there were 110 convictions for drunkennes on Sunday, against 28 on other days.—*London Daily News.*

DE GOODS IMPORTERS

106 & 108 PRINCESS STREET, KINGSTON.

We deliver all orders free of postage charges. Send money by P. O. Order or Registered Mail.

Address a Postal Card to

C. B. SCANTLEBURY,
 Belleville,
 The WALL PAPER KING of Canada.

Then write upon the other side:

Dear Sir,— 189
 Please send me samples of Wall Paper suitable for (mention rooms) and not to exceed (mention price) per single roll. I saw your advertisement in (mention paper).
 Yours truly,

YOU will receive by return mail samples of Wall Paper suitable for any kind of a home, and which we positively guarantee better, and lower in price than any other house in Canada. The samples will be large and in sets comprising Wall Paper and Border, and will enable you to make a selection for an entire house as you sit by your own fire-side and with your friends to assist in the selection.
 You have absolutely no responsibility in the matter—you simply write the postal as above and we do all the rest—send you samples enough under black, a guide "How to Paper or Economy in House Decoration," showing how to estimate the quantities required for the different rooms, and directions for ordering, etc., in fact we entirely relieve you of all trouble and anxiety of Wall Paper shopping. We positively guarantee Satisfaction. Can we say more?
 Our Mail Order Department reaches throughout the Dominion. We pay the express charges on all orders of a reasonable size. Full instructions with samples.

C. B. SCANTLEBURY
 BELLEVILLE, ONT.

A DREADFUL DISEASE CURED.

Messrs. Douglas & Co.:
 Gentlemen,—I have much pleasure in offering you testimonial on the cure of Barbers' Itch. For over three weeks my face was nothing but a mass of sores, and it was still getting worse. It got so bad that I was ashamed to go out on the street. I went to a prominent doctor of this town and he told me it would be a few months before I could get rid of it. On a Sunday a neighbor came in to see me with about half an ounce of your Douglas' Egyptian Liniment and requested me to try it. I thought I would give it a trial: I put it on my face and it was as smooth as ever it was. My face was as smooth as ever it was. I might also say that I only bathed my face since and that I consider I have a permanent cure. I cannot recommend your Liniment too highly for the value it has been to me. This I declare to be true and correct.
 I remain yours,
 C. A. MITCHELL, Painter.
 Tamworth, 16th May, 1893.

MAKE UP OF BURTON'S NEW SENSATION.

Burton's New Sensation comprises the following people:—The Ahrens, Minnie and William, the three Vondale Brothers, Lotine Prosser, Elett and Cummings, Prof. Hans Seider, Stewart Sisters, Aron, the Magnetic wonder, Prof. White Cloud and his celebrated Roster Band, Lulu May, Mrs. Kerr, George Copeland, George Thornton, Joseph Taylor, J. C. Kyle, Chas. McCarthy, Wm. Woodcock, Wm. Cronk, Thos. Dalavanti, David Richardson, Wm. Huff, James Fidler, George Blakely, Wm. Joyce, Barney Moore, George Burck, J. R. John Robinson, Andy Butch, and others. There will be forty people connected with the show. They open on May 17th, at North Fredericksburg Saturday night May 18th, and then take the road, playing at Deseronto to Monday May 20th, Napanee 21st, Oshawa 22nd, Kingston 23rd, Gananoque 24th, then west as far as Windsor and return. Everything is in good shape, and when put together it will be one of the best wagon shows ever seen in the city.

WALKER BROS. UNCLE TOM'S CABIN COMPANY.

The following is the roster of Walker Bros. Uncle Tom's Cabin Company which opened at Deseronto on May 17th, and at Deseronto a few days after—J. H. Walker, John C. Walker, Mrs. J. C. Walker, Chas. Brockway, A. C. Greig, R. K. Huff, J. Huff, W. J. Chas. Swift, Wm. Simmons, Geo. Abbott, Ross Brockway, Miss Florence Brockway, Little Seidler, Chas. Greig, Wm. G. Greig, Wm. German, Sandy Province, Geo. Seale, with J. C. Chaplin and Johnnie Seale in advance.

ROMEO AND JULIET.

Shakespeare's play Romeo and Juliet, was rendered by Miss Coombs and a powerful company, in the Opera House on Wednesday evening. The people of Deseronto evidently liked something very good, as the judges from the way the house was filled. Miss Coombs' rendition of Juliet is incomparable and her conception of the part of Romeo, played by Mr. C. Greig, was well rendered, and Ramsdell was excellent as Mercutio. The other parts were well sustained. The large audience seemed highly pleased with the performance. Deseronto should feel flattered, to have secured this great actress for the only date over, between Kingston and Toronto. The orchestra, conducted by Prof. Denmark, discoursed sweet music between the acts.

CHURCH OF THE REDEEMER.

Rev. J. A. McKen will conduct the services next Sunday morning and evening. Large congregations were present last Sunday at the services which were of an interesting character. Rev. J. R. Craig preached thoughtful sermons, his theme in the morning being the "Resurrection." The musical part of the service was also much appreciated, the choir giving a number of special selections appropriate to the day in a manner most creditable and eliciting very favorable comment. Prof. Denmark's choir, with the exception of the choir, had been arranged with exquisite taste, splendid lights and fragrant roses being prominently displayed.
 Miss Barbara Butler led the Y. P. S. C. Endeavor prayer meeting in the evening. There was a large attendance at the Sunday School last night after the service. There was a special service of music which was led by an orchestra of ten pieces. In one of the selections Mrs. Grand Foltra gave a vocal solo with a voice singularly sweet and distinct.

ONLY \$11.00.

For a Cuckoo, Cup Bells, or Percival walking pup. For a short time only. Now is your time to buy and the place is Miles S. Plimley's, Napanee.

CATARHIS KEPT IN 10 TO 60 MINUTES
 One short puff of the breath through the Blower, supplied with each bottle of Dr. Agnew's Catarrhal Powder, diffuses this Powder over the surface of the nasal passages. Painless and delightful to use, it relieves instantly, and permanently cures Catarrh, Hay Fever, Colds, Headache, Sore Throat, Tonsillitis and Deafness. 60 cents. At W. G. Eggar's.

CARMANVILLE.

Ethel Brown spent a few days with Mrs. J. Reid last week.
 Eliza Carroll has returned from visiting friends in Tamworth.
 Jennie Ryan spent the Easter holidays with Mr. Evans in Moscow.
 Mrs. P. Furlong presented Mr. Furlong with a young daughter last Saturday.
 W. Dillon spent Sunday in Moscow.
 May Evans spent Friday of last week with Mrs. J. Scanlin, Enterprise.
 Eunice says a number of weddings in the near future.

READ.

Cold and wet weather have prevailed in this section for the last week and the farmers have not commenced operations yet; they do not expect to get much done before the first of May.
 Mrs. John Hunt has been in poor health for some time past and we are sorry to say she is not any better.
 Gilbert Dunn has been visiting at P. Brennan's last week.
 Martin Donovan, of Albert, has been calling on friends in this section lately.
 Patrick McKenny has left his farm and removed to Deseronto.
 William Powers has rented D. Fitzgerald's farm and is ready to commence operations as soon as the weather permits.
 Peter Johnson paid a flying visit to Read and vicinity lately.

HILLIER.

Farmers have commenced sowing but the weather has been very backward and the land rather dry for successful work.
 Maple syrup and sugar are a great crop this season.
 Stephen Jones has started out to do grafting at which he is an expert.
 German measles are still very prevalent in this district.
 Annie Tins, aged eighteen, youngest daughter of Samuel Tins, who had been ill for some time died on Thursday. The remains were interred in Pleasant Bay cemetery. The deceased was a general favorite.
 Mr. and Mrs. Allen are recovering from a severe illness.
 The Chosen Friends are prospering and the new officers were installed at a recent meeting.
 Nothing talked of here but the Manitoba school question. Leave Manitoba alone, is the general opinion.

MARYSVILLE.

Charles Scantlan has been seriously ill during the past week.
 Mr. Flynn was the guest of Miss Rose McKen on Sunday last.
 John Lafferty, of Stirling, has been visiting his uncle, Mr. Tim Drummy, for the past few weeks.
 High Mass was celebrated by Rev. Father Quinn on Easter Sunday at the choir assisting under the supervision of Miss Dryden.
 The funeral of the late Mrs. Mulvaney took place on Tuesday from Napanee vault to Marysville cemetery.
 Clara Darcy spent her Easter holidays with her parents.
 Wm. Martin and family have gone to Deseronto to reside.
 Say boys! next time you go for "time" take your friends with you or be careful about bringing home more than the owner's name inscribed. They are sure to give you away.

WESTBROOK.

The many friends here of F. C. Chisholm, Cataragi, will be sorry should his removal take place in June.
 A. Bridge will be the champion pianist this year, he having stored one hundred and eighty colonies last fall all of which have all come out in good condition with the exception of one hive.
 There are several cases of measles among the young folks.
 S. Quastal wife, of Kepler, were among recent visitors here, also Mr. Offitrey, of Mountain Grove, L. Wartman, Edenville, and Dr. Morgan of the city.
 A number from here attended the sugar social at Collins Bay, Friday evening and were well pleased with their evening's sport. They are in the home of Sid Alport over a bouncing boy.
 Mr. J. Gibson will begin to make cheese on the 22nd in the Cataragi factory.

TYENDINAGA RESERVE.

The churches on Easter Day were filled, services bright and hearty, offerings for mission fund very liberal, number of communicants 54.
 We think we have discovered the meanest man on record. The fee charged for whities who bury in Christ church cemetery is \$3. The individual we refer to now refuses to pay that amount after burying a relative.
 Two of the trustees of the Luck school house have left the school to attend the Easter service meeting. It was consequently at the request of twenty-six vestry men held in the parsonage, the incumbent was most harmonious. The meeting was most harmonious, funds in a prosperous condition. The church wardens for Christ church are Joseph J. Maracle and W. A. S. Maracle; for All Saints church Isaac Claus and Peter J. Hill. The lay delegate elected for three years is Chief Francis Claus.
 Good Friday services were well attended. While the Rev. Mr. Anderson and his daughters were on their way from All Saints church on Easter Sunday evening, an important bolt of the buggy gave way throwing its occupants violently to the ground. The missionary's left shoulder was dislocated while Miss Anderson received several severe bruises. Fortunately a friend, Wylie Mark, was soon on the spot and secured the services of Johnson Lewis who drove the injured to the parsonage. Dr. Yeomans was immediately sent for who set the parson's shoulder and presented for Miss Anderson's injuries. Both are doing well but it will be some time before Mr. Anderson, who is weak from his late illness, recovers from the shock.

MOUNT CARMEL.

Mr. Editor I thought you would like to hear some news from this pleasant place.
 Mr. and Mrs. W. Foster and Mr. and Mrs. D. Chapman were visiting at George Rowe's last Sunday.
 Our sugar and party season is over. Every body tried to beat their neighbors excepting E. Rad and the C. O. F. lodges, we hope he will soon recover.
 Frank Osborne has been quite ill lately; we hope he will soon recover.
 Lent Hend and Blanche and Annie Rowe are sick with the German measles; it is too bad girl.
 Earl Ruttan spent last Sunday at "The Mill".
 R. C. Roblin is making several improvements on his house.
 Edmund B. Cronk, Solmesville, spent Sunday at Lewis Head's.

BATH.

On Saturday last the International Entertainers gave a treat to the good folks of Bath, and the entertainment being for a charitable purpose the company generously donated ten per cent. of their share of the proceeds to the fund. This more than made up for the deficit caused by a very strong opposition and certain articles which recently appeared in the papers concerning the concert being held during Holy Week. The audience was select and judging from the applause given they were not disappointed. Space will not permit mention of all the selections but suffice to say they were all suitable and meritorious while the manner in which they were rendered was a revelation. Play that more of such talent were heard more frequently for it shows that our people can appreciate something higher and better than the negro melodies and border tales so often presented here. Many of the audience were surprised to find that no dance would be held at the closing of the programme as is the usual custom here. Much credit is due to the A. O. U. W., J. O. F. and the C. O. F. lodges, under whose auspices the concert was held, for the manner in which they worked against a very decided opposition and that from a quarter from which it should be least expected.

BLESSINGTON.

Our correspondence must not grow slack while there is news to send, we hope the warm weather will send a gripe to another climate.
 Rev. Mr. Garbutt gave us a very interesting sermon on Easter morning. A large congregation was present.
 Misses Jessie and Ida Sherman, of Tweed, and Miss Coulter, of Stoco, spent Easter at George Shuman's.
 Mr. and Mrs. J. D. Haight and Ruby spent one day of last week at Shanaville.
 Frank Denike and family have been visiting friends in this vicinity.
 Percy Mott spent last Saturday with friends here.
 Quite a party were gathered at Messrs. Ross and Robinson's sugar social on Friday last and spent the time very profitably.
 The Misses Gourell also Fred Tweedy, of this place, spent Saturday evening at John Robinson's.
 Mrs. A. Bartlett and children are visiting at George Sill's at present.
 Mrs. P. J. MacFarlane, Mrs. Wick and children, of Belleville, spent Tuesday with friends in this village.
 A party of young people from here spent Saturday evening in a very pleasant way at Mrs. Fairman's, of Melrose.
 Mr. and Mrs. Jas. Sills, of Shanaville, visited friends here last week.
 Miss B. MacFarlane spent Easter at Stirling.
 Miss G. MacFarlane spent Easter at her home at Melrose.

SYDENHAM.

April 19th.—The students of the high school held their annual concert on the 5th. The students of Prof. Francis Joseph Brown were procured. Mr. Brown recited in a most pleasing manner. The proceeds amounted to \$60.
 Mr. Scott has moved to the farm lately run by Mr. Collins. Mr. Scott is working the farm for Mr. Joseph Woodruff.
 The body of Mrs. John Page, of Kingston, was interred on Friday the 5th.
 A party left for Manitoba on the 4th. He is there to join his father.
 The high school students have organized a foot-ball team. We wish them success.
 Al. Martin, the second son of Mrs. G. Martin, is very ill, but is a little better today.
 In the spring a young man's fancy lightly turns to thoughts of love. So thought Mr. W. Hobbs, the accommodating stage proprietor. He went into it rather deeply for on Wednesday the 31st, he went into Kingston and brought one of his fairest daughters a bride. Her name is Miss Hunt. We wish them joy and prosperity and a long life together.
 The C. O. C. F. of here intend giving a concert on the 29th inst.

DISTRICT ITEMS.

Miss Sophie, Gananoque, died on Monday morning.
 An agricultural weekly will be published in Arripit.
 A shaft will be sunk 1200 feet at Verona to test for oil.
 The W. English, Belleville, died in Kingston on the 16th.
 Mrs. David Miller, Belleville, died on Tuesday, aged 72.
 The new church at Vennacher is rapidly approaching completion.
 James Volume, Kingston, died at Kingston, on the 15th, aged 53.
 S. Madden, a retired woollen manufacturer, died at Verona the other day.
 J. Lore, formerly of Elizaville, died in Belleville, on Sunday, April 18.
 Four hundred men are at work preparing the Cornwall canal for opening.
 There is good fishing in the Bath district, perch and pickerel being plentiful.
 C. C. Rickelville, formerly manager of the steam laundry, Gananoque, is dead.
 A vacant hotel in Barriett's Rapids owned by Wm. Kidd was destroyed by fire.
 Mr. and Mrs. J. H. Murdock, of Sidney, celebrated their silver wedding on the 12th inst.
 There is trouble between the Canadian Electric Light Company, Peterboro, and its employees.
 Mrs. Wilson, Napanee, has disposed of her residence to Samuel Hamby who will reside in town.
 There is still no trace of Fair, the C. P. B. engine, charged with attempting arson at Winnipeg.
 The remains of Mrs. Stoughton, formerly of Napanee, arrived for interment in that town the other day.
 The ship, Jessie Drummond, which sailed for Charlottetown was the first vessel to leave the port of Cobourg this season.
 James McCormick, aged 70, formerly of Slab Creek, Hillier, died at Ameliasburg opposite Belleville last Saturday.
 Joseph McGowan, of Glenora, formerly of Hinchinbrooke, will assume the management of the Jefferson county creamery.
 The body of Private Daniel Shea of Hinchinbrooke, who disappeared mysteriously last Thanksgiving Day, was found in the bay.
 H. Grills, Front of Sidney, killed a calf four weeks and five days old which weighed 160 lbs. and when dressed for the market 160 lbs.
 At Plinton, Wm. Hallett and Emma Hallett were united in marriage. At Vennacher, J. Wilson and Miss MacFarlane were made one.
 The Gananoque authorities have wisely decided to prevent all loitering about lay ways and doors in that town. Three youths were fined the other day for this offence.
 The American consul states that people attending to large numbers from Kingston district to the United States, a sign that business is reviving in that country.
 The American bank, Watertown, N. Y., owned by C. P. Brown, was badly damaged by fire last Saturday night. Five shops were destroyed besides losses by occupants of upper floor. Loss, \$60,000.
 On Monday, at Pembroke, John Harvey, messenger of the G. N. W. Telegraph Company, while on an errand to Easty's ash factory, in some way unknown got caught in the belt of the machinery, and was killed almost instantly. The body was horribly mangled and the clothes torn from the body. The little fellow was a general favorite.
 SOMETHING
 That you can buy on very reasonable terms. Good and new, warranted at \$120.00 each. McLaughlin's Carriages, the Champion Drill, Seiders, Cultivators, Harrows, the best makes of Plows, Corn Shellers, Corners, Improved Washing Machines, Wringers, the Dandy Dish, Perfection and Cradle Churns at Miles S. Plimley's, Napanee.

MOHAWKS OF THE BAY OF QUINTE.

The following is Indian Agent Eggar's report to the Superintendent General of Indian affairs as found in the Blue book:—
 Sir,—I beg to submit my annual report in duplicate and tabular statement on the Bay of Quinte Reserve for the year ended 30th June, 1894.
 The Indians under my agency have done very well in their farming operations. The crops are very good this year, being above the average. Provisions and fodder will be in abundance. A great deal has been done in the way of improvements to houses, barns and fences. Chief Solomon Loft has taken a great deal of interest in the improving of the roads and already they show the good results. A great many of our Indians had work among the farmers in the county of Prince Edward and have learned to be good agriculturists. A marked improvement has taken place in the sobriety of the band. A number of our Indians continue to devote their attention to gardening, the securing ten thousand acres of wild land to many find employment in the works of the Rathbun Company. There is a good brass band upon the Reserve, for which Mr. Dr. Drummond has taken a great deal of interest in the instruments for the boys. In the spring of last sixty rods long was dug, redeeming about four hundred acres of land. Chief Sampson Green does mission work as assistant to the missionary at the mission school, where the service is held in our Indian tongue, and is very highly appreciated by the Indian people. Three of the chiefs visited the Rensselaer River for the purpose of securing ten thousand acres of wild land to offer homes for the young men; the matter of purchase is now before the department.
 The school opened on the 1st of September of this year and has been well attended. There are services in both churches each Sunday, over the surface of the Indian people. Painless and delightful to use, it relieves instantly, and permanently cures Catarrh, Hay Fever, Colds, Headache, Sore Throat, Tonsillitis and Deafness. 60 cents. At W. G. Eggar's.

WHEN THE TIDE GOES OUT.

They whispered low: "She will pass away,
At the turn of the sea to-day,
To the place where clay is clay."
When the tide goes out,
The time has come when her soul must slip
From the sea of death in her lips.
As the tide goes out,
Nay, only to drift to other lands,
Feel the touch of the cold, cold hands,
Press her feet to the golden sands,
When the tide goes out.
She may lay her treasure at his feet,
He who made her life so sweet,
Who called away when life was sweet,
When the tide went out.
Life itself must begin at last,
For them when the tide is passed;
And the anchor of death is surely cast,
When the tide goes out.
For the floss of life shall come drifting in,
Beyond the rocks of doubt and sin,
And God's sweet peace shall enter in,
When the tide goes out.

A PREDICAMENT.

It was in October of 1892
I was in the summer of the North Shore
limited, speeding northward along
the shore of the Hudson and, as the
darkness obscured the view of the
river and the Catskills, my attention
was drawn to a couple of gentlemen who sat
nearly opposite me on the other side of
the car. They were evidently old friends
and were engaged in a spirited conversation—so animated, in fact, that it came
clearly to my ears. We were the only
passengers in the car, and I was, of course,
my late preoccupation led to disregard
my presence in the fancied security
of the noise of the train. It was far from
my thoughts to be so near to them, but I
had no reason to suppose there was
anything confidential in their talk until
I had become so interested in what I
heard that I smothered all scruples and
listened to the end.
"I would never have known him," said
one of the two men, "but rather
from me, 'though, perhaps that is not
strange, for I had not seen him for
twenty years. Yet I knew you, old fellow,
the moment you stepped out of the car,
how little you have changed, for all
your gray hairs," and he put his hand
affectionately on the other's knee.
"I have held my own pretty well," said
the other, and his bright and still
youthful face flashed back an answering
smile, "nor can I see much change in
you, George—a little stouter, somewhat
more staid, but that is all. What a streak
of luck this is that I should have met you
this afternoon when you landed and that
we should have this ride to Chicago together."
"But say, Jack—this is the first chance
I have had to ask you about the deuce
the matter with Phil. He has not only
changed in appearance, but has radically
changed in manner. Why, he is as fidgety
as an old woman, and I don't think he was
half glad to see me. In the olden time
he was jolly enough and a right good fellow;
but to-day he hurried off on board his
steamer two hours before we met, and
we hadn't been together a minute. Really,
I felt hurt."
"You are misjudging him, George. He is
a good fellow and a good fellow just as
much as you are ever did. But he is not
himself just now, and there is every reason
why he should not be. There is a story
connected with his case, and it is one
which, in justice to him, I ought to tell
you. I am sure he would wish me to do so."
"I don't know that you are aware that
Phil has been very successful in his profession. He is a judge—'and the speaker's
voice broke so low that I missed a few words. "He has not only changed
he took rooms for himself and wife some
eight or ten blocks south of the world's
fair grounds and, by the way, he has a
charming wife. In the olden time she
was upon her, for she is still there, at the
Palmer house. She is to remain there
until I return."
"Well, Phil and his wife put in a couple
of weeks at the fair. I met them frequently
and we had many pleasant hours
together. They had seats reserved at the
Auditorium. When the time came Phil's
wife was tired and didn't care to go.
This more than inclined Phil to give up
going, but he finally decided that he
would not lose his only chance of seeing
a very fine spectacular play that had
drawn great crowds during the fair. Before
he became to Chicago, he had purchased
an elegant, self-cooking stove, and he
had never owned before and had purchased
at his wife's request, he put it in
his hip pocket."
"He took a street car for the fair
grounds, intending to take a train there
for the city. There was apparently no
standing room in the crowded car, and it
was with the greatest difficulty that he
secured a footing on the rear platform."
"The car had gone but two or three
blocks when it stopped for a moment. The
pressure increased, people trod upon his
feet and dug their elbows into his sides in
their efforts to reach the way for some one
who was coming from the inside of the car."
"The subject of all this commotion
came crawling by him toward the steps.
In passing him the stranger stumbled,
uttered a word of apology and then,
hurrying on, reached the steps and alighted.
As he did so, he caught the gleam of
gold in the man's hand."
"Instantly he clapped his hand to his
breast—his watch and chain were gone.
They had been hanging to his father.
He could not lose them."
"The car had started, but in a twinkling
Phil sprang to the ground. The man
had reached the sidewalk, and as he passed
under the street lamp Phil saw that
he was fumbling about his vest, as if
attaching a watch to his belt. The man
looked at Phil, and then, with a start,
he fled in the direction of the fair grounds,
leaving Phil staring after him with a
pale face and a trembling lip."
"He was up and on his feet in a moment.
The man looked into Phil's face, glanced
down the gleaming barrel of the revolver
which was in his hand, and then, with a
start, he fled in the direction of the fair
grounds, leaving Phil staring after him
with a pale face and a trembling lip."
"Still holding his weapon aimed at the
man's head, Phil thrust his disengaged
hand into the man's pocket, took out the
watch, the chain, the ring, the fastening,
slipped watch and chain into his
pocket, and then sternly said:

"Go down this street and don't turn
around."
"There was a deadly menace in his
tone, and the man, who had been
down the street and vanished in the distance.
Now a feeling akin to terror came
over Phil. The exhilaration of excitement
passing away left him nervous and
fearful.
"Robberies and murders are not
uncommon in the city and in the territory
about the fair grounds. Every shadow
was to him, and every sound was a
stealthy footstep. The thief might have
confederates. He could see afar off the
light of a coming car, but when he
saw the light, he could reach him! All
desire to go to the theatre had left him.
"At first he walked rapidly, then broke
into a run, keeping in the middle of the
street, and heading for his own rooms.
He was in a well-regulated family of
oranges, but a regular member, belonging
to the orange variety. It has a family
name, a Christian name, and a surname,
but its pet name is 'five-fingered orange,'
and nobody but the botanist cares to call
it by the long one which means the same
thing.
A gentleman of San Francisco found
the old plant a year or two ago over in
Japan. He thought he had discovered a
sort of missing link, so he bought it and
brought it home to put in the conservatory
among his choicest plants, where he
guards it as the apple of his eye. Not a
scale bug or other ravaging insect has
a chance to live on its leaves, for he had a
special bath to built for its use, with a
sheet-iron chimney in the centre, in which
he places it periodically, and gives it
a fresh bath of treacle and sulphur and
other fumes such as would make even the
sturdiest scale bug turn up its toes. It is
a hardy shrub, the outdoor life of San
Francisco agreeing with its health ex-
actly, although its owner is so
choicely of it that he doesn't give it a
chance to shoot out its leaves. In its
native country it is usually kept potted,
and the Japanese seem to be fully alive
to its value as an ornamental curiosity.
Mr. Gones found it a difficult matter
to get one to bring to America, and so
far nobody else ever did get one.
The orange tree is a rugged little shrub
that does not average more than five or
six feet in height. It does not grow
straight, as a properly behaved tree is
supposed to do, but is curved everywhere.
It would be very difficult to find two con-
secutive inches in the entire tree whose
line of direction is the same. Even the
branches grow in spiral forms, so that the
width of the tree is often as great as its
height. There is a generous supply of
thorns hidden under the leaves, and they
are thorns that mean business. They are
small, tough, and long, and are located
in all sorts of unexpected places. The
leaves are fleshy, long and narrow and of
a dark green color. They resemble a
smaller leaf more than an orange leaf. In
fact, in both this instance and in the
color of the ripened fruit, this singular
plant seems to claim a very close consan-
guinity with the large lemon family.
The flowers come out in June and July, and
are very similar in appearance and odor
to the ordinary orange blossoms, save
that instead of the familiar creamy white
color they have a delicate, pinkish tint
which is very beautiful. They commonly
grow in clusters of two or three blossoms
on alternate nodes of the branch.
The fruit itself is of a light-yellow color,
or a pure lemon hue, growing greenish
toward the stem, and is of a medium size.
The fruit is considered relatively to other oranges
to be of the size of the large, large ones
measuring when mature fully ten inches
from the wrist to the point of the middle
finger, including the stalk. It is always
necessary to furnish a support in the way
of props and strings to sustain the growing
fruit, for the fruit is so heavy in proportion
to the weight of the branch. The fruit
at about half the distance from the wrist,
and, though the division lines can be
plainly traced through the entire length
of the hand, they do not destroy the
tour. The proportional length of the
fingers from the thumb to the little finger
of the hand is exactly the same as that
of a human hand. The fruit is not edible
—none of the orange variety is—but what
it lacks in being unable to tickle the palate
it more than makes good in perfume.
The strongest thing connected with the
perfume is that it is the fruit and not the
flower that is most odorous. The fruit
when ripe is so potent that its scent can
be recognized a full mile from where the
orange is growing.
HYPNOTISM IN COURT
They Use It in Those Intrigues—Learned
Men Pronounce Opinions.
An interesting case was recently
brought before the criminal court at
Munich. A Polish adventurer named
Lubers-Czyzski had appeared in Dresden
as a professional hypnotist. He had
many rich people who have not only
at to keep them employed, and the man
with the unpronounced name found
great success in his line. Among
these was a lady of good family, beautiful
and rich. The "professor" declared his
love to her, she accepted him, and there
he remained for some time, until he
had an end to the matter. Unfortunately,
however, Czyzski had already a wife, and
he tried to get out of the difficulty by a
sham marriage, asking his new spouse to
keep their union secret. But the high-
born lady's relatives got wind of the affair
and had the adventurer arrested, accusing
him of having hypnotized his victim.
Half a dozen learned men, says the Echo,
Berlin, were summoned from as many
professions to decide whether it was pos-
sible to influence a person to such an
extent that all resistance is impossible. The
jury failed to be convinced that such is
the case. The charge against Czyzski, of
having made the lady subservient to him
without her consent, was dismissed, but
he was convicted of dishonesty, immorality
and of criminal acts against the public
morality and sentenced to three years' imprisonment. The National, Berlin, says:
"It does not believe that hypnotic influence
is irresistible. When we see the exhibitions
of professional hypnotists we are led to
think that they command obedience by a
hypnotized person is told: 'You are a
holy fool, you will be to look and crawl on
all fours. But I believe that all such
people are only somewhat stupid individuals
who follow the other influence than the
will to obey, and that they are led to
do for some reason or other—the hypnotist.
I have often discovered proofs of this.
One day, for instance, was told that in a
certain place there was a wall too high for
him to jump over. He went to this place
and began to jump, but he always jump-
ed backward. None of the great hypo-
tists who interest themselves in hypno-
tism have ever declared that they them-
selves could be influenced. It is impos-
sible with a person feeling his respon-
sibility, and neither judge nor jury could
be influenced."

FIVE-FINGERED FRUIT.

QUEER KIND OF AN ORANGE IMPORTED FROM JAPAN.

It Is Said to Bear a Remarkably Close Resemblance to the Human Hand—Considering the Size of the Tree the Fruit Is Very Large.

The five-fingered orange is a queer thing. It grows exactly in the shape of a human hand, with a thumb and four fingers. It is a half-grown fruit, and this curious fruit, and the close resemblance to a lean, long-nosed Chinese hand, is a fact which is not only a curiosity, but a hard point, and claw-like, tipping the orange fingers with a length equal in some cases to three inches. It is no infrequent in a well-regulated family of oranges, but a regular member, belonging to the orange variety. It has a family name, a Christian name, and a surname, but its pet name is "five-fingered orange," and nobody but the botanist cares to call it by the long one which means the same thing.

A gentleman of San Francisco found the old plant a year or two ago over in Japan. He thought he had discovered a sort of missing link, so he bought it and brought it home to put in the conservatory among his choicest plants, where he guards it as the apple of his eye. Not a scale bug or other ravaging insect has a chance to live on its leaves, for he had a special bath to built for its use, with a sheet-iron chimney in the centre, in which he places it periodically, and gives it a fresh bath of treacle and sulphur and other fumes such as would make even the sturdiest scale bug turn up its toes. It is a hardy shrub, the outdoor life of San Francisco agreeing with its health exactly, although its owner is so choicely of it that he doesn't give it a chance to shoot out its leaves. In its native country it is usually kept potted, and the Japanese seem to be fully alive to its value as an ornamental curiosity.

Mr. Gones found it a difficult matter to get one to bring to America, and so far nobody else ever did get one. The orange tree is a rugged little shrub that does not average more than five or six feet in height. It does not grow straight, as a properly behaved tree is supposed to do, but is curved everywhere. It would be very difficult to find two consecutive inches in the entire tree whose line of direction is the same. Even the branches grow in spiral forms, so that the width of the tree is often as great as its height. There is a generous supply of thorns hidden under the leaves, and they are thorns that mean business. They are small, tough, and long, and are located in all sorts of unexpected places. The leaves are fleshy, long and narrow and of a dark green color. They resemble a smaller leaf more than an orange leaf. In fact, in both this instance and in the color of the ripened fruit, this singular plant seems to claim a very close consanguinity with the large lemon family.

Unfortunately, however, Czyzski had already a wife, and he tried to get out of the difficulty by a sham marriage, asking his new spouse to keep their union secret. But the high-born lady's relatives got wind of the affair and had the adventurer arrested, accusing him of having hypnotized his victim.

Half a dozen learned men, says the Echo, Berlin, were summoned from as many professions to decide whether it was possible to influence a person to such an extent that all resistance is impossible. The jury failed to be convinced that such is the case. The charge against Czyzski, of having made the lady subservient to him without her consent, was dismissed, but he was convicted of dishonesty, immorality and of criminal acts against the public morality and sentenced to three years' imprisonment. The National, Berlin, says: "It does not believe that hypnotic influence is irresistible. When we see the exhibitions of professional hypnotists we are led to think that they command obedience by a hypnotized person is told: 'You are a holy fool, you will be to look and crawl on all fours. But I believe that all such people are only somewhat stupid individuals who follow the other influence than the will to obey, and that they are led to do for some reason or other—the hypnotist. I have often discovered proofs of this. One day, for instance, was told that in a certain place there was a wall too high for him to jump over. He went to this place and began to jump, but he always jumped backward. None of the great hypnotists who interest themselves in hypnosis have ever declared that they themselves could be influenced. It is impossible with a person feeling his responsibility, and neither judge nor jury could be influenced."

HOW FAR AWAY ARE THE STARS?

The Nearest Star Thus Far Discovered is Twenty Trillions of Miles Away. Of the hundred million or more stars which are visible with astronomical instruments, the distance from the earth of only a very few have been measured with even an approximation to accuracy. Most of the stars appear to be so far away that the change in their apparent place caused by viewing them from opposite sides of the earth's orbit and that orbit is about one hundred and eighty-six million miles across—is so slight that it escapes certain detection. Only about fifty stars have thus yielded definite results in the attempt to measure their distances, and the results are too often exceedingly conflicting and uncertain.

The nearest star thus far discovered is one of the first magnitude, not visible from our latitude, and is called Sirius, the star called Alpha, in the constellation of the Centaur, in the southern hemisphere of the heavens. The distance of this star appears to be somewhat more than twenty trillions of miles, or about two hundred and fifteen thousand times as great as the distance of the sun from the earth.

The next nearest star, as far as known, is the sixth-magnitude twinkler, barely visible to the naked eye, in the constellation of Cygnus, popularly called the Northern Cross. The distance of this star, which is known to astronomers as 61 Cygni, is variously estimated at from forty to sixty trillion miles, or two or three times that of the bright star in the Centaur.

The brightness of the stars, as we see them, is, then, no measure of their comparative distance. A very bright star may be much more distant than a very dim one, the difference in brilliance being due to the greater magnitude of the more distant star. Sirius, or the Dog Star, for instance, which scintillates so splendidly in the winter sky, is more distant than the star 61 Cygni, the latter being in fact a very much smaller star than ours, while Sirius is a far larger one.

It thus appears that while the efforts to measure the distances of the stars have not been very successful, yet they have resulted in giving us a wonderful insight into the arrangement of the universe of stars in the midst of which we dwell. They have proved that large stars and small stars are scattered through space at various distances from one another and from us; that the dimensions of the blazing bodies which we call stars, or suns, vary to an enormous extent; and that our own sun, great, glorious, and overpowering as it seems to us, really belongs to a quite inferior rank.

But it is possible that before many years our knowledge of the distances of the stars may be greatly extended. Spectroscopic investigation in the case of binary stars, as these are called which circle in pairs around their common centres of gravity, is beginning to help us a little in this direction. Recently, for instance, Mr. G. W. Colles, Jr., has calculated, from the results of such investigation, the mean distance of ninety-five stars situated in the northern hemisphere of the heavens, and finds it equal to the distance which light would travel in about one hundred and fifty years. That distance is not less than eight hundred and seventy trillion miles, or more than forty-three times as great as the distance of the nearest known star, Alpha Centauri. Yet enormous as such distance is, it is nearly certain that the average distance of all the stars composing the visible universe is still greater. And here and there the starry heavens, even in their richest regions, present black and apparently empty spaces through which we seem to look out from the bounds of the universe into fathomless depths beyond. But there are thoughtful minds which can avoid asking itself the question, "What lies beyond? When we come to the outermost star of the universe, what then?" That is a question which even astronomy, with all its marvellous wealth of discovery and achievement, cannot answer—at least not yet.—Youth's Companion.

Disquieting news has been received from Algeria regarding the health of the Czar-witch.

Mrs. Mackay's daughter, the Princess Colonna, has been granted a separation from her husband by the Roman courts.

Between March 31 and April 2, Prince Bismarck received 8,390 telegrams, 50,000 letters and 120,000 postal cards.

Prince Bismarck, on his birthday, received eight thousand telegrams, fifty thousand letters, and one hundred and fifteen thousand postal cards.

With the close of last month Sebastopol ceased to exist as a port for foreign shipping, and will in future be used only as a naval port and arsenal.

The famous Johannsbach vineyards have been just returned to the Emperor of Germany by Prince Richard of Saxe-Coburg, leaving a son.

Li-Hung-Chang has so far recovered from the bullet wound in his cheek as to be able to resume the peace negotiations with the Japanese representatives.

The main and other Paris newspapers are insinuating that the collision on March 30, between two British troops and a detachment of the Japanese, was due to England's malice.

A Bullet In His Brain.

George Suesenbach is thirty-nine years old and had been in America only a few months. He was educated in Berlin, and on coming to America went to Chicago.

His expectations were not realized and he went to New York, with only a few dollars in his pockets. His money was soon gone, and a fit of despondency he shot himself.

The doctors at the hospital had no hope of his recovery, but the next day when he lay in his admission to the hospital, he began to rally from the shock, and regained consciousness. Unless he takes an unexpected turn for the worse, he will be allowed to sit up in a few days, and will be discharged in a week or two. The wound in his forehead just between the eyes, where the bullet entered, has healed, leaving only a slight depression.

In speaking of Suesenbach's case, House Surgeon Vole said that not more than ten similar cases are on the medical records. Dr. Vole attributes Suesenbach's premature recovery to the fact that the bullet passed between the two lobes of the brain without disturbing the motor nerves. It now lies at the back of the brain, near the skull.

It has in all probability become covered with secreted matter, and is attached to the brain tissue, where it will remain, unless broken up by some agent.

"We shall discharge him from the hospital as soon as he is strong enough to leave," said Dr. Vole, "but, no matter how complete his recovery may seem, he will be in danger of sudden death at any time. If he were to fall or receive a severe blow, there is danger of the bullet's breaking loose and causing almost instant death."

Disraeli's Marvellous Career.

With the dawn of a new era in English politics in 1832 Disraeli's strenuous public life began; and when, half a century later he had his fill of life and honor, men began to appreciate how full the intervening years had been of indomitable spirit, devoted to the gradual conquest of the ear of the House of Commons, of the confidence of the Conservative Party, of the good-will of the sovereign, and of the support of the nation.

These were finally won, and this extraordinary child of the nineteenth century was unhappy refugees hunted from Spain to Venice, whose immediate forbears were poor immigrants to London, and who, in the end, found a home in the seat of the chief of the House of Stanley, dictated his will to the proudest aristocracy on earth, posed as the representative of the English race among the assembled powers of Europe, took Great Britain into the hollow of his hand, clothed a nation with imperial purple, and, behind him, a cause identified with his name, and a party strong enough to defend it, and finally sank into a grave smothered with flowers by the hands of the people, and surrounded by a memorial inspired by the hand of the Queen. The Napoleonic era of marvels furnishes no example more romantic of the triumph of individual capacity over hostile conditions.

Remarkable Surgical Case.

A despatch from New York says:—The death of Thomas Nevin, the well-known dry goods merchant of Brooklyn, at Seney Hospital, late Wednesday night, brought to a termination one of the most remarkable cases in medical history. Last November Nevin, who was a fine-looking, splendidly proportioned man of 34 years, began to complain of severe pains in his thighs, and went to a hospital. The surgeons determined to expose the lower portion of the spine, and remove any foreign matter which might possibly find. A diminutive human body was found at the back of the abdomen. The embryo was removed and preserved in alcohol. The discovery was the cause of intense interest, and the explanation was that the patient was one of twins, and the form found in his body was a perfectly formed, but an arrested development.

The Man in the Case.

She—One can judge the character of a man by his opinion of women.

He—Yes!

She—Yes! Now what kind of a man would you say always held women in the highest esteem?

He—A bachelor, I should think.

PEOPLE'S BANKS IN GERMANY

They are Successful and seem to have Solved a Difficult Problem.

A short paper in the current issue of the North American Review calls attention to an economic fact full of interest, the successful working of "people's banks" in the German Empire. This credit organization is not to be confused in any way with pawnbrokers, whether the latter be carried out in the theory of Shylock or of the philanthropist. Yet the pledging of personal property is not altogether excluded from the sphere of its operations. The modus operandi of these banks is copied largely from the experience of other banks; it is simple, it seems to have been successful, and to have solved a difficult problem.

The system was organized by one Herr Schulze, at Delitzsch, in Saxony, about forty years ago. A few workmen paid up a small capital in weekly instalments, and on the basis of the paid in money obtained loans from the bank on security. The bank thus became an investment and an industrial credit bank. These "volks banks," when their methods became fully known, sprang up widely throughout Germany. There are now about 2,000 of them, with a membership of over 1,500,000, a capital of \$10,000,000 and an annual business of \$50,000,000. A similar principle has been put to use in loan associations for house-building purposes, and has met with notable success in the United States and England. With the German example as a guide, there is no reason why "people's banks" should not be founded here and accomplish an equally beneficial purpose.

Herr Schulze's plan contemplates the loan of small sums at a low interest; also that of helping tradespeople with a little money to carry on their business. So the poor are enabled to tide themselves over a tight pinch, or to extend their business in a humble way. The slavery of men in need to the private pawnbroker is broken when these banks exist, too, as they do not disdain to make small advances on personal pledges, though such is not their chief object. The principle of organization is an elastic one, and can be embodied on a small or a large scale. The scope of the "volks banks" in Germany does not confine itself to loaning money. It has branched into other departments, such as the manufacturing and selling of goods on joint account, the building of dwellings for working people, and the farming and cultivation of land. But these are only developments, and are not essential to the primitive purpose, that of loaning small sums of money at low rates of interest.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osborn, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. Kitchener, Conway, Ar.

"Castoria is so well adapted to children that I recommend it as superior to every prescription known to me."

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to every prescription known to me."

Dr. G. C. Osborn, Lowell, Mass.

FRIDAY, APRIL 19, 1895.
DISTRICT ITEMS.

Jessie Davy has left Bath for Watertown. West Lake is lower than for many years. Oswego street railway is nearly bankrupt. Merrickville has the electric light again. Winchester has adopted an early closing law.

Capt. Glenn will build a new house at Stella.

Mrs. Jane Dickey died at Yonge Mills, aged 78.

Wm. Pillar, Kingston, died on the 10th, aged 80.

A floating club has been at last organized in Pictou.

A union Sunday school will be formed at Croydon.

Joseph McLaren, Millhaven, has left for Watertown.

The Luthers of Eganville are building a parsonage.

The I. O. O. F. of Madoc have organized a brass band.

Gannoeque will have a celebration on Dominion Day.

John Thomas, of Pictou, died on the 9th, aged 65 years.

Alexandria will sink an artesian well for fire protection.

Mrs. John Pearson, South Bay, died on the 8th, aged 56.

There have been many shipments of potatoes from Tweed.

Mrs. John Pearson, Black River Bridge, died last week.

Dr. Gordon F. Spencer has been appointed coroner of Watertown.

Wm. Bloom, one of the oldest residents of Marlbank, died recently.

A building known as the old tannery was recently burned at Madoc.

Mrs. Alfred Reid, who resided near Stirling, died last week, aged 23.

Work has been commenced on the new Anglican church at Napanee Mills.

Wm. Halset and Emma Hicks, both of Elston, were married on the 10th.

J. A. Calmen, Concession, for fifty years a division court clerk, has resigned.

Robt. H. Breakell, a well known resident of Madoc, died last week aged 61.

James Ketchum, of Cherry Valley, is 97 years of age and hale and hearty.

Mrs. Alex. Auchincloss, of Gannoeque, died in Kingston on the 13th, aged 87.

Frank Beck with Emma McMahon, of Croydon, have become partners for life.

The new Presbyterian church in Winchester will be opened about May 24th.

Alfred Watcott, formerly of Stirling, died at Almonte, Mich., on 25, aged 46.

Egbert S. Gilbert and Grace Edmund, both of Tharlow, were married on the 10th.

The teacher of C. H. Keith, \$2,635, for the Belleville market toll has been accepted.

The remains of Miss A. McCormick, Oshawa, were brought to Stella for interment.

Mrs. Mary J. Bowerman, mother of W. K. and D. C. Bowerman, Bloomfield, died on the 7th inst.

A large number of young men recently left the Croydon district to seek work in the United States.

Work on the new church for St. Andrew's Presbyterian congregation, Belleville, is now well forward.

John Davy, Morven, has a calla lily with 14 leaves, flowers and 15 coming out. It measures 5 feet.

A Stevenson and A. Lakos, two Trenton hunters, cut in two and piled up 14 cords of wood in 14 hours.

Chas. Phillips, formerly of Kingston, held a \$2,400 position at a furniture store at Hallowell, Me.

John G. Frost was elected chairman and John P. Thompson secretary of the Belleville board of trade.

Innocent Phipps people have been cheated very much in the measurement of cordwood during the past winter.

Etzel, daughter of Wm. Noble Black River Bridge, drowned from a rig with a broken arm as the result.

Mrs. Frank Slater, Yereville, has a foliage plant one of the branches of which measures 3 feet 7 inches.

Edward Allen, Marlbank, has sold his village property and has left for John Morton's farm in moving thereon.

Tweed claims to be the most prosperous village of the district, having grown greatly since the advent of the B. & N. Ry.

Field mice have done much damage to fruit trees in Prince Edward. In one orchard 100 young fruit trees were lost.

Quadville is a new village growing up in the township of Lyndoch, Kemur County, about 25 miles south west of Eganville.

Perry Crock, of Prince Edward, started last week with a horse and buggy to drive to Oshawa, a distance of 375 miles.

The A. O. U. lodge of Rice Lake, Wis., is wonderfully progressive, has 140 members.

A pleasant event took place at the residence of Benj. Richardson, Greta, on Wednesday, when his daughter Miss (Gertie), was married to Mr. John Hicks.

Drunk men and boys can be frequently seen on the streets of Stirling on Sunday. No creditable to the authorities that village.

The Oddfellows of Actinolite (Bridge water) have purchased the hall lately occupied by the Salvation Army and are fitting it up for use.

James Stanley has been appointed fishery overseer for Northumberland and Durham along the shores of Lake Ontario and Z. White and Alex. Eagle, McLaughlin, Brice House; Mrs. J. Thomson, Hot 11; W. H. Hunter, Royal Hotel; John Carr, Tichborne House; M. W. Fryer & Son, shop.

LENNOX LICENSES.

The following applications have been received by the License Inspector for Lennox for the ensuing year, and will receive consideration by the commission on the 22nd.

Mrs. P. Hunt, Hunt's Hotel—Robt. Edwards & Burley, Bay View House; Duncan Wemp, Wemp's Hotel—Bath.

Joe. McDonald—Stella.

Wm. McDonald—Stella.

S. J. Sproule's Hotel; Robt. Bennett—Oshawa.

Napanee—H. Milling, Campbell House; Mrs. M. E. Hawley, Hawley House; A. E. Douglas, Hawley House; Richard Wheeler, Queen's Hotel; McLaughlin, Brice House; Mrs. J. Thomson, Hot 11; W. H. Hunter, Royal Hotel; John Carr, Tichborne House; M. W. Fryer & Son, shop.

And those who are all tired out and have tired feeling or sick headache can be relieved of all these symptoms by taking Hood's Sarsaparilla, which gives nerve, mental and bodily strength and thoroughly purifies the blood. It also cures a gleet, syphilis, cures indigestion, heartburn and dyspepsia.

Content of the Holy Names of Jesus and Mary.

A Pleasing and Marvelous Record from a City Educational Institution.

Testimony of the Highest Possible Character.

PAINE'S CELERY COMPOUND AND ITS GOOD WORK.

The Sisters call it the "Wonder-working Medicine," and Strongly Recommend Its Use.

No medicine in the world has ever earned or received the high and unstinted praise that has been justly accorded to Paine's Celery Compound. Testimonials (many of them of uncertain authenticity and questionable veracity) appear each week, adverting the use of medicines, worthless and of no value to the sick and suffering.

Paine's Celery Compound stands on a summit of fame, far removed from all the deceptive medicine of the day. Its history and testimony come from the best people, and from institutions whose names are synonymous with honor and uprightness.

Among the large and noted institutions whose people have been blessed by the origin and healing virtues of Paine's Celery, is the "Convent of the Holy Names," in the city of Montreal.

This thorough and magnificently equipped institution of learning, is among the largest of the kind on this continent, and has

A Happy Choice.

AFTER 25 YEARS.

A WISE WOMAN CHOOSES THE RIGHT MEDICINE.

ONE OF HER OWN TELLERS OF ITS WONDERFUL EFFECTS.

GENTLEMEN.—In the spring of 1891 I got a bottle of B. B. for my mother, who had been troubled for 25 years with Sick Headache. I got it from Mr. H. P. Dutton, of Montreal, N. B., who gave me other medicines to take home and let my mother take her choice. Fortunately she chose the B. B. and I returned the other bottles.

She used it for three months and her headache was cured. We are sure it was B. B. cured her as the book no other medicine.

JOHANNA A. GREEN, Hartford, N. B.

SUMMER SCHOOL OF SCIENCE.

A summer school of science for public and high school teachers and others will be opened on July 10th, in Kingston, and continue four weeks by the staff of the school of mining and agriculture. The object is twofold, to give to teachers an opportunity of studying the chemistry, mineralogy, geology, botany and zoology of the farm, as recommended by the department of education, and to enable teachers who cannot attend the university during the winter to prepare for the practical part of the specialist's examination and university examinations. The fee is \$10—a popular boon.

SPEED OF WILD DUCKS AND GESE.

THE DUCKS MADE SIXTY-SIX AND TWO-THIRDS MILES AN HOUR, AND OUTLIT THE GESE.

Of all the migratory birds the American wild pigeon and black duck will well up towards the front as regards rapid flight. The speed of the pigeons can only be estimated, while that of the ducks can be established by observation. Some years ago the writer and a scientific friend measured off on the shore of a large western river a line exactly three miles long, and each took a station at opposite ends of the line. The object was to note, by means of preconcerted signals, the time a flock of wild ducks took in passing up or down the river, near the stations.

During three hours on the morning of a bright October day, observations were noted of the times of passing the stations of nine different flocks. Upon comparing watches it was found that the average time was two minutes and forty seconds, thus showing the speed per hour to be sixty-six and two-thirds miles, or one mile in fifty-four seconds.

As showing how uniform was their flight, difference was found of only five seconds between the greatest and the least intervals of time.

As numerous flocks of wild geese were daily flying in the same neighborhood observations were also taken to test their swiftness. Two points twenty-nine and one-third miles apart were selected, both of which were connected by telegraph. We succeeded in identifying four out of the seven flocks which passed over both places during the four days we were on the watch. The mean hourly speed was found to be a fraction over fifty-four miles. The wild geese have been long supposed to be the swiftest of all water fowl, but this expectation of the bird, behind the wild duck—New York World.

NERVOUS PEOPLE.

And those who are all tired out and have tired feeling or sick headache can be relieved of all these symptoms by taking Hood's Sarsaparilla, which gives nerve, mental and bodily strength and thoroughly purifies the blood. It also cures a gleet, syphilis, cures indigestion, heartburn and dyspepsia.

over thirty branch houses in Canada and the United States.

After a thorough trial of Paine's Celery Compound in the head house, by sisters who suffered from the troubles that makes human life miserable, and seeing the truly grand results—health, vigor, strength and strong nerves—it was deemed advisable in the interests of suffering humanity, to make a declaration that would give comfort, assurance and hope to all sufferers in the land. The sisters have "kindly and graciously written as follows:—

"We feel it a duty to add our testimony in favor of your 'wonder-working' Paine's Celery Compound. Many sisters suffering from debility, dyspepsia, sleeplessness and indigestion have been completely relieved after taking it.

"We should strongly recommend its use in all our houses, and the best medicine to restore all health, and give tone and vigor to the nervous system.

AT ALL GROCERS.

Made only by N. K. FAIRBANK & CO., Wellington and Ann Sts., MONTREAL.

Acting through the blood, Hood's Sarsaparilla not only cures scrofula, salt rheum, etc., but gives health and vigor to the whole body.

A CAT ADOPTS YOUNG FOXES.

Last Saturday, Albert Kendrick purchased a fox with six young ones. His intention was to raise the young reynards and tame them. He had the old one secured by a strap but by some means his foxpup got loose and skipped during the night. The quondary was now how far to raise the young ones. Mr. Kendrick did not have to remain in this frame of mind long as the house cat, which had just lost a litter of kittens, came round and adopted the young foxes as her own. The cat and her family are happy in their new relations with every prospect of the juvenile foxes growing to maturity. *Western Press.*

THEY ARE GIVING AWAY.

PHYSICIANS COMBINE TO REALIZE THE VALUE OF DODD'S KIDNEY PILLS.

Ottawa, April 15.—The inveterate reluctance to admit the success of patent medicine, usually evaded by physicians, is rapidly giving way as far as Dodd's Kidney Pills are concerned. The cases of Dr. Ross and Dr. McCormick, who published details of their recovery from diastolic and bright's disease, through the agency of this remedy, were the first attack on the old to their skepticism and now it appears as if the remarkable recovery of Mr. G. H. Kent, of this city, the details of which have been already transmitted to the press, would complete what has been so suspiciously begun. The published interviews with Mr. and Mrs. Kent and the receipt of the statement of the former leaves no foothold for disbelief.

Norway Pine Syrup cures Coughs, Colds and all Asthma and Lung Troubles. Price 25 and 50c.

RENFREW CREAMERY.

A. A. Wright, manager of the Renfrew creamery, has furnished the Renfrew papers with a statement of the work of the factory since it was opened on Jan. 15th. The quantity of milk has been steadily increasing, the total amount delivered to the 1st of April being 469,158 pounds; butter made, 7,199 pounds. The demand exceeds the supply with every prospect of this continuing. Mr. Wright is receiving applications for samples from as far distant as London, Eng., on one side and British Columbia on the other.

ORILLIA'S PROMINENT FURNITURE DEALER GIVES FACTS.

Orillia, Feb. 10th, 1894.

EDMANSON, BATES & CO., Gentlemen.—About three or four weeks ago I had an attack of itching piles. I tried two or three different remedies recommended by druggists as "the best and only cure," etc., etc., but got no relief. About the time I was beginning to despair of finding any relief from some slight misgiving I bought a box of your pile cure, which I am pleased to say gave me almost instant relief and permanent cure. I consider your Ointment a God send. ALF. J. DEAN.

The great favor in which Ayer's Pills are held all over the world has been well earned. They are easy and even pleasant to take, and for all complaints of the stomach, liver, and bowels, are the safest and most thorough medicine in pharmacy. Every dose effective.

2 NEGLECTS AND THE RESULT.

Neglect cold in the head and you will surely have catarrh. Neglect nasal catarrh and you will surely induce pulmonary diseases or catarrh of the stomach with its attendant troubles: foul breath, hawking, spitting, bloating, &c. Stop it all by using Dr. Chase's Catarrh Cure, 25 cents a box cures.

ARE YOU DEAF?

Do you suffer from noises in the head? Then send 3 cent stamp and I will send a valuable treatise containing particulars for home cure which costs comparatively nothing. A splendid work on deafness and the ear. Address, PROF. G. CHASE, Montreal.

When Baby was sick, we gave her Castoria. When she became a Child, she clung to Castoria. When she became Miss, she still used Castoria. When she had Children, she gave them Castoria.

Hood's Pills are easy to take, easy in action and sure in effect. 25c.

Acting through the blood, Hood's Sarsaparilla not only cures scrofula, salt rheum, etc., but gives health and vigor to the whole body.

Orillia, Feb. 10th, 1894.

EDMANSON, BATES & CO., Gentlemen.—About three or four weeks ago I had an attack of itching piles. I tried two or three different remedies recommended by druggists as "the best and only cure," etc., etc., but got no relief. About the time I was beginning to despair of finding any relief from some slight misgiving I bought a box of your pile cure, which I am pleased to say gave me almost instant relief and permanent cure. I consider your Ointment a God send. ALF. J. DEAN.

The great favor in which Ayer's Pills are held all over the world has been well earned. They are easy and even pleasant to take, and for all complaints of the stomach, liver, and bowels, are the safest and most thorough medicine in pharmacy. Every dose effective.

2 NEGLECTS AND THE RESULT.

Neglect cold in the head and you will surely have catarrh. Neglect nasal catarrh and you will surely induce pulmonary diseases or catarrh of the stomach with its attendant troubles: foul breath, hawking, spitting, bloating, &c. Stop it all by using Dr. Chase's Catarrh Cure, 25 cents a box cures.

ARE YOU DEAF?

Do you suffer from noises in the head? Then send 3 cent stamp and I will send a valuable treatise containing particulars for home cure which costs comparatively nothing. A splendid work on deafness and the ear. Address, PROF. G. CHASE, Montreal.

When Baby was sick, we gave her Castoria. When she became a Child, she clung to Castoria. When she became Miss, she still used Castoria. When she had Children, she gave them Castoria.

Hood's Pills are easy to take, easy in action and sure in effect. 25c.

EGAR'S

Cod Liver Emulsion!

EGAR'S

HARTIZING A BARK KING

The month of June in the year 1811 seemed the crowning point of all the magnificence of the first empire. It was a month of display—the one continued festival in honor of the little king's baptism.

the 6th of June. With the other pages he had hung upon the backboard of the imperial coach on the next day—Sunday, the 7th of June—it was driven through a living arch of glittering helmets and nodding plumes, where a double row of the troops of the line and of the imperial guard, stretched from the palace of the Tuilleries to the Cathedral of Notre Dame. Under the garlanded portal and into the brilliantly lighted church he had passed as one of the glittering procession, says Elbridge S. Brooks in April St. Nicholas. And there, in sight of a throng of princes and peers, of great officials of the crown, of cardinals and bishops and archbishops, of the senate, the court and

the mayors of the great cities of the empire, regal in a coat of silver tissue embroidered with ermine, and with its train upheld by a marshal of the empire; with his mother, the empress, walking in imperial state under one gorgeous canopy, and his famous father, the emperor, under another gorgeous canopy; with a princess bearing his baptismal candle, a princess holding his christen cloth, a countess carrying his salt-cellar, and all about him princes and dukes, chamberlains and marshals, and "nobles," commandants

rics, grand masters and grand-lords of other things! With ushers and heralds and orderlies and pages; supported by his nurses and governesses; with an emperor for a godfather and a queen for a god-mother—this one little baby, Francis Charles Joseph Bonaparte, King of Rome and heir to France, was presented for baptism at the high altar of the grand old church which had been the scene of so many great and marvelous and curious ceremonies but never of one more magnificent than this.

So the baby was baptized. Then, in the sight of the whole assembly, while the organ pealed out the "Jubilate," and the

first man at arm, standing in the choir, cried out, "Long live the King of Rome!" the baby's proud father held his son aloft where all might see his little magnificence. Then all the crowded church, all the packed square without and all the listening city raised a mighty shout: "Long live the King of Rome! Long live the emperor!"

Mr. Walter Orion (nee Onion) writes from Farmington that he is pleased to say that the superior court at Colfax has granted his petition for a change of

HERRING NEW SPRING TOOTH CULTIVATOR.

(With Broadcast Seeding Attachment.)

Our well known Spring Tooth Cultivator performs its work in a superior manner, and stands the test of merit in all conditions of land. It is built in two sections, each operated by a lever, each tooth double-backed, engaged separately, thus avoiding breakage. Frame thoroughly braced and wholly of iron and steel. Draft light, pulverises the soil for seeding, and warranted the best in the market. Cultivators are sold separately or with Broadcast Seeding Attachment. The teeth of this Cultivator are guaranteed best tempered, and not to straighten out, as is often the case with cultivators of inferior makes.

Did you ever hear a Rooster play a Fiddle?

LOCAL ITEMS.

The Welland canal will be open for navigation to-morrow.

The will of the late James Gault has been probated; estate, \$3,777.

The stmr. North King will commence her regular trips on April 25th.

The steamer Hero expects to make her first trip up the bay to-morrow.

The ferry steamer at Peterson's Ferry commenced her trips on Monday.

Fall grain is looking very well and the prospects for good grass are excellent.

People were glad to see the Sophiasburg farmers again on the market this week.

Shung Hong Lee, a Chinaman, opens a laundry next week in the Geddis block, Main street.

The hospital Sunday collections for Kingston hospital amounted to \$192.37, and outside churches \$203.93.

The Goderich Signal suggests the conversion of Upper Canada College building into a provincial hospital.

Capt. E. B. Smith, of the Alexandria, enters upon his thirty-sixth year of navigation between Bay ports and Montreal.

The steamer Alexandria commenced her trips last year on the 22nd, and the Magnet made her first trip up on the same date.

Mr. James Aseltine has placed on our dock an egg which measures 7 1/2 x 6 1/2, which was laid by one of his Plymouth Rock hens.

The Napanee Beaver compliments Mr. Pringle on the splendid appearance of the wagons constructed for Burtch's New Season.

Miss Gertrude Brown has purchased a handsome "Comet" wheel which will enable her to go easily to and from her school in the country.

The Town Clerk will take his exercise this summer on a fine "Crescent" wheel which he has purchased from E. W. Scott, local agent.

Residents are showing commendable public spirit by starting out this early to clear out rubbish from their backyards and premises generally.

G. A. Grant has moved to the house on Maple avenue recently occupied by Hugh Haggarty who has removed to his farm on the Boundary road.

Commissioner Harvey has had a strong force at work all week sweeping the mud off the streets, thus effecting a great improvement in the general appearance of things.

Good programme, delightful music, a happy time, at the **Rebekahs' Social next Thursday evening.**

Mrs. Rattray, mother of Rev. James Rattray, of Eganville, died on April 3rd, aged 78 years. Mrs. Rattray was a native of Aberdeen, Scotland, and came to Canada about seven years ago to reside with her son.

The Beaver states that, owing to ill health, Hyard Young has exchanged places with J. J. Taylor, both of the Rathbun Company's Napanee agency. Mr. Young jockey after the yard while Mr. Taylor looks after the store.

The latest sulky for the race track has the driver's seat over the hips of the horse and pneumatic tires wheels just back of the horse's forelegs on each side. The new device reduces the amount of harness necessary, and is said to give the horse perfect freedom of motion.

SPRING TOOTH HARROWS.
At prices heretofore unknown, at Miles S. Plimley's, Napanee.

The steamer Deseronto commenced her trips to Pictou last year on March 25, Heronher Aylsworth will assist at a concert in Belleville next Tuesday evening.

The schooner Pilot cleared from Kingston on Tuesday to load grain at Gananoque.

A bill has passed the Ontario legislature fixing a maximum fine of \$250 for transient traders' licenses.

Capt. John Flynn was in town on Monday. He will run the sleep monitor which he purchased last fall from M. Woodcock.

Wm. J. Geddis left on Monday for Belleville where he will take a course in shorthand and typewriting in the Ontario Business College.

On Tuesday Capt. John Rowe arrived in town from Murray his winter retreat. He comes on the tug Keesee this season in the place of the late Capt. J. R. Woodcock.

The steamer Merritt was put up for sale at Belleville. The reserve bid of \$3,000 was not reached and Dr. Chamberlain and the other stockholders will remain in possession.

The Presbyterian Synod of Toronto and Kingston meets in St. Andrew's church, Orangeville, for conference on Monday, May 13th, and for business on Tuesday, May 14th.

Greenpoint farmers state that the season has been short for the maple sugar business, but nevertheless they have done fairly well. Excellent sugar and syrup are manufactured by the Greenpointers.

On Friday there was quite a commotion on north Mill street, caused by the burning out of the chimney in John Huff's residence. It was thought for a time that the house was on fire.

The landslide which occurred recently on the property of Mrs. Rutlan, High Shore, Prince Edward, was not of such an extensive character as at first reported. The mass which fell only extended two or three feet back, and was about fifty feet wide.

At Belleville market last Saturday the following prices prevailed: butter 16-17c, eggs 10-11c, chickens 65-75c, pair, turkeys \$1, apples 80c, to \$1 bag, potatoes 60c, bag, onions 60c, bag, carrots, beets, turnips 10c, pk., maple syrup 80c, maple sugar 10c.

New boilers have been placed in five of the steamers of the Richelieu & Ontario Navigation Company. The work done on the steamer Hamilton (Magnet) has been of an extensive character. She has 62 state rooms which can accommodate 150 passengers.

On Sunday several old timers sitting on the wharf concluded that the ice bridge would remain another week, but on Monday morning under the influence of a strong northeast wind, it quickly moved jamming up against Forester's Island and the Fredericksburg shore. On Monday night it was broken up and disappeared.

Many members of Deseronto Lodge, No. 102, I. O. O. F., will go to Napanee next Sunday to unite with the brethren of Napanee lodge, No. 212, in a church parade to celebrate the founding of the order.

On the following Sunday both lodges will hold a church parade in Deseronto, the service to be held in St. Mark's church.

There is an impression among the cult that looks into such matters that women have worn corsets ever since the male of the species has known enough to make them for her. A case in point is that of the mummy of an Egyptian princess, who lived 2,000 years before Christ and was discovered in 1892, around whose waist was a contrivance closely resembling the modern corset.

The Intelligencer states that the will of the late Miss Burdett, of Belleville, bequeaths the entire residue of the estate to her niece, Mrs. George Hulme, for life, and to her issue after her death. Should she die without issue, then at her death to the testator's brothers, William and Henry, Mr. S. A. Gardner is executor and the Court of Chancery trustees. The estate is valued at about \$75,000.

Newcomb's Mill, a village nine miles north of Brighton, was visited by a disastrous fire between twelve and one o'clock Tuesday morning. A large frame grist mill owned by L. W. R. Terry and in which the fire originated, was entirely consumed, as was also A. T. Dorland's general store, dwelling and post office. The loss, Montgomery's dwelling, and the mill, consumed. The losses are generally covered by insurance.

It is related of the late David M. Stone the New York journalist, who was very fond of flowers, that he once had his lawn planted with \$250 worth of bulbs. To a friend who accused him of extravagance, he said: "We don't agree there. Two hundred thousand people see that garden in a summer. That makes the cost somewhere near an eighth of a cent apiece. I call it about the cheapest show on earth." That was an answer that left scant room for a rejoinder.

Never put your matches and your cough lozenges in the same pocket. Red phosphorus combined with chlorate of potash to make an explosive of great violence. The London Lancet thinks that if this fact of chemistry had been more generally known it might have saved the disagreeable consequences which recently followed when a man who had not studied chemistry put his safety matches into the same pocket with his throat lozenges and was severely injured.

Hayter Reed, deputy superintendent of Indian affairs, reports that tranquillity and prosperity have characterized the lot of the Indians of Canada during the past year. He is disappointed, however, to observe a want of that energy and progress in the Indians of the older provinces which are such striking features of their life in the west.

Progress towards the full privilege of citizenship among the Indians of Canada with the exception of those in Quebec, who are rather inclined to retrograde towards their tribal system.

The white canvas of the grand pavilion of Burtch's New Season can be described across the bay, and has awakened pleasant anticipations of its appearance in town.

George Morton, living at M^rra, was loading a gun in his house on the 14th inst., when some unaccountable cause led him to fire the charge cutting off his second finger and destroying the flesh of the next finger.

The corresponding week of April last year was comparatively warm the mercury ranging from 62 to 71 degrees in the shade. On this date it was 68.4 in the shade. There was thunder on the 18th and 20th with refreshing showers on the latter date.

By the explosion of a lamp on Monday evening the Presbyterian church in Trenton was set on fire and before the flames could be subdued the interior was gutted. Loss \$300, covered by insurance.

That popular officer Capt. Bloomfield will again be in command of the Hero this year. Parker Horsey, the most courteous of officials, will also be at his post. The travelling public are always delighted to see the Hero on her route.

We had the pleasure of sampling some maple syrup which Mr. Wm. Mitchell lately received from a friend in New Hampshire. Its flavor was delectable and of a quality not often to be found outside the Granite state.

Business men are again talking very earnestly about the ferry project. It is felt that Deseronto, the best market in the district, should have constant communication with Fredericksburg as well as with Sophiasburg. An effort will be made to call a meeting of ratepayers to discuss the question in its different aspects.

The vessels at Pictou will be thus commanded this season: Str. Alexandria, Capt. Smith; str. Empress of India, Capt. G. O'Brien; str. Aberdeen, Capt. M. Hepburn; str. Water Lily, Capt. W. Outlander; str. Iona, Capt. J. D. Vanalstine; str. Kate, Capt. Duetta; str. Two Brothers, Capt. N. McCrimmon; str. Nellie Hunter, Capt. P. Outlander; str. Fabius, Capt. Horn; str. Annie Milnes, Capt. J. Savage.

Mr. A. F. McLaren, M. P. P. has returned home to Melrose from the meeting of the legislative assembly in Toronto. Mr. McLaren performed his duties as the representative of East Hastings in a most satisfactory manner. His vote on the different divisions are in the main endorsed by all his constituents to whatever party they belong. He will have little trouble defending his course in parliament as far as the first session is concerned.

A sugar social will be held at the residence of Mr. George Demorest, of Richmond, on the evening of Friday 26th inst., in aid of the parochial fund of St. John's church, Selby. An unusually varied and interesting programme is promised. Everyone will be welcomed. Admission 15 cents.

Arbor Day.
Friday, May 3, is Arbor Day in the Public schools. It is expected that teachers will everywhere exert themselves in arranging for the pupils to take effect on the first of June. As the appointment of chief constable is of very great importance to the community we trust the town council will exercise the greatest caution and discretion in the selection of the new official.

Livery Purchase.
George Gannon has purchased the extensive livery establishment of the late James Gault and entered upon ownership yesterday. This property is one of the best of the kind in this part of the province, having always enjoyed a large and profitable patronage. The new owner is sure to maintain the reputation gained for it by the late proprietor, as he is well acquainted with the community, is thoroughly reliable and will be found courteous and obliging to all. A large circle of friends will wish him success.

The Eye Removed.
James Gannon, whose left eye had been injured by a piece of steel which flew from the face of a hammer, on Tuesday, 9th inst., left on the express on the Thursday morning following to consult a specialist in Toronto. He was accompanied by Mr. Gannon and E. W. Scott, the party making their home at the Lucas hotel. Dr. Reeves soon saw that nothing could save the eye and accordingly on Thursday evening he proceeded to remove the organ, the operation being successful. It was found that the piece of steel had penetrated the eye to the very back of the ball where it was lodged. Mr. Gannon showed us the tiny piece of metal having brought it home with him. He returned to Deseronto last Tuesday afternoon and, with care, it is hoped that no bad effects will follow. He has general sympathy in his trouble. During his stay at the Lucas he received many practical expressions of sympathy from A. J. McLean, M. P. P., Capt. Graves, Messrs. Evans, Lipp, Howell and other old Deserontians in the Queen City as well as from the Oddfellows' fraternity generally.

WARNING \$100 Reward
We are informed that unscrupulous dealers are in the habit of selling plugs and candles in the name of T. & B. MYRTLE NAVY. Purchasers will confer a favor by looking for the trade mark when purchasing.

T. & B. MYRTLE NAVY.
The genuine plug is stamped with the letters "T. & B." in bronze. Purchasers will confer a favor by looking for the trade mark when purchasing.

OUR NEW PLUS
T. & B. COMBINATION 14s., 6c., 10c. & 20c. PRICES.

is stamped with "T. & B." Tin Tag and is the same size as the larger size plug bearing "T. & B." in bronze.

The Geo. E. Tuckett & Son Co. Ltd.
HAMILTON, ONT.

John Nolan is planting a cedar hedge in front of his residence.

There are already many applicants for the position of chief constable.

T. Butler expects to commence steam driving next week, if weather is favorable.

It is again rumored that the Grand Trunk shops will be moved from Brockville and Belleville to Kingston.

The International Entertainers' performed to a poor house on Tuesday evening, though the programme was one of superior merit.

Capt. Churchill and Lieut. Bathgate, the new officers of the Salvation Army, are proving very popular, and the attendance at the meetings is very good.

On Wednesday last E. S. Westmoreland the Main street butcher, purchased from Allan Oliver, of Richmond, a two year old steer which tipped the scales at 1,200 lbs.

The remains of the late Mr. and Mrs. Martin Hayes were interred at the Erinville cemetery last Tuesday morning, a large number being present on the occasion.

All citizens will find it to the interests of health to proceed at once to clear out rubbish from backyards. Now is the very best time to clean wells and thus head off malaria and typhoid.

Notice.
All members of Deseronto Council, No. 141, C. O. C. P., are requested to attend the next meeting on May 6th on account of important special business. 31-3

Cricket Club.
The annual meeting of the Deseronto Cricket Club will be held in the rooms of the Deseronto Club, Clement block, this evening. Officers will be elected and other business transacted. All members of the club and lovers of cricket generally are invited to attend.

Comatose.
On Thursday last night Frank Audis who was working at night fell off the trestle of the refuse dock striking his head on a cart which was below sustaining severe cuts on the head and neck. On Friday A. Palmateer had his foot crushed by a piece of timber falling upon it. Dr. Yeomans attended both of them.

Fatal Accident.
A sad accident occurred on Tuesday afternoon in Lockwood's sawmill at Enterprise, whereby Hector Wager was almost instantaneously killed. A board, coming in contact with a circular saw, was thrown with terrible force striking him on the neck and resulting in death within two hours. He leaves a wife and three small children poorly provided for.

Resigning.
Chief Gannon, having decided to carry on the livery business, will resign his present position which he has so satisfactorily filled, his resignation to take effect on the first of June. As the appointment of chief constable is of very great importance to the community we trust the town council will exercise the greatest caution and discretion in the selection of the new official.

Livery Purchase.
George Gannon has purchased the extensive livery establishment of the late James Gault and entered upon ownership yesterday. P. S.—Another large importation of Carpets passed through the customs and put in stock yesterday.

A GLENGARY MIRACLE

THE STORY OF A YOUNG GIRL WHO THOUGHT DEATH WAS NEAR.

HER CONDITION THAT OF MANY OTHER YOUNG GIRLS—HEART ACTION, FEVER, CHILLS, GALLS, FASHY THERM AND APPETITE ALL MOSE DOWN—NOW SHE WAS SAVING.

Nothing in this world is more distressing, and unfortunately it is too common in the Canada of our day, with its extremes of climate—its almost arctic winters and summer days tropic heat—that the life of a young girl have been full of promise, but just when the young maiden becomes a lovely age with everything to live for, or the young man evinces signs of business aptitude, they are suddenly stricken down and often in months or it may be weeks, there are empty chairs at the fireside and sore hearts left behind.

Henry Haines, who has for several years past acted as farm foreman for Mr. W. Carrie of Glen Walter, Glengarry County, has quite a large family. Among the children, Mary, now about eighteen years of age. Until her 12th year she was much as other children, fairly rugged and without change of any kind. Then, when her mother became delicate and as the months went on her parents were afraid she was going into decline. Her heart beat faster, she was feverish and flushed, slept badly and had but little appetite. Doctors were consulted, who talked about growing too fast, and such common places, and prescribed different medicines, none of which, however, appeared to be of any permanent benefit. A year or so ago the young lady, having a change of air might accomplish for her what medicine could not, went to Fort Covington, N. Y., where she had some relatives, and engaged as a nurse. Her light employment, however, proved too much for her and in the spring she returned to her parents a perfect wreck, with nothing to do but die, as she thought. But when her mother expected at hand, Mr. Haines had been reading of the marvelous cure made by Dr. Williams' Pink Pills for Pale People, and reasoned within himself that if they had cured others they might have his daughter's life. On the next visit to Cornwall he bought a half dozen bottles of Pink Pills, and he easily imagined that Miss Haines required little persuasion to try the much talked of remedy, and she was glad to do so. She did so. In the course of a week she felt an improvement. By the time she had taken two and a half boxes she realized that she was experiencing with as much ease as she had before, and her friends began to remark and congratulate her on the change of her appearance. Still persevering in the use of the pills, she found when at the end of the fifth box in perfect health and able to engage in all the work of the household and the amusements from which she had up to that time been debarred. She had an excellent appetite and no one could wish to feel better. Hearing of the marvelous change her sister at Fort Covington called over to satisfy herself, and could hardly be persuaded that the robust, happy looking girl was indeed her sister whom she had never expected to see alive again. Miss Haines says she cannot say enough in favor of Dr. Williams' wonderful Pink Pills, to which she feels indebted.

Dr. Williams' Pink Pills are an unfailing cure for all troubles resulting from poverty of the blood or shattered nerves and where given a fair trial they never fail in cases like the above related. Sold by all dealers, or sent post paid at 50 cents a box, or 6 boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont., or Schenectady, N. Y. See that the registered trade is on all packages.—Cornwall Freeholder.

BICYCLING UP A HILL.

In the first place, for general riding it is safe to say that one should never try to keep the same speed in going up a hill that he has been setting himself on a level road. Given this, the natural tendency of all riders is to go too fast. The bicycle should be allowed to slow down, and the pressure on each pedal should be made the moment that it comes beyond the highest point of its arc. The pedal should be strong for a moment, and should be withdrawn before pedal has turned so far that the pressure is put on the wrong side. In other words, the principle is the same as in rowing, where the stroke should be made most powerful at the moment when the oar is at right angles with the body, and therefore in the position where the oarman's strength counts for the most. If the bicycle is allowed to run slowly, and this pressure is alternately made on one pedal and then on the other you will find it moves along slowly, to be sure, but steadily, and this is the best way to hill. If you realize it, and without having even quickened your pulse to any great extent. A very good rule, of course, be made somewhat easier by taking it diagonally across from one side to the other if the road is wide and smooth enough—that is, by zigzagging up the hill.

BUTTER MADE FROM WHEY.

ITHACA, N. Y., April 12.—An interesting bulletin, just issued by Cornell University Agricultural Experimental station, describes a new process of making butter from whey. The process of making a small percentage of fat escapes in the whey. The Cornell experts were led to believe that this fat could be saved and made into a commercial butter. "Accordingly, January 18, 1895," the bulletin says, "we began to treat the whey by the new process, and we have been successful in securing a large portion of the fat in the whey in the form of commercial butter of good quality." The process, it is stated, is that the whey is separated from the cream, and the fat is then added to the whey. "Full details of the experiments and their results are given in the bulletin. Good judges who have seen the two kinds of butter side by side have been unable to detect which was made from whey and which from cream. In other cases, slight inferiority in texture has been noticed in the whey butter. That it is possible to make butter of good commercial quality in this way has been clearly demonstrated."

RHEUMATISM CURED IN A DAY.—South American Rheumatism Cure, for Rheumatism, Neuralgia, radially cures in 1 to 3 days. Remains upon the system is removed by the cure. It removes at once the cause and the disease at once disappears. The first dose greatly benefits. 70 cents. Sold by W. G. Bear and W. J. Malley druggists.

FOR BOYS ON THE FARM

A DISQUISITION ON SHARING IN THE SNOW.

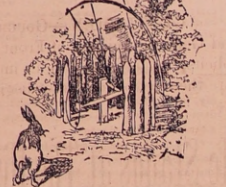

How to Hunt Birds and Rabbits in the Winter Without Powder and Shot—Jay Birds in the Snow—Blinded Crows—Snaring Bitter Rabbits.

"When I was a boy," remarked Uncle Jack, who found Peter sulking by the sitting room window because his father had forbidden him to borrow Michael's shotgun, "and I lived in the snow, I used to go out and try to bag all the game I wanted in snares and traps of my own making."

Peter only grunted.

"Yes," continued his cheerful young uncle, "and I'd venture to say I could start out to-day, set a few good traps under the trees and along the edge of the woodlands and catch more rabbits than Michael can shoot in a week with that old blunderbuss of his."

"And all this snow on the ground, bet

SNARING BITTER RABBIT.

you wouldn't," said discouraged Peter, who was growing interested in spite of himself.

"Why this is the perfect trapping season," insisted Mr. Jack Bowles, "with four or five inches of well packed snow over everything, nobody but a few squirrels and chipmunks know where they will get their next square meal, and the majority of these snow-bound animals will venture into the most suspicious looking nooks for the sake of a few crumbs or a bit of meat. Did you never try catching crows and jaybirds in snow pits? They are about the simplest snares I know of and the easiest to make."

Peter confessed he felt some curiosity on the question, and his uncle explained that with his thumb he must break through that part of the snow on which a crisp crust has formed, making a neat, round little hole, not more than one inch and a quarter deep. Into this sprinkle a few grains of wheat and await developments. If two or three of these holes are made near, or under a tree in which jays collect to scold and quarrel during the afternoon, they will be sure to spy out the little feast, and some of them will feast and some one of them will stick in an inquisitive bird head. All goes well, until he attempts to draw back when his proud, top knot catches in the back of a fish hook and the bird is held as firmly as if you had him in your hand.

"Now for the crow a simple sheet of white commercial note paper will do. Roll and paste this in the form of a cone with an opening at the top measuring at least three inches across. All along the inside edge of this opening smear a little bird lime, and this you can buy already prepared at any bird shop, or fill its place by boiling down some linseed oil until it is very thick and sticky. Press the paper cone up to the top of the snow and drop a few well cracked grains of corn into the bottom. When the crow thrusts his head in for one lucious mouthful his disgust and surprise are unbounded as he finds he cannot withdraw it. He will try to pull it out, but he holds him as securely as the jaybird's top knot, and only human hands can give him relief."

"Another favorite trick of mine was catching birds with an owl, an owl stuffed with straw, I passed it out and fasten on the limb of a tree, the branches about him with home-made bird lime. As perhaps you know, it is only during the day when he is stupid with sleep and blinded by light, that the smaller birds have no fear of an owl, and if they find one recklessly wandering forth from his knot hole retreat, or discover his daylight hiding place, they will gather and punish him soundly for his midnight depredations. My dummy owl never failed to attract a congregation of birds and when once settled on the branches they stuck there until I came to pluck them off."

"However, I always preferred to catch birds in snares or coo traps, that I made for myself. As for coo traps I trap set with the figure four trigger and a little meal answers for the small hedge birds and furnished little fellows that hop about on the lawn. For quail and snipe snares are the best, and most quickly made. To set up the best of this kind drive the stout stakes, each about a foot and a half long into the earth three or four feet apart. From top to top stretch taut a length of heavy twine. At space five inches along this twine fasten a series of slipping nooses of any flexible wire with the opening of every noose as large as a tea-cup saucer. Let them all hang at least a half an inch above the ground and sprinkle about a handful of oats or whole wheat. Such a trap is best up at the edge of a woodland or where the low meadow grass is high above the snow. Here the quail runs back and forth in search of food and something a hungry rabbit will come to grief in the wire net work."

"To snare rabbits though you cannot do better than take lesson of the English poachers who build the cleverest, simplest twitch snare in the world. A knife, a few thick shingles, some twine and wire are all the materials needed for this. First, find a spot where you suspect the light-footed Molly cotton tail frequents and drive

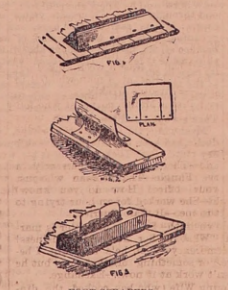

deeply into the ground a piece of shingle nearly a foot long, half an inch thick and two inches broad. Insert this about four feet distant from a tough little oak or hickory sapling that is not more than three feet high and from which you must lop all its branches. Now cut in the sapling a notch, just deeper than I am making shows a square notch into which will fit the long pointed bait stick, that has an angle notch at one end to correspond with an angle notch in the top of the upright stick. Putting the bait and upright stick together fit into their notches a third bit of stick called the catch piece and then, tying a long shingle, just deeper than the sapling, in the form of a pen, on three sticks, and so force master rabbit to take the first nip at the bait only by poking his head through that wire noose. He will be sure to venture within just an inch after his hungry tongue has touched the dainty morsel triggers and springing upright will hang the poor beast as neatly as a regular gallows. But twice will snap out of place and the sapling, remember whatever else you do never set a snare for any of these animals with your bare hands, wear a pair of clean old gloves and prepare all your triggers, stakes and wires anywhere else but on the ground, where you intend to lay your trap, for even a starving rabbit will think twice before venturing in where too ostensible preparation has been made for his coming."

AUBREY MELTON.

Home-Made Foot-Scrapers.

Of the many devices that aid the housewife on the farm in keeping the rooms clean, none bear a more important relation to neatness and sanitation than the foot scraper. It is used in the kitchen door. It invites the men, folks to clean their feet and reminds them that the door mat will aid without an objection in keeping hall or living room floor free from the offensive mud of poor walks and the more offensive filth of the stable.

Very neat and artistic patterns of scrapers are for sale at the hardware stores, but they are usually too frail for

FOOT-SCRAPERS.

cleaning the heavy boots required on the farm, and if placed on the porch are soon broken and thrown away. Any farmer who has the bit of mechanic's tools required on every farm can profitably spend a rainy day in making one of the patterns of foot scrapers here described. No. 1, as shown in the engraving, is made of a piece of two inch barrel hoop 12 or 14 inches long, inserted in a base made of a piece of 2x4 scantling about four inches longer than the iron. Dress out the scantling with hatchet and plane, saw off the ends to the same level, and with a saw make the slot in which the piece of hoop is firmly driven. Fasten to step or porch with nails or screws.

Fig 2 shows a scraper made of any piece of thin iron or steel, and can be easily fashioned from the blade of an old spade or shovel. This could be made with cold chisel and punch if wrought iron be used, or constructed more easily at the forge. Fig 3 shows a form that not even the roughest hired man with his No. 10 brogan can break. This is made from a couple of old axes that have seen their best days, and while they can no longer cut they can keep two eyes ready for a scraper. The axes are set in a mortise cut in the 3x4 inch block which is securely fastened to the step.—American Agriculturist.

Natural History Class.

Ocean crabs have the power of so closely rearing up their surroundings that they are practically invisible. The big horn of the Rocky Mountains seems to unite the head of the mountain with the body of the deer.

A Chichester brother keeps a tame fox as a walking stick, which he uses as a walking stick. The fox is almost perfect.

Horses or cattle cannot be driven over a field thickly grown with Russian thistle. Its seeds are carried hundreds of miles by the winds.

There is a butterfly of India, which, if pursued by a bird, simply alights on a bush of tree and becomes invisible by its color.

The insect known as the mantis, of India, so closely resembles the orchid that it acquires a living from insects that alight on it by mistake.

A Chicago brother keeps a tame fox. It keeps his place clear of rats. The experiment was tried after cats and traps had failed. The first night the fox spent in the shop he slaughtered thirty-four rodents.

Gip, the most famous rat-terrier in Texas, is dead at the age of fourteen years. His greatest feat was killing 500 rats in thirty minutes. He was provided with a special coffin, lined with straw, and laid away by his owner, Henry Gray.

THE GOOD THAT ONIONS DO.

They Purify the Blood, Are Useful for Croup and Even Cure an Ear Ache.

One of the healthiest vegetables is not the beetroot, grown in the garden, yet strange to say, but few people use it as liberally as they should. Boiled onions, used frequently in a family of children, will ward off many of the diseases to which the little ones are subject. The principal objection to the promiscuous use of this vegetable is that the odor exhaled after eating is so offensive. A cup of strong coffee taken immediately after eating is claimed to be excellent in counteracting this effect. Although for a day or so as an eating onion, the breath may have a disagreeable odor, yet after this time it will be much sweeter than before. For croup onion poultices are used with success, providing the child is kept out of draughts and a sudden chill avoided. The poultices are made by warming the onions in grease oil until soft, then putting them on the child's feet and chest as hot as they can be borne. Except in very obstinate cases, when taken in time, the croup readily yields to onions. This, although an old-fashioned remedy, is a good one, as any mother who has brought up a family of children can testify.

Onions are excellent blood purifiers, and for encrusted boils or any of the blood humors are very efficacious. They are good for the complexion, and a friend who has a wonderfully clear, fine complexion, attributes it to the liberal use of onions as a food.

People suffering from nervous troubles are much benefited by using these vegetables frequently, either cooked or raw. When troubled with a hard cough if a raw onion is eaten the phlegm will loosen almost immediately and can be removed with very little effort. Those troubled with wakefulness may insure a good night's rest often if, just before retiring, they eat a raw onion.

Then are few ailments to which children are subject as hard to bear and as painful as croup. One of the best remedies we know is to take out the heart of an onion (as usual is the best if it can be had), although, lacking this kind, any other can be used and roast it. When soft put it into the affected ear as hot as it can be borne. Unless the cause is deeper than ordinarily the pain will cease in a very short time and will not return.

A cough syrup in which onions form an important part, made by taking one cup of vinegar, one cup of treacle and one-half cup of cut-up onions. Put on the stove and simmer about half an hour, or until the onions are soft. Then remove and strain. Take a teaspoonful of this frequently when troubled with a cough, and unless very deep seated the cough will not last long.

White Stockings and Black.

Fifty years ago the female domestic servant could scarcely afford to wear them on high days or holidays, a pair of white stockings; she either knitted coarse ribbed black worsted stockings for herself, or she bought black stockings. These white stockings, frequently with an orifice in one heel, were the distinguishing badge of the lodging-house "slavery," but about twenty years ago a remarkable sanitary change came over the upper and lower sections of English female society. White stockings, save for balls, were suddenly repudiated, and black silk hose for ladies and children became the almost universal wear. The French are extremely fond of asserting that they set the fashions to the world at large. I contend that in a number of instances, we have prescribed patterns to the French. And I was amused lately at reading, in the Paris Figaro, an article vehemently protesting against the patronage by French ladies of the hideous mode Britannique of les bas noirs—G. A. Sala, in London Telegraph.

An Ancient Pie.

Let us not forget that to-day is the anniversary of the death of Sir Theodore Mayerne, physician of James I. and Charles I. He amassed a prodigious deal of wealth and wrote the great book of the seventeenth century. Here is his recipe for "A City of London Cooke": "Take eight marrow bones, eighteen sparrows, one pound of potatoes, a quarter of a pound of oranges, two ounces of lettuce stalks, forty chestnuts, half a pound of dates, a peck of eysters, a quarter of a pound of preserved citron, three artichokes, twelve eggs, two sliced lemons, a handful of pickled barberries, a quarter of an ounce of whole pepper, half an ounce of sliced nutmeg, half an ounce of whole cloves, a quarter of an ounce of whole cloves, half an ounce of mace, and a quarter of a pound of currants. Liqueur when it is baked, with white wine, butter and sugar."—Boston Journal.

Diplomatic Bismarck.

One day the Austrian Ambassador to the Federal Diet, Count Rechberg, received a dispatch instructing him to vote with Prussia for a certain important measure, accompanied by the Prussian letter directing him to induce the representatives of the German States to vote against the measure and thus defeat it. In his haste he handed the wrong paper to Bismarck, who read and returned it with the remark: "There must be some mistake here." Rechberg saw his blunder, and grew pale and called: "Don't be disturbed," said Bismarck; "you did not intend to give me this document, and therefore you have not given it to me, and I am wholly ignorant of its contents." In fact, he made no mention of it in his official reports, and thus won for himself the credit of having been honest in his refusal to be the San Francisco Argonaut.

They Could Not Land.

A real estate man had been trying to sell a suburban lot, by all sorts of representations as to location, climate, view, etc., etc. A friend listened with astonishment at the eloquent description of beauties, which his untrained eye had failed to appreciate.

"Why, what did you want to lie to that fellow like that for?" he asked after the prospective purchaser had departed.

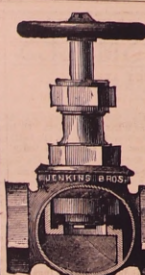

"Why, I didn't lie," he replied. "You said, 'You told him that there wasn't a mosquito on the place, and I saw great swarms of them buzzing around when I was here.'"

"Yes, but that's all they were doing—buzzing around. I forgot to tell him that it was so hot that the mosquitoes couldn't make a landing."—San Francisco Post.

A Weak Quality of Rum.

"Don't see," said the Justice, "why this man should be prosecuted."

"For his reputation," said the Honor, replied the lawyer. "He sold the Major a whole barrel of whiskey, and though he with a regular cod fish in his mouth, three weeks he didn't drink it."—Atlanta Constitution.

Livery Business for Sale.

FOR SALE, in the Town of Deseronto,

the Livery Business and Establish-

ment, together with the Stock Farm, de-

ceased by the late James Gault, deceased.

This property, established over thirteen

years, covers two full lots, and is in

excellent condition. The house is in excellent

condition, while the livery and other outbuildings

are in a complete state of repair.

It is a desirable place to live, and has

entrances from Main and Prince

Streets. Good water supply. The Stock

Farm includes long grass, and is in a

first-class class city livery. The stand is

centrally located, is in the immediate

vicinity of the principal hotels, and con-

venient to boats and trains. There is a

large business for express companies, and

the establishment has always enjoyed an

extensive patronage from commercial

travelers.

For terms and other particulars, apply

to J. C. HANLEY, Executor.

SOME QUEER THINGS.

Suicide of a Sergeant, a Cow Snake's Meal and a King's Girl.

Frequent instances of rattlesnakes committing suicide are known. The latest is furnished by a Wyoming civil engineer, who says:

"In riding along I happened to see a particularly large rattlesnake, sunning himself on a rock of bare ground, and tried to ride up near enough to strike him with my whip. But my horse was afraid, and I could not strike him as I wished."

"I did not blame him very much either, for the old Croatan threw himself into a coil, raised his head, and rattled his rattle, and prepared to assume the offensive as soon as he saw us. Finding that I could not strike him with my whip, I rode over to one of the wagons and got from the driver his long four-inch-hand whip, and with this I returned to the snake. I found where he lay, and I hit him, and when he saw me he tried to run away. They are sluggish creatures, however, and cannot go very fast. I had a fancy to tease him a little and I swung the whip so that the end of the lash in falling would tap him gently on the nose. As soon as he felt the snap he took a watchspring into a coil, showed his war note and turned his head quickly from side to side to discover his enemy, his forked tongue darting incessantly from his mouth."

"It was sometime or thirty feet away, keeping perfectly quiet, and he did not appear to notice me at all. I fancy their range of vision must be very short. After a few minutes he lifted his head and looked to the ground and prepared to glide away in another direction. I let him get fairly started, then I tapped him on the nose, and again he coiled to strike. He repeated a number of times. The snake always started away in a new direction, only to meet that uncomfortable and aspersing little tap. After each stroke he would prepare to fight and would look in vain for his assailant; and with each encounter his anger seemed to increase."

"At last, having tried unsuccessfully every avenue of escape, he became beside himself with rage. His rattle buzzed in his mouth, and he raised his head nearly half his length above the ground and swayed from side to side. His eyes glittered like fire, and his forked tongue flashed from his mouth like miniature lightning. His head became broad and flat, and his whole body seemed to swell with venom. Suddenly, in an act of fury, he raised his head and with the full force of a swinging log of his neck, like the down stroke of a sledge, he drove his fangs into his own body. He kept his head down and did not withdraw his fangs. His body writhed and twisted for an instant, and his muscles contracted. Then his head came down, the fire died from his eyes, his coils relaxed, and he was dead."

"When I got down to my farm in Hardin County last week," said a Louisville lawyer to a newspaper reporter, "I found my men still talking about the snake and the man killed during the last snow. Silas Warner, who manages the farm, was passing through a small apple orchard on his way to the barn, and he found the tree covered with earth for winter use. He carried a hoe with which to dig out the turps. As he walked along a small footpath he saw a snake coiled under the spring for water he was surprised to see half the body of a big cow snake, almost erect, and fanning the air vigorously."

"He stopped in surprise, for snakes in motion in the winter time are most unusual. The snake's body dropped down and the ground beneath it sank and he seemed to be resting. Then the body again assumed a motion, and the tail began to crawl. He stepped back and the quick thrashing of the tail was repeated. Warner waited for the same programme of action to be gone through for a third time, but the snake did not move. He then the old began to make it self felt, and Warner resolved to investigate the reptile's queer actions without delay."

"He walked over to where the snake was and found the front half of the reptile buried in a small opening in the ground. It was kept from going entirely into the hole by a big round ball that was about the centre of the snake's body. Warner pulled the snake out of the hole with the hoe, and he found it was a cow snake. He cut the snake in two. What was his surprise to find that the swelling was caused by the coarseness of the ground under which he was lying. The snake was found that it was still juicy and apparently fresh. Where and when the reptile swallowed the globe was quite plain to Warner. The only man who had ever known of globe lived about three-quarters of a mile away from my farm."

The Buffalo Gap country in Texas claims a dead dealing madman whose fatal quest for a woman's love has ended in a tragedy.

The young woman is 21 years of age, and says it is only recently that her singular power became manifest. Her hair is of a peculiar color, and she is exceedingly long and thick that she suffers to hang down it completely envelops her person, and the curling ends of the coils are so thick that she cannot see. It is in point of fact, she possesses a genuine article of "shining hair."

So strong is the current of electricity playing constantly through her hair that one strand of it will give a shock to the person who is so bold as to touch it. She discovered her singular power one night when she was sleeping down to fondle a pet kitten. Her loose hair fell all about her, and she was so frightened by the power that she fled to the cat with a crackling noise, killing the poor creature instantly. Since then only a few people have had the hardihood to experiment with the matter, but all who have touched her hair are convinced of its electric power.

A young physician in the old-time town of New York, who went to the interest of science, almost died of the repeated shocks he received thereby.

The young woman who is greatly annoyed at the sensation she is creating, and threatens to cut off her hair if people don't stop bothering her about it, as a miracle, and also afraid for her to tamper with it, as they say, lest some injury will befall her.

Bright Sayings.

"Think you'll make me cotton this year?" "Yes; if the worms don't eat it."

"And corn?" "Yes; if the dry drought doesn't kill it."

"And peaches?" "Lots; if the blizzard don't blight 'em."

"How's 'possums?" "Wall, if my dog don't hunt, that's no lots of 'em!"—Atlanta Constitution.

Artlessly Artful.

Lady (artist)—Have you noticed the new art in the show bills?

Philistine—Yes; but if that art, I am a fool.

Lady—It is; but if that art, I am a fool.

HIGH UP INTO THE SKY.

AERONAUT HAZEN'S DARING VOYAGE IN HIS STEEL AIRSHIP.

Dr. Benson's Recent Trip—He Ascends Over Five Miles and a Half, but Says Hazen Will Do Much Better.

Altitude Yet Achieved is 11,370 Metres.

Henry A. Hazen, the American aeronaut and inventor of the steel airship, is making a breaking-mile trip above the earth in an airtight steel cage, fitted with parachute and steering gear, that will permit him to use a boat if need be. The ascension will be made at some point out west. Meteorological experts and all persons who are interested in ballooning will watch this novel experiment with lively hope.

The Kaiser himself took a lively interest in the trip, because one of the results foreshadowed is the solution of the air-cure problem of the direction of the air current. This has special military importance, affecting, as it does, another problem agitating military strategists, viz., how to break the destructive and chemical-bearing airship over a variety of the war of the future?

Hazen will substitute for the ordinary open basket a cabin furnished with pure oxygen, and with apparatus for producing either heat or cold in an emergency. It will be a closed arrangement for generating and passing upward through direct tube connections any amount of gas to replace the gas in the balloon.

Therefore, they will do away with some of the greatest difficulties of balloons have heretofore encountered.

Dr. A. Benson, in his airship, the balloon Phoenix (old-fashioned in comparison with Hazen's projected airship) ascended to a height of 15,000 feet, or 5,600 feet, on Dec. 4 of last year, and who is about to publish his experiences of that extraordinary trip, points out that the chances of the Hazen party's gathering exact meteorological data will be very favorable.

"The American scientists," he said, "who have taken five miles higher than the highest point ever reached by man, and what is more important, the construction of their airship will permit them to do all their mechanical and physical capacities in good working order, backed up by the finest and most advanced scientific instruments ever used."

In his report, Dr. Benson will record the following achievements of his trip into the clouds: Height reached 6 miles. Discovery of abnormally cold temperatures at their level. Work of insulation or exposure to the rays of the sun at the greatest height. (Benson experienced quite the reverse during his ascent in May, 1894.) The encountering of humidity above five miles, and the prevalence of vapors at a height of six miles and a quarter.

When Benson started there was no wind at all. He made the ascent in five hours and seventeen minutes. He started at 10 o'clock a.m. Hazen intends to cut loose his balloon at early daylight in order to afford sufficient time for a long, eventful exploration.

At the last moment the aeronaut decided not to take along an eighty-pound anemometer. At the height of a mile the thermometer showed five degrees. After an hour at that height the thermometer showed ten miles, the temperature fell to eighteen degrees; the air was very dry.

When Benson at the height of two and one-half miles the thermometer showed thirty degrees, his heart began to beat and ache violently. At 11.40 o'clock the height of three and three-quarters miles had been reached. The thermometer showed 35.5 degrees. His heart then was beating violently, but not so violently as before; his senses were slightly benumbed. After 12 o'clock there was a heavy rain, and the temperature then was 29 degrees; height four miles and a quarter. Considerably revived by the oxygen, Benson reached the top of his sack at 12.25. He had reached five miles; the temperature was 38 degrees.

While continuing his official exploration he felt fully capable of performing the work before him. Only once he caught himself napping, and began railing furiously at the clouds. As he uttered the words his voice sounded loud. Benson could see nothing of the earth, which was completely hidden by the clouds. He was with his head down to the basket. "When I reached the height of five miles and a quarter," said Benson, "I thought of the two French aeronauts who died after ascending to the height of 8,000 metres, or five miles and a third; I remembered the fact that in 1892, reached these figures on the instrument, only to swoon away a second later; I thought of the fact that the further progress of the balloon, the further of risking his and his employers' lives."

At the height of five and two-thirds miles. It shot through the cirro-stratus clouds, which consisted of small snow flakes. At 12.45 o'clock his barometer registered 31 millimetres; that is, it showed that I was at an altitude of 5,600 feet. The thermometer showed 29 degrees. The insulation thermometer registered (in the full glare of the sun) 33.5 degrees. Temperature, 47.9 degrees.

"The cold heavens, above me then bore a pale blue aspect, and at this height I saw the sun's light shining during the last hour and a half. I suppose I could have gone higher, but desisted, fearing to jeopardize the chances of the expedition. When the clouds had descended to five miles and a half, it suddenly shot upward, but I managed to regain control of it quickly."

"Half an hour after reaching the highest point I was still at an altitude of three and three-quarters miles; the cold was terrible, and I had hard work keeping my fingers from freezing. Even the barograph, which records the variations in atmospheric pressure, was stopped by the cold."

The Phoenix consumed two hours and twenty minutes in reaching its highest point, and it took him to rise 11,370 metres, or over seven miles. His barometer registered 175 millimetres, his thermometer 34.5 degrees.

"Boys," said a teacher in a Sunday school, "can any of you quote a verse from Scripture to prove that it is wrong for a man to have two wives?" He paused, and after musing a moment he raised his hand. "Well, Thomas?" said the teacher, encouragingly. Thomas stood up and said: "No man can serve two masters." The question ended there.

—Boston Home Journal.

HAS HE TWO GREAT AUKS?

Strange Birds Staying With a Farmer Give Him a Good Reason for His Opinion.

According to a Tillamook County (Ore.) farmer, the species of sea bird known as the great auk is not extinct. He declares that two birds of this family, presumably a male and a female, have been roosting in a very large spruce tree near his place for several months past. The bird is a field glass settler, who is a naturalist of local renown, he claims, identified them beyond doubt as fine specimens of the great auk family.

From their actions the settler believes that the birds remain in his neighborhood, possibly raise a brood of young ones in the spring. He is encouraging them to stay, by giving them access to his wheat field, where they feed every day after the manner of geese.

It is highly improbable that the birds visiting the Tillamook farmer are great auks. The famous bird, before its generally credited extinction, was found only on the coast of the Atlantic in the north and in Northern Europe. The fact that they have built their nests in a spruce tree and not on the beach, is also a point against the farmer's theory.

The great auk's wings were so small as to be totally useless for flying, serving, however, as powerful swimming organs. It was because of the bird's inability to rise on wing to the higher cliffs that it laid its egg—it laid but one at a time—on a very rock close to the water's edge.

The auk's remaining powers were so great that very few indeed have ever been captured alive.

In the autumn of 1821 Dr. Fleming, while on a cruise through the Hebrides, observed and described one which had been taken alive in the sea off St. Kilda and put aboard the packet. With a rope attached to one of its legs this specimen was occasionally allowed to disport itself in the shallow element, where it astonished every one by the rapidity with which it swam under water. On one of these occasions it broke loose and was soon beyond reach of the captives. It was not until several years before that the specimen was recovered. It was a male, and was one of the Orkney Islands, but in spite of the exertions of the crew of the steamer it was not recovered for several hours, the auk could not be overtaken. This specimen, however, was afterwards recovered and is now in the British Museum.

The great auk measured about three feet in length, had a large bill, and, as stated, small wings. The fact that the species is supposed to be now extinct gives great value to the remains now existing. According to Prof. Newton, there are only six specimens of the great auk skeletons—thirty-eight or forty-one detached bones of different birds and sixty-five eggs.

Said the Tillamook farmer's birds prove to be great auks he will be well repaid for any trouble or expense in the way of the destruction of his wheat field. One of the sixty-five eggs is now in the possession of the farmer, and he is in existence was sold recently in England for \$1,000 in gold. At this rate one of the great auk family would be even more valuable than the goose which laid the golden egg.

MRS. STOWE'S GREAT WORK.

Though Her Last Days Are Dark, She Has Achieved Much.

It may be that Mrs. Harriet Beecher Stowe will live for some time, though she is approaching her eighty-seventh birthday, but her mind is irrevocably gone. Mrs. Stowe's life has been most eventful, and she has taken part at once of gloom and grandeur of the epoch in which the best of her work was done, the period immediately preceding the civil war. She was a child of the great abolitionist, "the genius of goodness," as George Sand has said of her, "not that of the man of letters, but of the saint, pure, simple and profound, the spirit that fathoms the recesses of the human soul."

When she was but a child of twelve she chose for a school composition this profound theme: "The great importance of the Soul Be Proved From the Light of Nature?" and her father, Dr. Lyman Beecher, was astonished at the strength of vision of her arguments in the negative. Perhaps her great brain is paying the penalty of these juvenile efforts. It was the influence of her father's work, the abolitionist, which turned even her childish thoughts toward the inequities of slavery. Her progress at her private study was rapidly "Butler's Analogy" and could read Latin, Greek, French and Italian with ease. She was with her father with southern life began after she had married Professor Stowe, and she then made a most careful study of slavery, while living in her father's home. When she returned to New England a few years later she found that many good people were not in favor of abolition because they did not know what slavery really meant. So she resolved to teach them, and wrote "Uncle Tom's Cabin." It did not make much money, but it was a first-class novel in a newspaper in 1851, but soon its fame began to spread. In book form it made a still greater sensation. Half a million copies have been sold since, and it has been translated into nearly every known language. She has written a score of other important books, but none has approached "Uncle Tom's Cabin" in popularity. Although a competent critic as James Russell Lowell thought her fame would rest eventually upon "The Minister's Wooing." She has written but little since 1851, when she published the defense of Lady Byron, which at that time created such a sensation. Her health has been poor, and her mind has deteriorated faster than her body.

QUEER COLOR-BLINDNESS.

A Boy Living in Norwich, Sees Green for Red, While Blue Looks Yellow.

A peculiar case of color-blindness exists in Norwich. Dr. Homer E. Smith reports that one of his patients has a peculiar faculty of transposing colors. To him red appears to be green and green blue, and blue yellow. He sees yellow like blue. White is brown to him and brown is white.

This youngster has the further accomplishment of being able to sign his name as well with eyes shut as when they are open. He also suffers from microscopia, whereby everything appears to him smaller than it really is. Experts say this perversion of the color sense comes from some trouble in a brain disease which sometimes plays havoc with its victim's ideas of the external world. Colors appear all jumbled up, as it were, though sometimes one color is more prominent than the rest. This is called chromopia. Under its influence everything appears red, yellow or green. Another remarkable case of color blindness is that of a person who sees so that a book can only be read when upside down.

Patch Orief with Proverbs

but don't try to patch up a lingering cough or cold by trying experimental remedies. Take

PYNY-PECTORAL

and relief is certain to follow. Cures the most obstinate coughs, colds, sore throats, in fact every form of throat, lung or bronchial inflammation induced by cold.

We are Agents for Swiss Steam Laundry, Toronto.

SPECIAL VALUES IN**BOOTS and SHOES**

For 15 days at J. J. KERR'S.

Twenty-five cases of new Boots and Shoes bought from "a hard-up" manufacturer at about one-half actual cost of production. This is the greatest opportunity for the people of Deseronto and vicinity to buy their spring foot-wear at about the cost of production.

Note carefully a few of the following prices:—

LADIES' Oxfords at 69c, worth 90c.

LADIES' Oxfords Tips at 75c, worth \$1.

LADIES' Buttoned Boots at \$1, worth \$1.25.

LADIES' Bala. at 99c, worth \$1.25.

LADIES' Dong Buttoned Boots at \$1.25, worth \$1.75.

MEN'S Bull whole Foxed Bala. at \$1.35, worth \$1.75.

MEN'S heavy Working boots at 85c, worth \$1.

As it will be impossible to repeat these goods at these prices parties in need of Boots and Shoes will consult their own interest by coming direct to us.

STRICTLY CASH AND ONE PRICE.**J. J. KERR.**

Main street, Deseronto.

We are, to-day, opening a second consignment of

SPRING IMPORTATIONS.

which will be passed through the Customs and placed at the disposal of customers on Saturday, the 13th inst. The public are fully aware of the superiority of the lines we import, and of the fact that we keep our season in advance of the Wholesale trade in Canada.

Mr. Hall has a complete stock of imported fabrics for Spring and Summer wear. Call early, as orders are being placed rapidly.

You can get all the leading lines of foot wear from us—newest styles and best makes.

Cooking Stoves and Ranges, for wood, coal or gas; best assortment in Canada. Also Tinware and all kindred goods.

Groceries and Provisions all bought on a wholesale basis and sold accordingly.

We want all the Produce Farmers have to dispose of.

Your patronage is respectfully solicited.

THE BIG STORE.**THE RATIBUN COY.**

FRIDAY, APRIL 19, 1895.

NEWS OF THE DAY.

The Empress of Germany is ill with influenza.

The steamer La Gascogne, from Havre to New York, brought 1,440,000 francs for Cuba.

Farr, the engineer, arrested at Winnipeg on a charge of trying to burn up his police station, and family, escaped from the police.

The ice on the St. Lawrence in front of Montreal broke up Monday morning, and the channel is now free.

The Car has refused to abolish the law prohibiting Jews from living within fifty yards of the Russian frontier.

Steam street railways are more common in Italy than in any other country. There are now nearly 2,000 miles of such lines.

Tremendous prices are being paid in London for prime poultry. A goose or a pair of ducklings cost a guinea (about \$2.25).

Many rivers in New Hampshire, affected by recent rains, have risen so high as to necessitate the shutting down of many mills.

Petitions containing 70,000 names have already been presented in the British Parliament against the proposal to disestablish the Welsh Church.

Jacob Book, an old and highly-esteemed resident of Port Elgin, committed suicide Monday by hanging himself to a beam in the loft of his stable.

The five convicts who escaped from Mattawan lunatic asylum have been captured, including Fretz, the notorious express robber.

Large proportions are being assumed by the butter export trade of the British-Australian colonies. From July to February Victoria alone shipped 30,000,000 pounds.

The Paris Figaro gives currency to a rumour that Dr. Nansen, the Arctic explorer, has discovered the North Pole, and that it is situated on a chain of mountains.

With a view to fostering British trade with Japan, the British Trade Journal will issue in that country a regular quarterly edition. It will be printed in the Japanese language.

Peat is being successfully used as fuel for engines in some parts of Continental Europe. Experiments are being made in Germany to extract gas from peat, in which a considerable amount of energy is stored.

Out of 253,177 recruits incorporated into the German army in 1893, there were 617 who did not know how to read and write, or 24 in 10,000. In France, during the same year, among 343,651 conscripts, 22,090 did not know how to read and write, or 645 in 10,000.

Berlin has direct telephone connections with 250 localities. Communication by this means has reached a higher state of development in Germany than in any other country. The capital alone has 22,070 subscribers, nearly as many as the whole of France.

ADVICE TO OWNERS OF HORSES.

A POSITIVE CURE FOR SCRATCHES, GREASE, HEEL, ETC.

A man you all know, and a man of experience gives the following:—

"I have used Dr. COLEMAN'S PASTE for scratches and grease heel on horses, 'in my stables,' and from principle alone must say it is the only remedy I have ever found that will cure. I have tried everything I could get, but without success. Dr. COLEMAN'S PASTE, being a new preparation and highly recommended, I determined to try it. The one 25 cent box cured the worst case of grease heel ever in my stables in three days. I consider it just what all horsemen require. Try it once."

Yours truly,
(Signed) C. A. ANDERSON,
Anderson's Livery and Bus Line, Napanee.
Upon receipt of price 25 cents, I will mail 1 box Coleman's Paste, post paid, to any address, under a positive guarantee.
DOUGLAS BRO. & CO., Napanee,
Sole agents for Canada.

31-J-7

A CHAPTER OF ACCIDENTS.

Mr. George Salisbury, Huntingdon, who has a portable saw mill near Sheffield Station in Hungerford, on the 11th inst. had his leg caught between two logs, breaking it above the ankle and otherwise badly bruising it. He was attended by Dr. Mathew of Tweed, and will recover.

Mr. George Morton, living at Moira, was loading a gun in the house on the 14th inst. when from some unaccountable cause it went off, the charge cutting off his second finger and destroying the flesh of the next finger. There were a number around at the time of the explosion, who were naturally much excited. The charge went through the ceiling above. Dr. Hudson is in attendance and the patient is doing as well as could be expected.

METHODIST CHURCH.

The services last Sunday were attended by large congregations. The pastor delivered eloquent sermons on themes appropriate to the day. The floral decorations were very artistically arranged, and produced a fine effect. The music during the day was well given by the choir.

There was a large turn out at the Sunday School. Superintendent Richardson was out for the first time after his illness.

The pastor will conduct the services next Sunday. All are cordially welcomed.

SEPARATE SCHOOL SECTION, NO. 10, TYENDINAGA.

EASTER EXAMINATION.
Fourth Class—Maximilian, 500—Clara Murphy 413, Maggie Hart 407, James Ford 384, Letitia Forestry 342, Lizzie Hart 286, Maggie Bennett 275, James Murphy 263, Michael Roache 234, Kathleen Murphy 179, K. Murphy absent from greater part of examination.

Perfect lessons for March—in order merit.

Fourth Class—L. Forsyth, C. Murphy, J. Ford, J. Murphy, K. Murphy, M. Roache, M. Bennett, L. Hart, M. Corrigan, M. Hart, R. O'Hara.

Third Class—K. Roache, M. E. Bennett, D. Corrigan, J. Williams.

Second Class—R. Farrell, D. Murphy, J. Bennett.

Port Second Class—T. Callaghan, J. Murphy, J. Farrell.

By consulting our opinion you escape any injury to your sight and ascertain the proper cause to pursue regarding the eye disease. Testing Room, Angus McFee & Co., 272 Front street, Belleville.

PERSONALS.

Dorland Ellis is quite seriously ill.

Chief S. Green was in Ottawa this week on business.

Wellington Boulter, of Picton, was in town on Tuesday.

Mrs F. D. Mott left yesterday for Rochester, N. Y.

Miss Kennedy was visiting in Kingston last Saturday.

Mrs. Bookman Hogle was visiting friends in Napanee last week.

R. W. Finnegan, of Leinster, gave us a call on Wednesday.

P. Slaven was in Toronto this week making spring purchases.

James McCullough, of Londale, was in town on Tuesday.

Peter, the sailors' missionary, was in town on Tuesday evening.

H. A. Dean, of the Bank of Montreal, was in Belleville over Easter.

Miss Poitra is visiting in Belleville as the guest of Miss Hattie Hudson.

Miss Allie Brown has been visiting friends at Marlbank and Tamworth.

Miss Thornton has been spending the Easter vacation in Toronto.

Miss Lena Richardson accompanied her father to Toronto this week.

Harold, Marvin and Ernest Rathburn returned to Port Hope yesterday.

Miss Anderson, of the Public School, is spending the holidays at Dunbar.

Mrs. Joseph Carwell has been quite seriously ill during the past two weeks.

Chas. R. Gordon and J. E. Chambers were visiting in Belleville last Saturday.

J. L. Wright, of Albert College, Belleville, spent the Easter vacation in Deseronto.

John Harvey, of the Big Stone, has been on the sick list during the past week.

James H. Hickerson, Shannonville, was in town on Tuesday and favored us with a call.

Thos. Roach, Jr., of Gananoque, spent Saturday in town in the interest of his call.

Mrs. Wm. Smeaton, of Belleville, is visiting her sister, Mrs. H. Cook, Dundas street.

Mr. and Mrs. J. Marrigan, Jr. spent several days this week with friends at Gravenhurst.

C. R. Weese, granite and marble dealer, Belleville, was in town this week on a business trip.

D. Walker, of the Brockville high school, spent a few days in town during the past week.

Miss McMillan, of the Public School, is spending the Easter vacation with friends at Hamilton.

John Hoppes, of Syracuse, N. Y., paid a few days visit to his family here during the past week.

Mr. and Mrs. Robert Masie were visiting friends in Kingston for a few days during the past week.

Mr. and Mrs. J. Moody, of Orangeville, have been visiting their daughter Mrs. W. J. Malley, Mill street.

The Misses Carnovsky, of Toronto, spent a few days in town as the guests of Mrs. J. Hoppes, Stanley avenue.

Capt. Hicks, of the steamer Varuna, and Mrs. Hicks attended the wedding at North Fredericksburg last week.

James Stoddart, editor of the Prescott Journal, spent Easter in town as the guest of his parents, Gale cottage.

Mrs. Wm. Gracy has returned home after spending the winter in Lindsay and other places in Victoria County.

Mrs. Henry Carman and Mrs. James Carman, of Greenpoint, who had been seriously ill, are now recovering.

Mrs. Taft and Mrs. (Judge) Forbes, of Worcester, Mass., spent a few days during the past week visiting Mr. and Mrs. E. C. French.

Wm. Hazel, of Gananoque, was in town on Wednesday and favored us with a call. He stated that his sister-in-law, Mrs. Andrew Reid, was dangerously ill.

A. A. Richardson, superintendent of the Big Stone, has been in Toronto this week making purchases for his department.

Mrs. A. M. Chapman and Miss Lilly Chapman, of Frankford, were the guests of Mr. and Mrs. E. R. Chapman for a few days during the past week.

J. B. Richold, of the B. of Q. office, arrived home from England last Tuesday, having spent the winter with his parents.

He came over on the Paris which had an exciting race with the Lucania. It is evident that the roast beef of Old England agreed with him.

Remember the Social of Daughters of Rebekah at Mrs. E. T. Miller's Thursday evening, 26th; admission 10 cts.

THE WILD FLOWERS OF CANADA.

The first portfolio of the "Wild Flowers of Canada," published by the Montreal Star last issue, The Wild Flower portfolio is just issued. The Wild Flower portfolio is the beginning of what eminent judges say must prove one of the most important works yet published.

The Wild Flowers of Canada are being received with widespread evidences of enthusiasm. Those who have seen the entire series say they are splendid. Leave your orders at THE TRIBUNE office.

READERS—

At Miles & Plumley's, Napanee, is the place for your best and most profitable spring use for spring use. He has the right to sell "The Farmers' Level" which every farmer should use when making drains, it is recommended by the leading Civil Engineers and Land Surveyors of the Dominion. Be sure you call and see it when in Napanee. The genuine "Level" is sold only by him in Napanee. Call at his sale room opposite the Hickey House and he will be pleased to show you the goods he handles and he will pay you Cash for your Eggs, Skins, Hides, Tallow, etc. Remember the place.—Miles and Plumley's, Napanee.

Hynes 957, Herbie Hatch 928, Eddie Province 916, Harry Morden 888, Wilfred Tucker 893, Frank Maloney 862, Nellie Baker 859, Florence Taylor 846, Aubrey Low 807, Maud Parnham 734, George Rayburn 749, Harry Hatch 734, Norma Dunwoodie 716, Willie Wright 705, Martin Stanton 689, Willis Scott 676, Mabel Gorman 632, Lorn Lyle 564, Lulu Booth 553, Fred Lloyd 550, Geo. Hynes 547, Mabel Young 515, Maggie Crook 511, Ernest Stanton 498, Edith Smith 482, Ernie Solmes 466, Laura Gowan 427, Earle Parks 410, John Gowan 387, Albert Carter 323, Fred Parnham 306.

EASTER VESTRY MEETING.

The annual Easter Vestry meeting of St. Mark's church summoned to elect church officers for the year now beginning and transact the usual business, was duly held on Easter Monday evening in St. Mark's Hall, the Rector presiding. A very satisfactory financial statement was presented on behalf of the Wardens, Rev. H. N. Nasmith and F. Donoghue by the Secy.-Treasurer, E. A. Riken. It may be summarized as follows:

Actual income for the year \$1744 15

Expenditure " " 1707 48

Apparent overdraft 13 33

Sundry payments still due 110 00

Due 1323 33

Less arrears to come in estimated at least 53 33

Leaving indebtedness \$70 00 for the year as against \$223.86 at Easter 1894.

Messrs A. H. McCauley, W. W. Lloyd and Ed. Wilson were appointed Auditors. F. J. Rogers was elected People's Church Warden and Rev. T. Stanton appointed W. J. Malley as Rector's Secretary.

A Burrows was elected Secy.-Treasurer. The following Finance committee was elected: West Ward, Jas. Saxsmith and R. W. Lloyd; Centre Ward, R. Carroll and J. J. Kerr; East Ward, T. J. Naylor and T. Gault.

The following were elected Stewards: T. Naylor, R. W. Lloyd, Jas. Saxsmith, R. Carroll, J. H. Wilson and Milward Crook. W. E. Donoghue was elected Lay Delegate to Synod in place of W. S. Eggar whose term of office has expired. This leaves the present representation as follows, to retire in order named: Ed. Wilson, Jas. Saxsmith and F. Donoghue.

Notes of thanks for valuable gifts of widows placed in the Church during the past year were tendered to J. M. Oliver, Mr. & Mrs. E. G. Folkes, Mrs. Stanton, Senior Mrs. S. S. class (1893), the Confirmation class (1894); to Mrs. J. French for the handsome altar cloths and fittings presented last summer; to the Church Women's Aid Society for the very substantial assistance rendered during the past year; to the Decimal Collectors and their Treasurer for most acceptable aid during the same period; to the Choir-master and Organist for the very efficient manner in which they have performed their duties during the past year; to the Secretary-Treasurer and the retiring Church Wardens for the very creditable assistance given to this vestry.

The Choir Master, H. C. Forke, having expressed a desire to take a course of vocal training which would render his remaining in the choir impossible during that period, the temporary resignation was regrettably accepted and the hope expressed that ere long he would be able to resume choir work and with characteristic vigor and ability continue to extend his services which have been so much appreciated by the congregation in the past. The meeting adjourned until Monday the 22nd at 8 15 p.m.

CASH PAID.

For Eggs, Deacon Skins, Cow Hides, Horse Hides and Tallow at Miles, S. Plimley & Napanee.

Florence Brockway (as Toppy) who started with the Andrew McNeil of U. T. Com. and passed through America during the seasons of '93 and '94, has signed contracts with the Walker Bros. for the coming season.

Our Tyndings Reserve correspondent gives particulars of an unfortunate accident which befell Rev. G. A. Anderson, the venerable rector of Tyndinaga, and Miss Anderson, his daughter. Mr. Anderson has been in very poor health during the past winter, and the shock which he has sustained at this time must prove serious, and grave, therefore with the prosecution of his work in his extensive parish.

SCHOOL BOOKS

—VERY CHEAP AT—

THE - TRIBUNE - OFFICE.

FORBORD.

A. C. Paullner is having a new building
erected for his agricultural implements
agency.
S. Westover has commenced to excavate
for his new house.
Mr. Butterfield, of Belleville, has leased
the Ashley stock farm.
The sum of \$27 was realized by the South
church concert.
A. Reid is greatly improving his dwelling.
C. Dufresne has purchased the property on the
corner of Main street and Stirling road and
will fit it up as a store and dwelling.

BLESSINGTON.

The farmers are making rapid progress
putting in the seed at present.
Mr. Jas. Geddes, of Michigan, is visiting
at Mr. D. Beatty's of this place.
A few of our young people spent Sunday
afternoon at Mrs. L. Ross.
Mr. Martin, of Lonsdale, filled our pulpit
on last Sabbath morning.
Mr. W. Cook and wife have taken posses-
sion of Mrs. H. Reid's farm for the summer.
Mr. J. Palmer returned to his home in
Prince Edward last Saturday after spending a
few weeks in this vicinity.

EMERALD.

We were all glad to see the Hero again on
his route last Tuesday. It brightens the ap-
pearance of things to see the vessels passing
up and down.
Measles are again prevalent in many parts
of the island.
The new dairy is about completed. The
young men will open it by a grand ball.
Football practice has again commenced.
Several farmers have commenced work
with warm weather they will soon all be
very busy.
The discussions of the Mutual Improvement
Society continue to afford much amuse-
ment and instruction.

HILLIER.

A great many have been ill with German
measles.
Farmers are all busy sowing; the weather,
however, has been backward.
Fall grain is looking very well in this dis-
trict.
A great many Patrons attended the meeting
at Picton. They are very confident of elect-
ing their man at the coming election.
James McComb, who died at Massawaga,
was buried here last week.
James Young, a very old resident of the
township and Mrs. Anderson, who lived with
her daughter Mrs. B. Howe, were buried on
the 18th.
Mr. and Mrs. Daniel, of California,
are staying here at present.
Mrs. Locklin, of Montreal, is visiting her
daughter Mrs. Thos. Turvey.

WALBRIDGE.

The annual meeting for the election of
officers of the Methodist Sunday school was
held on Tuesday evening. Results will appear
next week.
Many were pleased to see Mr. Gallup in charge.
This is the third year he has been situated here.
By his earnest efforts on behalf of his people
and his uniform kindness, he has succeeded in
winning a large place in the hearts of the
people of this place.
We are pleased to see Mr. Wilmot, our
township treasurer, who has been ill all win-
ter, is around again.
A meeting in the interests of the Women's
Missionary Society was held by Miss Massey
in the Methodist church. A large number
were present and listened to an excellent pro-
gramme furnished by the ladies of Chatterton.
Farmers are rejoicing over the fine wheat
and the work of seeding is now fairly com-
menced.
The boys of our school are developing their
muscle by kicking the football.

BARDOLPH.

I thought you would be pleased to hear
from the pleasant place.
Mr. Bert Miller is home again after attend-
ing college at Belleville. Welcome home,
Bert.
We are sorry to relate the death of Mrs.
H. Rathban who died so suddenly on Mon-
day last at her home at West Lake. Her
body was brought to her mother's, Mrs. Peter
Hicks, on Wednesday. We sincerely sym-
pathize with them in their bereavement.
Miss Rosetta Lewis is spending a few weeks
with her sister Mrs. Sidney Woodcock.
Miss Flora Wainman is home again after
visiting her brother, Mayor Wainman, Belle-
ville.

I wonder why it is that a certain fellow
of Hay Bay takes another of this place for a
drive down to Bethany so often. We want
any way who it is will be.

Found—An individual wandering around,
quite tall, light curly eyes, blue hair, wearing
a light cap and dark clothes. Can have prop-
erty by paying Sunday expenses.

READ.

The long expected fine weather is here at
last and farmers are being engaged putting in
their spring grain. We hope they may be
amply rewarded for their toil.
Our cheese maker is engaged getting every-
thing in readiness to commence operations on
Monday.

Mr. Chas. Collins purchased a new wagon
on Saturday and intends to commence hauling
milk to the Koonland on Monday.
We are glad to announce that Mr. John
Hunt, who has been seriously ill for some
time past, is able to be out again.

Mr. Jas. Meagher and Miss Annie Lavigne,
of Maribant, were married on Monday at
Ernest.

The next time you call, Jim, please the
two deer to something else as lumber is
too dear to have the board fence carried away.
Mr. John Smith is busy drawing material
to rebuild his house which was destroyed by
fire last fall. Mr. Leonard has the contract.
Our village carpenter is busily engaged at
present building a roller. Some other attrac-
tion, Mike.
Sunday night was very dark, rather incon-
venient, better wait till daylight, Johnny.

ODESSA.

The farmers in this vicinity are busy with
spring work.
Mr. Harry Jones is learning the tailor
trade with Mr. Kenyon.

after spending the winter in Montreal.
We are pleased to see Miss Fieda Clark
around again after her long illness.
Mr. Dodge, of Milford, returned home this
week.

Miss Henderson, of Kingston, was the guest
of Miss Lewis on Thursday.
Mr. S. Ford is bustling and will open up
business in a few days.
Spring has come and the sports of the
summer are ahead of us. Mr. Ross is again
a B. C. C. and keep up the reputation of the
town?

TYENDINAGA RESERVE.

The Rev. H. B. Patton of Deseronto, con-
ducted services at All Saints church on Sun-
day afternoon last.
She 23rd inst. was the 45th anniversary of
the Rev. Mr. Anderson's first advent to the
Parish. Scarcely a dozen of those who were
adults and took part in the first service held
in Christ church are now with us.
Principal Chief Sampson Green visited
Ottawa last week on business affecting the
interests of his people.
The Rev. Mr. Anderson is still suffering
from the effects of his late accident. He has
received innumerable acts of kindness from
his parishioners for which he feels grateful.
A school meeting was held in the brick
school house on Saturday, the 20th inst.
Two trustees were elected to replace those
whose time had expired. James Harvey and
Elias Martin are those elected.
Flowing, sowing and repairing of fences are
going on in all directions.
It is reported that the wedding feast of Mrs.
J. B. Martin's niece was held at the residence
of the ex-church on the 23rd inst.

CARMANVILLE.

Miss Lizzie Kearns spent Sunday with Mrs.
D. McKewen.

Blower, supplied with each bottle of Dr. Ag-
new's Catarrh Powder, diffuses this Pow-
der over the inflamed membrane. Painful-
ness and discomfort are at once relieved, in-
stantly, and permanently cured. Catarrh, Hay Fever,
Croup, Hoarseness, Sore Throat, Tonsillitis
and Deafness. 60 cents. At W. G. Eggar's.

DEATH OF MR. E. C. FRENCH.

It is with sadness that we chronicle the
death of Mr. Edward Clement French who
passed away about eight o'clock, on the
morning of Friday, 18th inst., after a linger-
ing illness of several months' duration. The
intelligence of the sad event, though not un-
expected, was heard with deep regret by all
classes in the community. Deceased was
born at Bergen, N. J., Feb. 18th, 1855,
was the son of the late Rev. E. W. French, D.
D., pastor of the Presbyterian church of
Bergen Heights, Jersey City, N. J.
Mr. French will be remembered by many in
Deseronto, as he frequently visited here and
often preached in the old Union Church.
He also assisted at the ceremony of laying
the corner stone of the Church of the
Redeemer. He was greatly beloved and re-
spected by his own congregation, and died
in 1885. Dr. French's father was a Presby-
terian minister, and his brother is also a
Presbyterian clergyman in Newark. The
mother of deceased died in 1858. She
was the daughter of W. T. Merrifield,
Esq., of Worcester, Mass., who, though
88 years of age, is still wonderfully active
and vigorous. The subject of this obituary
came to Deseronto about twelve years ago,
entering upon duties in the office of the
Rathbun Company. He was the first man-
ager of the Rathbun Company in Deseronto.
It was here that he met the late Mrs. S.
in which he took a great interest. Upon his
return from California where he spent some
time for the benefit of his health, he became
manager of the Rathbun Company, of New
York, a position he retained until a few weeks
before his death. He took a deep interest in music and
played very skillfully on the piano organ.
About two years ago his health began to
fail and it was evident that disease was
making headway. During the past winter
which was spent in Montreal consumption
of the throat set in and despite the best
medical attendance it made rapid progress.
A few weeks ago he came home to Deseronto.
He continued to grow weaker and weaker,
though Dr. Newton, who was constantly in
attendance did everything that medical skill
could suggest to alleviate the pain and give
temporary relief. The sufferer bore his
sufferings, often very intense, with rare
courage, forbearance and with
courteous consideration for those about him
which could not but elicit admiration. He
was sustained all through his illness by a
single child-like faith in the Saviour.
His facilities remained bright and clear
until a very few minutes before his
death and his end was peace. Deceased
was married on Oct. 22nd, 1884, to
Miss Louise Rathbun, daughter of the
late H. B. Rathbun, Esq., of Deseronto.
His marriage being the first to take place
in the Church of the Redeemer, Deseronto.
He is survived by his wife and also by
his son Guy Merrifield, now in his
sixth year, which child being born in his
infancy. The bereaved wife has general
sympathy in her affliction.

The funeral took place on Saturday after-
noon and in accordance with the expressed
desire of the deceased, was of a simple
character and as free from parade as possi-
ble. Religious services were conducted at
the house after which the remains were re-
moved to the vault of the Deseronto cem-
tery. The funeral arrangements were under
the direction of Mr. John Dalton, undertaker.

Sudden Death.

A very sudden death occurred at West
Lake shore, four miles from Bloomfield, on
Monday evening. Mrs. Henry Rathbun
was found by her husband on his coming in
from his work on the farm, lying dead in
the door yard, having probably succumbed
to heart disease. Neighbors had seen her
go out and during the afternoon as she
attended to her duties. Deceased, who had
been only married two months, was about
twenty-four years of age, and was the
daughter of the late Peter Hicks, of Mas-
sachusetts, North Frederickshire. The re-
mains were brought to her former home for
interment. The afflicted husband has
universal sympathy in his great bereave-
ment.

Jacqueson Steamship Service.

The Hay of Quill Railway and Naviga-
tion Company have resolved to make a new
departure which will be of great benefit to
business men in this district. Commencing
on May 1st, the steamer Ella Ross will
connect with the night trains from the east
and west. She will leave Deseronto at 3:30
a. m., arriving at Picton at 6 a. m. and at
Ottawa at 10 a. m. The service will not in any
way interfere with the regular day service
which will be continued as heretofore.
This extra service cannot but prove of
great convenience to Picton business men
and commercial men generally. The Ella
Ross is a very commodious steamer and
passengers will be able to make the trip in
the most comfortable manner possible.

While W. C. Reid, of Merivilleville, was

in the act of riding on the table he found
his right leg to be powerless. An examina-
tion it proved to be broken in two places,
softening of the bone being the cause. He
is 70 years of age.

DEATH OF AN AGED RESIDENT.

Mrs. Mason, wife of Mr. John Mason,
lighthouse keeper at Telegraph Island, died
on Thursday, 18th inst., aged 80 years, and
after a painful illness of 10 years. The de-
ceased lady who was held in high esteem all
through the district was a native of Cast-
le Connell, Kilkenny County, Ireland. She had
resided in the immediate vicinity of Solme-
ville for 26 years. She is survived by
her husband who is 80 years of age and
whose intellect is still bright and his memory
as good as ever. He had been suffering
from a slight stroke of paralysis and was
unable to attend to the funeral. The aged
couple have been faithfully attended by
their daughter, Miss Mason, Mrs. S. B.
Mason, Napanee road. The funeral was con-
ducted by J. M. Smith, took place on Saturday,
Rev. Mr. Marshall officiating. A large number
of friends attended and the remains were in-
terred in the laster cemetery.

FEVER-SORE CURED WITHOUT A
DOUBT.

Douglas Bros. & Co., Napanee, Ont.
Sirs,—Your Egyptian Liniment has
strayed to this part of the world, and has
produced some remarkable cures, notably
one, A. M. Hyde, of some bad Fever Sore,
and he says they were cured by your
valuable liniment. He is a white man, a
Canadian. Would be pleased to have your
figures, etc., for control of same in this
section.

Yours truly,
H. D. DENISON.
Howard City, Mich., 3d Feb. 1894.

TRADE RETURNS.

The annual Trade and Navigation returns
have just been issued. It is shown from the
book that the customs returns are \$1,781,888
less in the fiscal year ended June 30th,
1894, than in the previous year. The figures
are \$19,379,822 and \$21,161,710 respec-
tively.

The total imports were \$123,474,940 last
year, compared with \$129,074,208, a de-
crease of \$5,599,268.
The exports were \$109,383,858, the
figures being \$117,524,949, against
\$118,644,332 in the previous year.

The aggregate trade of the country last
year was \$240,858,888, a reduction of about
six and a half millions compared with the
previous year.

The exports to the United States fell
over one million dollars, but increased to
Great Britain by nearly four million and a
half.

LICENSES GRANTED.

The Board of License Commissioners, Deseronto
to East Hastings met on Monday at Canifon
to consider the applications for licenses.
They granted the following:—

Alderman Green's slaughter house in Belleville has quarantined beef and 40 carcasses of lamb and mutton are destroyed last Friday night. Insurance only \$750.

ARE YOU DEAD?

Or do you suffer from noise in the head. Then send 3 cent stamp and I will send a valuable treatise containing full particulars for home cure which costs comparatively nothing. A splendid work on deafness and the ear. Address, PROF. G. CHASE, Montreal.

When Baby was sick, we gave her Castoria.

When she was a Child, she cried for Castoria.

When she became Miss, she clung to Castoria.

When she had Children, she gave them Castoria.

The People Speak!

THEY SPREAD THE GLAD NEWS.

Paine's Celery Compound
Makes Them Well.

After Suffering for 18 Years the
The Great Spring Medicine
Cures Mrs. G. H. Parker.

Eighteen years of intense suffering, disappointment and anxiety!

Failure after failure with doctors and worthless medicines made me sad and dreary for Mrs. G. H. Parker, Winona, Ont.

After some persuasion, Mrs. Parker was induced to give Paine's Celery Compound a fair and honest trial.

What happy great results! Such a victory over suffering! Complete cure and renewed health!

The following is Mrs. Parker's unalloyed testimony:—

"I have been a great sufferer from neuralgia for nearly eighteen years; those sufferings at times were so bad that words would fail to describe them. After having tried every known remedy, and different physicians and receiving no help I was persuaded to try your Paine's Celery Compound, which I have been using for the past few months. I am happy to say that I am now a different woman and completely cured. I can recommend your Paine's Celery Compound to all my friends, for it has been worth hundreds of dollars to me."

Cold in the head—Nasal Balm gives instant relief; speedily cures. Never fails.

FROM DEAD EXPOSURE.

Miss Lillian Stephenson, aged eighteen, Frankville, left home on Tuesday evening, 16th inst., for a walk along the creek, intending to come back for tea. She was not seen again, and on the morning of the 18th, about eight o'clock after searching since nine o'clock, Tuesday night, her body was found in a fence corner. No marks of violence or foul play could be found. She was in her usual health, and wearing a black dress, with a red sash, and a black hat. Her body was found in a fence corner. No marks of violence or foul play could be found. She was in her usual health, and wearing a black dress, with a red sash, and a black hat.

ROAD IMPROVEMENT.

EXISTING GRAVEL ROADS.

Practical Hints by Which They May be Very Much Improved.

On a number of roads throughout the country, municipal councils have expended considerable money in reducing grades and putting on gravel, but in the majority of cases the gravel has been put on without any attention being paid to the reduction of grades or the proper formation of the road-bed. It has been found that these roads are very rough and unpleasant to drive on during the remainder of the year.

A remedy for such roads is:

1st. Have the road properly drained, according to the specifications herein given for the construction of new roads.

2nd. By the use of a road machine and a gang of men, remove the surface of the gravel and work to the gutters as hereinbefore described, leaving the road crown as if building a new one. See that the gutters have proper and uniform fall for the surface water, and that the trenches are made leading to the side ditches.

3rd. Put on a sufficient quantity of the best gravel obtainable to complete the crown of the road, and carefully watch it and keep it as it should be perfectly consolidated by the travel.

4th. Never neglect to see that the rake is sufficiently used to prevent the formation of ruts and maintain a proper crown to the road so as to secure the shedding of the water.

5th. Where grades are steep and irregular and can be reduced at reasonable cost, it is advisable to make such reductions before expending any further money on the road or grading, in which case the present gravel should be taken up and laid to one side, so that it may be relaid, but generally where there are slight changes to be made, it is better to leave it in order to secure perfect uniformity in grade.

There are two kinds of gravel—one that will pack under travel, and clean, rounded gravel which will not pack. It is due to a small proportion of clay or earthy matter contained in the former which causes it to pack. The best gravel is the Seaside and riverbed gravel consisting almost entirely of water-worn and rounded pebbles of all sizes, which easily move and settle upon each other, is unsuitable for road covering unless other materials be mixed with it, while pit gravel usually contains too much earthy matter. The gravel for the top layer at least must be hard and tough so that the wear will not pulverize it and convert it into dust. It should be coarse, varying in size from 1/4 to 1 1/2 inches in diameter; it should not be water-worn and should contain some of the clayey loam to bind it together firmly. Pit gravel usually contains so much earthy material that it should be screened, to render it entirely suitable for the surface layer. For this purpose two wire screens will be necessary—one with the wires from one and one-half to one inch, and another from one-half to one inch, and the pebbles which do not pass the large screen are to be rejected, or it should be broken up. In the bottom of the screens, while the earth, small gravel and sand pass the smaller one, although

A SHORT STORY.
COTTOLENE
is the best Shortening for all cooking purposes.

A TRUE STORY.
COTTOLENE is the only healthful shortening made. Physicians endorse it.

An OLD STORY.
that uncomfortable feeling of "too much richness" from food cooked in lard.

A NEW STORY.
Food cooked in **COTTOLENE** is delicate, delicious, healthful, comforting.

TO A SWEET LITTLE GIRL

No other little girl I know

Is half as sweet as you.

I think when you were made, they used

The sweetest sugar for two.

Why, then, are you so twice as sweet,

Why, then, are you so twice as sweet,

Better than most little girls?

And truly, you are so.

A MINISTERING ANGEL

It pleased Little Ayleswood to imagine

herself "a butterfly"; in reality, she was a

very commonplace sort of fly, who buzzed

about a good deal, and who, being so

little, and was somewhat tiresome

whether she buzzed or stung.

In her own opinion she was a "butter-

fly," flitting about among the perfumes

and pleasures of life, careless of the mor-

row. She liked to think that women of

the more serious sort despised her; if

he made her feel so feminine. The circum-

stances of her life occasionally threw her

into the company of busy women, and

gave her girl journalists, or enthusiastic young

art students, and these she would always

be glad to gratify with a little contempt.

"I'm such a first class girl," said Little

thing, she would say, "I am quite sure

you must despise me." She was quite

assured when she was with her, by con-

science, "Not at all," or a disconcerting,

"Why?"

At last, one Sunday at church, the

clerkman had such an unfortunately

penetrating voice that all her pleasant

planning of new frocks was dispersed.

There was no time on such an eligible

of the pews and the frocks as a former

time in church; a more exciting topic,

could one be found, might disturb the

meanings of the features of the

occasion; any less exciting would be

quite uninteresting; but that earnest

preacher simply preached accord—plac-

ing and rainbow words of Little

head. She went home with her mind

fixed on the success she might make in

an utterly different field.

Here in London, in this vast city tem-

ing with wealth and learning, there were

thousands of hopeless poor, blindly trad-

ing, and the wrong way

with no one to set them right; and here

was she who might be a ministering

angel of light, waiting her time in vain

to be the blessing of the world.

So much admiration as she deserved, per-

haps—In pursuit of pleasure and ad-

miration. How much better, rather than

spending her time in looking at the

rooms, where the suppers were frequently

poor, and there were never quite enough

partners to go round among the girls, to

give a higher pleasure in doing good, to

be the central figure in crowded ball

streets followed, hallooed—as it were—

by the blighting of the street and the

to whom she brought light and guidance.

She would begin at once—that very

afternoon instead of going to sleep after

lunch, and she would begin to dress as

felt supremely pleased, with her hair

the intervals of arranging her hair and

complexion she paused several times to

sprinkle "essence" upon her hair, and

to the glass and think how well they be-

came her. She felt she ought to take

something in the way of a spiritual

reason, tears or sympathy for the

poor and suffering naturally run to

traces or soap—but there were certainly

no traces in the house and though there

was probably plenty of soap it was an

awkward thing to carry; it would be

to get split over her frock and mixed up

with the long ends of her cock's feather

and after consultation with the other

she started out with an untidy parcel of

stale cakes the leavings of Friday's "at

home" and took a cab down to Ham-

mer-street.

She wandered off the main road round

a corner and two very soon found a

slum—an ideal slum for it smelt abomi-

THE MODEL HOSTESS.

TACT AND CALMNESS HER TWO ES-

SENTIAL REQUISITES.

Annoyance and Flurry on Her Part Not

Only Bad Form, but Very Uncomfortable

To Guests.—The Beauty of Imperturb-

able Calm.

A woman may possess wealth, untold,

she may have the kindest of hearts and

the brightest of minds, but unless she has

the control of her feelings there will be

something in her career as a hostess

which will display annoyance or flurry,

and the contagion spreading to her

guests will cause an otherwise happy

entertainment to die out in undigested

failure. A model hostess must, to all

appearances, be made of stone, so far as

disagreeable happenings are concerned.

Even though a guest or careless waiter

unavoidably brings a bit of china which

can never be replaced, she must smile

as though the loss of the entire set would

but emphasize the pleasure of the evening.

Her well-bred calm inspires her guests

with a feeling of confidence, and though

in her heart she may be very dubious

of certain important details of her

dinner or dance, if she does not show her

anxiety everything will pass off to a

happy conclusion.

A distrustful or nervous host,

whose countenance but ill conceal the

worry they can do more toward mak-

ing the guests uncomfortable than if the

soup were served cold and the salt and

dressing were ruined by a too bountiful

quantity of vinegar. An imperturbable

calm and a ready tact are the two im-

portant factors in the making of a model

hostess. Secure these by hook or crook

and you need never fear for the success

of any of your entertainments.—Phila-

delphia Times.

HANDY SEWING BASKET.

Easily and Quickly Made at Home at

Small Expense.

In the bottom of a light, round willow

basket thirteen inches in diameter by

three inches deep, is fitted a circle of

pasteboard smoothly covered with lining

or any other material. The circle is

all the lining required. Around the

upper part of the basket inside, nine

spools, a pin cushion and a shirred pocket

for the thumb are placed. The outside

The nine spools (No. 20, 30, 50, 60, 80,

and 100) and each thread, and each

thread, are placed in a half an inch

wide by at least fourteen inches long.

Each ribbon end is brought through to

the outside of the basket just below the

rim. The thirty packages, each two inches

square, and the thimble pocket tucked

with tiny bows to their upper corners.

These are also passed through to the out-

side where by tying the

New Parasols.

New Prints.

ST. GEORGE STREET.

AGENTS FOR CHRISTI'S Laundry.

HERRING NEW SPRING TOOTH CULTIVATOR.

(With Broadcast Seeding Attachment.)

Our well known Spring Tooth Cultivator performs its work in a superior
manner, and stands the test of merit in all conditions of land. It is built in
two sections, each operated by a lever, each tooth double-backed, encased
separately, thus avoiding breakage. Frame thoroughly braced and wholly of
iron and steel. Draft light, pulverizes the soil for seeding, and warranted the
best in the market. Cultivators are sold separately or with Broadcast Seeding
Attachment. The teeth of this Cultivator are guaranteed best tempered, and
not to straighten out, as is often the case with cultivators of inferior makes.

Belleville.

Did you ever hear a
Rooster play a Fiddle?

LOCAL ITEMS.

The Eastern Ontario dairy exhibit will be
held at Gananoque next fall.

Mr. J. C. Hanley, Reeve of Tyendinaga,
was in town on Wednesday.

The Kingston Whip has donated a new
dress of the latest spring style.

A party of sixty-five boys arrived at the
Marchmont Home, Belleville, last week.

The schooner Queen of the Lakes was the
first vessel to arrive at Oswego this season.

The schr. Pilot, Capt. John Oliver, was
the first vessel to clear from Kingston this
spring.

Councillor Parnham is improving the
appearance of his premises by the erection of
a neat fence.

By the recount of the ballots Hon. Thos.
McGraw was declared elected for Quebec
West by a majority of seven votes.

Dr. and Mrs. Oronychak are greatly
enjoying their visit to the Pacific coast.
The climate there is at present delightful.

Messrs. Mikel & Roberts, barristers, etc.,
Belleville, have dissolved partnership. The
business will be carried on by Mr. W. C. Mikel.

The office of the "Canadian Statesman,"
Bowmanville, was destroyed by fire on
Monday evening. The insurance was only
\$3,000.

Councillor Dryden having purchased the
house on Thomas street lately occupied by
C. J. Becker, has moved his residence
thither.

The schools reopened on Monday. Teach-
ers came back to work looking refreshed
and more amiable as the result of their short
vacation.

As will be seen by a notice in these
columns the Board of Health order all yards,
wells, etc., to be thoroughly cleaned by the
15th of May, or prosecutions will follow.

Rev. E. W. Sibbald, formerly of Belleville,
but now of Lloydstown, has been found
guilty by an ecclesiastical court of ill-using
his wife and of using unbecoming language.

Thos. Southworth, of the Brockville
Recorder, has been appointed Clerk of
Forestry, the position formerly held by the
late R. W. Phipps. A popular appoint-
ment.

London means to outdo Chicago in one
particular. It is building a revolving wheel
three hundred feet in diameter, about fifty
feet larger than the Ferris wheel, and cap-
able of accommodating 1,600 occupants.

James Dougherty of the Rathbun Com-
pany's agency at Gananoque has been pro-
moted to a position in the Toronto agency.
John Macdonald, of the General offices,
takes Mr. Dougherty's place in Gananoque.

In the case of the Grand Trunk conductors
who were tried at Montreal last week for
conspiring to defraud the company of rail-
way fares, the jury disagreed. The
prisoners will be tried again at the June
term.

Berlin and Napanee are the only places
in Ontario where the gas inspectors found
gas below the standard last year. In Berlin
use test out of twelve was unsatisfactory,
while in Napanee six out of twelve were
below the standard of illuminating power.

The net earnings of 135 railroads in the
United States for the first two months of the
year ended at \$205,631 greater than those of
the same roads during the corresponding
period last year. The increase is 5 per cent.

The northwestern, southern and Pacific
coast groups show losses.

This is the tenth anniversary of the battle
of Fish Creek.

Mr. J. C. Hanley, Reeve of Tyendinaga,
was in town on Wednesday.

Deputy Sheriff G. F. Hope has been
appointed Sheriff of Hastings.

James Burns, Thomas street, is making
some improvements on his residence.

Dr. Desros, formerly United States Con-
sul at Belleville, died at Chicago on the
12th inst.

Work on the steamer Ella Rose is pro-
gressing and in a week or two she will be
on her route.

E. W. Rathbun has been elected a direc-
tor of the Kingston school of mining and
agriculture.

Councillor Parnham is improving the
appearance of his premises by the erection
of a neat fence.

House cleaning is everywhere in pro-
gress and the average home presents a de-
sirable appearance.

Commissioner Harvey has been putting
some stone on lower St. George street, a
marked improvement.

George Akroy has purchased from Byard
Young lot 12 block C, on the north side of
Main street for \$850.

The platform at Deseronto Junction re-
quires immediate repair or an accident may
occur some dark night.

Eighty-two years ago to-morrow the
Battle of York was fought which resulted in
the capture of Toronto.

Thomas Gault now collects and delivers
packages from both the Dominion and
Canadian express companies.

Tuesday next the Napanee sittings for
trial with and without jury commence.
Justice Falconbridge will preside.

Councillor Dryden, having purchased the
house on Thomas street lately occupied by
C. J. Becker, has moved his residence
thither.

Rev. Rural Dean Stanton and H. B.
Patton have been attending the meeting of
the Bay of Quinte Clerical Union in Bel-
leville this week.

M. C. Dickson, district passenger agent of
the G. T. R., has been given charge of the
whole western division of the line between
Belleville and Windsor.

Conductor Whiting, of the local branch,
has been away on leave of absence. Con-
ductor Daggett, of the Sydenham branch,
has been doing the work during Conductor
Whiting's absence.

At Belleville on Monday John Boldrick,
of Tudor, was arraigned before Judge Lazier
for attempted murder. It is alleged he beat
his wife unmercifully. He was sent up for
trial at the June assizes.

Miss Sinclair, missionary of the Presby-
terian Church at Indore, is on her way home
for a furlough. She visited Jerusalem and
other places in the Holy Land and is at
present in England. She is expected home
next month.

Doronto Lodge, No. 102, I. O. O. F.,
recently received a letter from Mrs. J. R.
Woodcock in which she thanked the mem-
bers for the kind assistance extended to her
during her late bereavement, and also ex-
pressing her hope that the order of Odd-
fellowship may continue to prosper.

Philip Pettigall, a prominent farmer of
Amelburg, committed suicide on Thurs-
day, 18th inst., at his son's residence five
miles from Wellington, by shooting himself
with a shot gun. The deceased had been
mentally deranged since last autumn. He
leaves a wife and three children to mourn
his end.

If in addition to laying down that new
boardwalk in the west end of town, the
council would partially grade the street and
dig a ditch to carry off the water, a great
improvement would be effected which
would be found of great benefit from a
sanitary point of view, better drainage be-
ing badly needed in that quarter of the
town.

A sugar social will be held at the
residence of Mr. Geo. Demorest,
of Richmond, this evening, in aid of the
parochial fund of St. John's church,
Selby. An unusually varied and
interesting programme is promised.
Everyone will be welcomed. Admis-
sion 15 cents.

The endowment fund for aged and infirm
ministers of the Presbyterian church has
reached the sum of \$147,560. It recently
received from the late Mr. Wright, of Col-
borne, a legacy of \$8,000, and another of
\$3,000 from the late Rev. Lauchlan Cameron.

When the endowment reaches the sum of
\$150,000 Sir Donald Smith has promised to
add \$20,000, making it the round \$200,000.

The ladies of the Steady Gleamers of
the West End Mission will give an
entertainment in Union Hall on the
evening of Friday, May 3rd. There
will be an excellent programme. The
Mohawk Band will contribute a number of
selections. James K. Hill and Richard Hill,
famous singers, and Jer. Hill, the famous
bones player, will also assist. The children
will give some of their costume songs.
Admission 10 cts.

In New York State part of the programme
on Arbor Day will be an effort to teach
children how to recognize the different var-
ieties of trees. This says the New York
Mail and Empire, "is the really vital part
of the whole business. If one children can
be induced to take sufficient interest in the
subject to distinguish the different kinds of
trees, so that each one will have its own
positive character, habit and individuality,
they very soon grow to have a strong
sentiment for them, and the love of trees is
a feeling which never dies, but grows always
stronger with the passing years.

Picton spring sittings for trial without
jury commence next Tuesday before Chief
Justice Armour.

The Bay of Quinte Conference of the
Methodist church will meet at Picton on the
first Thursday of June.

The so-called Cat Hastings Fair will be
held at Thrasher's Corners on Tuesday and
Wednesday, Sept. 24 and 25.

The dust has been drifting along the
streets this week in great clouds. Flood's
watering cart should be on the route.

C. J. Becker and family have moved to
St. Louis, Missouri. They made many
friends in Deseronto who will follow them
with best wishes.

The country roads leading into town are
in splendid condition for this time of year,
the mud having dried up very rapidly after
the snow disappeared.

A large company of Oddfellows drove
down to Napanee last Sunday to join their
Napanee brethren in a church parade. The
services were of an interesting character.

Great interest is manifested in the pro-
ceedings of the town council this year, judg-
ing from the large numbers of ratepayers
who attend each meeting and hang on the
words of the eloquent councillors.

The Sash and Door Factory of the Rath-
bun Company received an order to finish
the fittings, new pulpit, etc., for a
handsome new Congregational church to be
erected in St. John's, Newfoundland.

Although business in Deseronto is stale,
flat and unprofitable no perceptible
decrease in number of commercial travellers
arriving in town is visible to the naked eye.
No less than six were in town yesterday.

The Belleville papers refer in very com-
plimentary terms to Herchmer Aylsworth's
singing at Prof. Campbell's concert in
that city. The Sun states that Mr. Ayl-
sworth made an undoubtedly favorable im-
pression.

James O'Neill, son of Luke O'Neill, died
at his father's residence, 2nd concession of
Thurso, on Tuesday of last week. He is
the fifth of a fine family of sons that have
died in remarkable quick succession during
the past two years.

The Annapolis court of Independent For-
esters has received the regalia given by the
High Court of Ontario in one of last year's
competitions to the court receiving the
largest number of members. The member-
ship in Annapolis was trebled.

Many friends of the Rev. Robt. Atkinson
of Selby, and formerly of Deseronto, have
signified their intention of going out to the
sugar social to be held at Mr. George
Demorest's, Empey Hill, to-night, (Friday).

A good programme and a good cause.

It was rumored for a few days this week
that one of the fair public school teachers
had been married, but up to the time of go-
ing to press no ample slice of bridal cake
has reached our office and we are inclined
to think that but little credence can be
placed in the report.

Some councillors proposed laying some
boardwalks only two planks wide at the
last meeting of council. Councillor Parnham
objected as baby carriages could not be
propelled along such walks. He thus made
himself solid with the fair sex who have
revolved to support him at the next election.

The Armenia, Capt. Anderson, ran up to
Belleville, on Saturday, the first vessel to
enter that port. On Monday morning she
commenced her regular trips to Belleville
and Trenton, taking the route of the Ella
Rose which is up on the Deseronto marine
railway undergoing extensive repairs.

The Manitoba correspondent of the Rath-
bun Company writes that "the weather has
been that of an ideal spring; seeding of
wheat in this district practically finished;
the ground was never better for seed and
the rice has fallen to start vegetation. The
prospects for completely successful crops
were never better than at this time of the
year."

A man went to a well with a five quart
can and a three quart can. He wanted to
bring back four quarts of water. How will
he measure this? Answer—He fills the
five-quart can; out of the five quart can he
fills the three quart can; he throws the three
quarts away and pours the two quarts into
the three-quart can; he fills up the five quart
can again and fills up the three-quart can
again out of this, which takes one quart out
of the five quart can; therefore he has four
quarts left, accurately measured.—Edin-
burgh Scotsman.

"After years of dyspeptic misery, I can at
last find a good square meal without find-
ing it distressing me," gratefully exclaimed one
whose appetite had been restored by the
use of Dr. Williams' Pink Pills. This remedy
wonderfully sharpens the appetite and im-
proves digestion.

Notice.
In paragraph 6 of the Canadian Life
Assurance Company report which is given
in another column the bonus addition added
to endowment policy funds \$12.50 per
annum for each \$1,000 insured. It should
read \$22.50 for each \$1,000 insured.

Church Parade.
The members of Doronto lodge, No.
102, I. O. O. F., will assemble at their hall
next Sunday afternoon and thence march in
procession to St. Mark's church to attend
divine service at 3 o'clock. Rev. H. B.
Patton, B. A., will be the preacher on the
occasion. Members of the order from
Napanee will come on George Sidera's
steam yacht to participate in the service.

"Half a span of angry steel" will produce no
more fatal results than a neglected cold or
cough. For all throat and lung diseases,
Ayer's Cherry Pectoral is the best remedy.
It is invaluable in cases of croup, whooping
cough, bronchitis, and la grippe.

The Big Mill will probably start next
Monday.

Some snow banks can be seen on the
bluffs of Hopkirk.

Geo. T. Bawley has been appointed
sheriff of Lennox & Addington.

The steamer Ella Rose will go on her
regular route on Wednesday, May 1st.

The weather continues to be rather cool.
Warm rains are much needed to start
vegetation.

The Hero looking bright as a new six-
pence has commenced her trips. She passed
down on Wednesday morning on her first
trip to Kingston.

The prairie hens and their chicks which
were sent to Mr. E. W. Rathbun from
Mexico are flourishing and can be seen
feeding among the juncipers on the Morden
farm.

The steamer Deseronto has been on the
route to Belleville during the past few days,
the Armenia taking the Picton trips.

Alex. Anderson lost the tip of a finger in
the bolt machine at the Machine shop. Dr.
Yeomans dressed the wound.

Walker Bros' Colossal Show will not
appear at Lansdale on the 4th as announced
but at a later date yet to be fixed.

The brick manufactured by the Rathbun
Company are very much in demand in all
sections of the district and down the St.
Lawrence River.

The steamers Nip, Capt. Daly, and her
consort Lisa loaded here this week with a
large cargo of brick, cement and lumber for
Clayton and Alexandria Bay.

The steamer Resolute will commence her
trips to Oswego to-morrow. Capt. John
Gowan will again be in command with L.
Ostrander as mate and John Harrison and
John Topping, as engineers.

The remains of the late W. B. Gordon, of
Kingston, were removed from the vault and
interred yesterday in the Deseronto ceme-
tery. Rev. D. McArthur, of Melrose, con-
ducted the religious services upon the
occasion.

At Heppins' grocery can be seen a carved
likeness of our Savior made from a painting.
It is cut in wood, in one piece, and is the
work of Andrew Barne, of the match
factory, being executed solely by means of a
jack-knife. It shows artistic skill of no
mean order.

Mr. Potter, the sailor's missionary, ad-
dressed a meeting in the Presbyterian
church on Wednesday evening on various
aspects of his work. His remarks were
listened to with great interest by all present.
Rev. K. Taylor and Messrs James Gordon
and J. M. Smith also gave interesting
addresses.

George Ganyon has sold out his livery
business to Samuel Allen, of Napanee, hav-
ing been induced to do so by the
generally expressed desire that he would
continue in his present position. Mr. Allen
comes to Deseronto highly recommended as
an upright citizen. He is a carriage maker
and will probably carry on that business in
connection with his livery establishment.

On Sunday evening Mr. George Field was
seized with a sudden attack of dizziness
and he fell unconscious to the floor. His
head was bruised and nose cut by the heavy
fall. He bled very profusely and his family
and friends were very much alarmed. After
some time the doctors arrived and restor-
atives were employed with good results.
Mr. Field, though still very weak, is
gradually regaining strength.

Among the proprietary medicines of the
day none have during late years come more
rapidly into prominence than "Dodge Kid-
ney Pills," manufactured by the Dodge
Medicine Company, of Toronto. Local
druggists gladly acknowledge this fact and
refer to their increasing sales of these
medicines. Unsolicited testimonials to the
beneficial effects of these pills are very
numerous, showing that they possess rare
curative powers. The proprietors are to be
congratulated on the growth of their business
and the genuine merits of their medicine.

Domestic Express Company.
The Domestic Express Company has
commenced business for the season. There
has been a great improvement in the way of
express accommodation since this company
started in Deseronto, thus evidencing the
advantages of competition. Business men
will remember this and distribute their
patronage accordingly.

Moving.
J. J. Kerr will move his business into the
large store in the Baker block, formerly
occupied by the Bay of Quinte Meat Com-
pany. His present premises have long since
become too contracted for his growing
business and in his new quarters he will be
able to give more satisfaction in every way
to his numerous customers.

WARNING
\$100 Reward

We are informed that unscrupulous dealers are
in the habit of selling plugs and parts of plugs of inferior
Tobacco, representing them to be the genuine
'T. & B.' MYRTLE NAVY.

The genuine plug is stamped with the letters
'T. & B.' in bronze. Purchasers will confer a
favor by looking for the trade mark when purchasing.

OUR NEW PLUG
'T. & B.' COMBINATION 148.
60, 100, & 200 Pieces.

Is stamped with 'T. & B.' Tin Tag and is the
new plug as the larger size plug bearing
the 'T. & B.' in bronze.

A reward of One Hundred Dollars will be given
to any person or persons guilty of the above fraudulent
practice, or furnishing our trade mark to any
other manufacturer.

The Geo. E. Tuckett & Son Co. Ltd.
HAMILTON, ONT.

TOWN COUNCIL.

A meeting of the Town Council was held at the evening of Thursday, April 18th. Present—Mayor, presiding, Reeve Dalton, Deputy Reeve Vandervoort, Councilors Irvine, Gracy, Dryden, Lowe, Parrish, Pearson, Risk and Gault.

The minutes of the preceding meeting were read and approved.

The following communications were read:

From Councilor Parrish tendering his resignation. Councilor Parrish having stated that he wished to reconsider his action, on motion of Reeve Dalton, seconded by Councilor Gracy, the communication was ordered to be filed.

Paul Dalmon, sent in an application for the position of streets commissioner offering to perform the duties at \$1.50 per diem. On motion of Councilor Irvine, seconded by Councilor Lowe, it was referred to the Streets Committee.

The following applications were received for the position of chief constable: Wm. Wilson, offering to perform the duties for \$40 per annum; James Montgomery for \$500 per annum; A. B. Leggett, same salary as present officer; E. Pringle for \$525 per annum; Jacob Borden for \$45 per month. On motion of Reeve Dalton, seconded by Councilor Irvine, the different applications were referred to the Police committee.

A petition was received from the Citizens' Band asking for pecuniary assistance and mentioning the sum of three hundred dollars as being necessary to place the organization on a satisfactory basis. Manager Morse explained the situation in a few remarks. Councilor Irvine moved, seconded by Councilor Pearson, that \$100 be granted; Councilor Parrish moved in amendment, seconded by Councilor Gracy that \$200 be granted; Reeve Dalton, seconded by Councilor Lowe, moved as another amendment that \$150 be granted. The yeas and nays were asked and the council voted as follows:

For the last amendment proposing \$150—Yes—Dalton, Gault, Lowe, nays—Dryden, Irvine, Risk, Parrish, Vandervoort, Gracy, Rathbun and Pearson. For the first amendment proposing \$200—Yes—Parrish, Gracy—Rathbun, nays—Dalton, Gault, Dryden, Irvine, Pearson, Risk, Lowe, Vandervoort, for the original motion proposing \$100—nays—Dalton, Gault, Dryden, Pearson, Irvine, Risk, Lowe, Vandervoort; nays—Parrish, Gracy and Rathbun.

A petition was presented from R. Geddis and 24 others asking for a hydrant on the corner of St. George and Main streets. Councilor Risk thought that the East ward should be favored in the matter and other councilors referred to the need for an extension of the water service if practicable. On motion of Councilor Dryden, seconded by Councilor Pearson, the petition was referred to the Fire Committee to look into the whole matter of fire protection and report at next meeting of council.

Accounts for gas for March, \$123, and an account for bread furnished for charitable purposes by D. G. Vandewater \$2, were, on motion of Councilor Dryden, seconded by Councilor Gault, referred to respective committees.

Reeve Dalton, for the Streets, Market and Gas committee, reported that the sum of \$11.41 had been paid for labor done last W. H. Harvey had been appointed streets commissioner at \$1.50 per day while working. On motion of Reeve Dalton, seconded by Councilor Dryden, the report was received and adopted.

Deputy Reeve Vandervoort, for the Charity committee, reported that the sum of \$21.75 had been distributed in charity; recommended following bills to be paid: M. W. Woodcock, C. Jacques \$3, Watson and Co. \$1, Dalton \$6, R. N. Irvine \$1.50, M. A. Werlen \$2.50, W. H. Vanblarcom \$2, J. J. Edwards \$1.50, J. Hart \$1, stated that the Howard child would probably be admitted at the Orilla institution; and presented the claims of C. Scrimshaw, aged 15, to consideration.

On motion of Deputy Reeve Vandervoort, seconded by Councilor Risk, the report was received and adopted.

Councilor Gracy drew attention to the necessity of a better system of announcing the location of fires, etc., and Councilor Dryden suggested the formation of a fire company with Alex. Smith or some capable man in command. On motion of Councilor Gracy, seconded by Councilor Pearson, these matters were referred to the Town Property, Fire and Police committee with power to act.

Councilor Irvine, seconded by Councilor Lowe, moved that the Collector be given another month to collect balance of taxes due on last year. Carried.

The sum of twenty dollars had been collected since the previous meeting of council.

Councilor Lowe asked what progress the Streets committee had made with a new boardwalk ordered to be laid down at a former meeting. It was evident that the committee had not completely understood their instructions, as they

AS FORTUNE SUTLES

A TALE OF THE OLD AND NEW WORLD

CHAPTER VII.

Herbert lay awake in bed that night thinking that his solicitor's advice might turn out very profitable indeed. It would be delightful to be able to remember incidents and circumstances of his boyish life for Lucy Evelyn. It would be very pleasant to be again aware of the feeling he once entertained for her, of loving her, of spoken, of tender, truth plighted, and, besides that, there were a lot of things he would have dearly liked to know—things that would be of his past history, and veiled from him by the shroud of his loss.

To his mind the vista of the past that would open before his mental eyes had brought not pleasure. No dreaded terrors lurked within its confines, nothing would be as unrelieved that might discomfort or vex.

"Yes he said to himself, 'I will see Sir William Cuthbertson, if only for Evelyn's sake.'"

The fashionable surgeon's residence in Mount Street, Grosvenor square, resembled the reception hall of a Minister of State to such a degree was it crowded by more or less distinguished patients. Young Cleve's case had been sufficiently heralded in the papers to have already come to the knowledge of Sir William. At this time considered the first living authority for wounds in the head, and especially for those productive of cerebral derangements, and he had, only a few days previously, in private conference with some of his confidants, pronounced the young nobleman's case a most interesting one. It may have been the remembrance of these circumstances, or it may have been the weight of Herbert's title—I will not say which—that secured to the young earl the entrance to the great man's consulting rooms in advance of those who were, by order of arrival, entitled to priority.

A bland, distinguished-looking gentleman was Sir William, whose face brimmed with perpetual good humor and kindness. It would have been difficult to consult such a man and not to feel confidence in his ability to help. He had a manner of his own, and getting on good terms with his patient, from the very first moment, and he himself had admitted that that was half the battle of a medical man's success.

"I felt sure that you would come and see me, my lord," he said, smilingly, holding out both his hands to the young man. "I have heard a great deal about your case and I feel that it is one of exceeding interest to the world of medicine."

The examination occupied a protracted one to Lord Cleve. The surgeon not only examined the young man's head with minute care himself, but called in another great learned-looking gentleman, with whom he held a whispered consultation.

"I have done case quite clear, my lord," he said at last, "and I am glad to say that I will explain it to you. You have received not less than four fractures of the skull, all of which were compound, and the right one a blunt rounded instrument. There were no bullet wounds, but such as could only be produced by a weapon wielded hammer-wise, and rounded at the edge. These fractures have likely healed without producing any deteriorating results. But the fourth wound, which occurred nearly in the inner curve of the right eye, just over the corve of the skull, is of a nature which requires the most delicate treatment. It is one which would have, at any time, necessitated the most delicate treatment, and which is the cause of the mental affliction from which you are suffering. The bone there is not only broken, but severely indented, and it has been and is exerting a constant pressure upon the brain. Now I am not a believer in phrenology as a science, but I feel it necessary to explain that the phrenology place the seat of memory at the very spot where the wound is located, as you see, the least pressure is exerted, and the memory of occurrences above, where the distress is more severe."

"And is there a chance of remedying this state of things?" asked Herbert, looking a chance by hook or by crook of getting his memory back.

"There is more than a chance—there is a certainty that I should be able to remove the cause of the pressure upon your brain by operation."

"What kind of an operation?" Herbert asked, anxiously.

"I should like to see the bone which is the cause of the mischief," Sir William answered.

"And what would I have to do, and how long would I have to lay up?" was the young Earl's determined query.

"Ah, my lord, the surgeon replied. 'You would have to lay yourself out entirely in my hands. The operation would have to take place in a room prepared by my instructions, and in that room you would have to remain for a month at least after the operation, seeing nothing, and appearing nothing, excepting to exercise your mental faculties, and to read, and to eat, with the world—no facts giving you brain complete rest after it is relieved will give it sufficient strength to do its normal work.'"

"Humph!" the young Earl ejaculated. "I would be allowed to see anybody?"

"Not a soul, after your attack," the surgeon replied. "And where would you operate?"

"I would have you taken to a house in a quiet village far away from the noise of the world, of the very locality of which you would have no idea, so that it could not possibly be a source of exercise of memory to you."

"If I submit to all this, Sir William," Herbert asked, "can you promise me a cure?"

"I can allow you to hope for one, that should be sufficient," was the great man's smiling answer.

"Are all the precautions which you prescribe imperatively essential?" the young man demanded.

yourself to me, I will take care that no untoward accident shall occur."

At luncheon, Herbert informed Lucy of his interview with Sir William. He was so excited by the prospect of recovering his memory, that he did not notice the sudden pallor of that pretty face—the expression of anguish that momentary fear and the sudden shock of the fact that he had been brooding settled in a pretty sad dream. He did not notice that his hands that nervously clasped one another, nor the lips that opened in trembling silent prayer.

He did not know the deadly, the horror of expectation that filled Lucy's soul with blank despair at the thought of his possible recovery. If memory returned to him what would he remember?

All women are more or less born actresses, and the shock of the first surprise being over, Lucy, and truly Lucy, played a part like any of her merrier sisters. Played a part in a cause to her heart not less holy than that which spurred Judith to become a warrior.

"You don't want to remember nothing," Herbert, she pleaded. "You're just quite good enough as you are, and you don't want to run risks. I've seen enough in my own home, and I don't want to see so many cattle, that it goes again the grit to think of them sticking their knives into you."

"But my dear Lucy," remonstrated Herbert, "just think of it. I don't even know how I came by my wounds, and surely it is interesting to know what killed me. Would have quite killed him," he added, with a frank smile and a look of manly courage. "If he had had a deer, good or evil, I'd be like you to stick to him, and get him cured."

"Again he did not notice the look of trembling that gleamed about his eyes and lips. 'Now, my lord, I want to do nothing of the kind,' Miss Lucy insisted. 'I reckon you know as much as you want to know, and if you follow my advice, you'll leave well enough alone. I don't want to be poked about like an apple or a potato, and that doctor ain't no doggone artful. I don't want to see him, and when he's finished, I'll be done.'"

Herbert saw that the subject displeased Lucy, and he put her objections to the account of a woman's caprice. "Since you think it unwise," he said at last, "I won't have it done—at any rate, not just yet, but I'll turn it over in my mind."

"Yes," Lucy replied with a contented smile, "when you take a good long look in 'thinkin' an' when you've finished with it, you'll be a good doctor, just to please me, that's a good boy."

In spite of his flirtations with Lucy Evelyn, there was no woman in the world more devoted to Herbert than his sister. He thought her objections woman-like, and not unreasonable, but he admitted them nevertheless.

During the few days that followed, he pondered over Sir William's proposal, and his opinion varied according to the company he met. He called on himself. When he was with Lucy, he concluded that perhaps he might be right; but when he was in the sunshine of Lady Evelyn's smiles—a now frequent habit—he would conclude that he was wrong. Mr. David Maclean's opinion varied in the opposite direction, and he was anxious to submit himself to the great surgeon's knife or other.

Figures had always been a worry to Herbert, and now they proved a sore bother to him. He had inherited an estate brimming with it, and one of the first things they had to be managed. Tenants were continually grumbling, and grumbling meant bad harvests. Herbert had appointed the morning hour from 9 to 10 for this purpose, and was seated on a cushioned stool, behind his writing desk, awaiting the arrival of his tenants. The first of his tenants at Chamney Grange was a man named Frederick Ashland, who was brought up to him. He was a stout, middle-aged man, with a high forehead, and a pair of spectacles that he wore on his nose. He was dressed in a dark suit, and a white shirt with a high collar. He was looking at his watch, and he was looking at his watch.

"I wonder what he wants?" Herbert thought to himself. "These men are always late."

Frederick Ashland was ushered in by a butler. Broad-shouldered, broad-chested, John Bull farmer, with a high forehead, and a pair of spectacles that he wore on his nose. He was dressed in a dark suit, and a white shirt with a high collar. He was looking at his watch, and he was looking at his watch.

He was dressed in a dark suit, and a white shirt with a high collar. He was looking at his watch, and he was looking at his watch.

good, my lord, as to look at this 'ere scrap of the last letter which I got from Dick, and perhaps it'll bring to your mind—if it be so that you've forgotten him—though it does seem strange and no mistake. He professed from a worn Russian leather pocket-book a faded sheet of paper, the folded edges and creases of which had been raised by wear. Herbert took the paper and did not to tear it while unfolding it.

"And Fred," it ran, "luck's mine at last, and you're, too, through that. I have found gold, bushels and bushels of gold. The only difficulty is to get it safely. I have written to you, Mr. Herbert, to come, who is hunting about 200 miles from here, and I expect him here within the next two or three days. Give my love to Susan and the chicks, and tell them that I'll be home after them. Don't speak about this to anybody till you hear from me again, as it might be dangerous if it got to be known before the proper time. If you do see any of the young ladies at the Towers tell them that their brother Herbert was here and hearty when last I heard from him, and if things turn out as I am sure they will, you will see us both in the old country before Christmas comes. I have written to you, Mr. Herbert, to come, who is hunting about 200 miles from here, and I expect him here within the next two or three days. Give my love to Susan and the chicks, and tell them that I'll be home after them. Give my love to Susan and the chicks, and tell them that I'll be home after them. Don't speak about this to anybody till you hear from me again, as it might be dangerous if it got to be known before the proper time. If you do see any of the young ladies at the Towers tell them that their brother Herbert was here and hearty when last I heard from him, and if things turn out as I am sure they will, you will see us both in the old country before Christmas comes. I have written to you, Mr. Herbert, to come, who is hunting about 200 miles from here, and I expect him here within the next two or three days. Give my love to Susan and the chicks, and tell them that I'll be home after them. Don't speak about this to anybody till you hear from me again, as it might be dangerous if it got to be known before the proper time. If you do see any of the young ladies at the Towers tell them that their brother Herbert was here and hearty when last I heard from him, and if things turn out as I am sure they will, you will see us both in the old country before Christmas comes. **SPECIAL VALUES IN
BOOTS and SHOES**

For 15 days at J. J. KERR'S.

Twenty-five cases of new Boots and Shoes bought from "a hard-up" manufacturer at about one-half actual cost of production. This is the greatest opportunity for the people of Deseronto and vicinity to buy their spring foot-wear at about the cost of production.

Note carefully a few of the following prices:—

LADIES' Oxfords at 69c, worth 90c.
LADIES' Oxfords at 75c, worth \$1.
LADIES' Buttoned Boots at \$1, worth \$1.25.
LADIES' Bala. at 95c, worth \$1.25.
LADIES' Dong Buttoned Boots at \$1.25, worth \$1.75.
MEN'S Bull whole Foxed Bala. at \$1.35, worth \$1.75.
MEN'S heavy Working boots at 85c, worth \$1.

As it will be impossible to repeat these goods at these prices parties in need of Boots and Shoes will consult their own interest by coming direct to us.

STRICTLY CASH AND ONE PRICE.**J. J. KERR.**

Main street, Deseronto.

We are, to-day, opening a second consignment of

SPRING IMPORTATIONS.

which will be passed through the Customs and placed at the disposal of customers on Saturday, the 13th inst. The public are fully aware of the superiority of the lines we import, and of the fact that we keep our season in advance of the Wholesale trade in Canada.

Mr. Hall has a complete stock of imported fabrics for Spring and Summer wear. Call early, as orders are being placed rapidly.

You can get all the leading lines of foot wear from us—newest styles and best makes.

Cooking Stoves and Ranges, for wood, coal or gas; best assortment in Canada. Also Tinware and all kindred goods.

Groceries and Provisions all bought on a wholesale basis and sold accordingly.

We want all the Produce Farmers have to dispose of.

Your patronage is respectfully solicited.

DISTRICT ITEMS.

Cornwall has another strike in the woolen mills there.
The late Lingham, Belleville, died on Wednesday, aged 74.
W. N. Fletcher, Sharbot Lake, died on Monday, aged 90.
Caledon Place was waterworks, therein resembling Deseronto.
J. A. Elliott, grocer, Belleville, has been closed by his creditors.
Richard O'Neil, Sr., of Portsmouth, was prostrated by paralysis on Sunday.
John L. Christie, for sixty years a citizen of Kempville, died a few days since.
Nelson Parliament, of Amherstburg, will go into business at Saul's Ste Marie.
Kingston people will vote on a bylaw giving a bonus to an iron and steel company.
Mrs. Margaret Ann Dickson, widow of the late Edwin Dickson, died on the 23rd, aged 75.
The members of the Baptist church, Pembroke, presented Rev. D. C. McKay with \$215.
Hastings people are ashamed of the way in which young men are being around church doors.
John Farry, of Grindstone Island, died while returning from England and was buried at sea.
Almonte's driving park, which cost the original owners over \$3,000, has just been sold for \$500.
Miss S. Bellap, Rossmore, took a dose of saltpetre instead of salts and is in a precarious condition.
McLachlan Bros., of Annapolis, have introduced the ten hours system in their mills, The world knows.
Daniel Gallagher, of Kingston township, and Annie Mackenzie, of Brewer's Mills, were married last week.
Joseph Tisdale, head-builder, formerly of Barriehill and Kingston, died on the 14th at New Westminster, B. C.
The new going Belleville school board have voted against building a new high school, though the present edifice is a disgrace to the city.
At Ottawa, David Prevost, a saloon keeper, was taken into camp by a confidence man. The man had a box which was supposed to contain \$10,000, but was lamenting that he had no place to keep it. Prevost offered to look after it, and the stranger wanted some money to use, and as he did not care to open the box on account of him he had \$600. The man departed and has not been seen since. The box contained newspapers.

Members of Deseronto Council, No 141, C. O. C. F., are requested to attend the next meeting on May 6th on account of important special business. 31-34

CHURCH OF THE REDEEMER.

Rev. J. A. McKee preached earnest and practical sermon to good congregations last Sunday.
Rev. J. Peck will occupy the pulpit next Sunday morning and evening.
The senior division of the mission band meets this evening at 7:15; the junior division on Saturday at 3 p.m.
New scholars cordially welcomed at the Sunday school.
The late Mr. E. C. French was a trustee of the church and on the 15th of April kindly performed the duties of organist.

ADVICE TO OWNERS OF HORSES.

A POSITIVE CURE FOR SCRATCHES, GREASE HEEL, ETC.
A man you all know, and a man of experience gives the following:—
"I have used Dr. COLEMAN'S PASTE for scratches and grease heel on horses, 'in my stable,' and from principle alone must say it is the only remedy I have ever found that will cure. I have tried everything I could get, but without success. Dr. COLEMAN'S PASTE, being a new preparation and highly recommended, I determined to try it.
The one 25 cent box cured the worst case of grease heel ever in my stable in three days. I consider it just what all livermen require. Try it once."

(Signed) R. J. ANDERSON, Anderson's Livery and Bus Line, Napanee. Upon receipt of price, "25 cents," we will mail 1 box Coleman's Paste, post paid, to any address, under a positive guarantee.

DOUGLAS BRO. & CO., Napanee. Sole agents for Canada.

By consulting our optician you escape any injury to your sight and ascertain the proper cause to pursue regarding the use of glasses. Testing free. Angus McPhee & Co., 272 Front street, Belleville.

AN OLD RESIDENT GONE.

The Picton Times says: "By the death of Mr. James McKee, of Chatham, took place on Monday, 15th inst. an old resident of Picton has been removed. About a year ago Mr. McKee was taken seriously ill and on recovery he went to Chatham with his daughter in hopes that the change would be beneficial. For a time he improved and expected to return to his home here, but the disease, which proved to be abscess on the bowels, again asserted itself with the above result. She was a member of St. Andrew's (Presbyterian) church, and was a kind friend and obliging neighbor, and many a sick patient has been comforted by her skill and attention. Her family are: Chatham; John, in Napanee, and Hugh in Chatham; Mrs. Alex. Glenn and Mrs. Henry Gillett, in Chatham. Mr. McKee and Alex. McCormick, of Bay City, Mich., all of whom attended the funeral which took place at Picton on the 15th inst."

Each ten cent package of Tonka smoking mixture contains packet pipe lighter, cool and sweet. Try it.

METHODIST CHURCH.

The services last Sunday were well attended. The prayer meeting at the close of the evening service was of unusual interest and power.
At the League meeting on Monday evening the review of the last three topics led by principal Cole was excellent in every respect.
In the absence of the pastor, who goes to Stirling to preach to the I. O. O. F. lodge, No. 239, of which he is a member, the Rev. Dr. McDiarmid will preach in the morning and Mr. L. Wright in the evening.
Services at 10:30 a. m. and 7 p. m. Sabbath School 2:30. Seats free. Everybody welcome.
The pastor attended the funeral of Rev. Thos. Cleworth, Napanee, as a pall-bearer on Thursday afternoon.

PERSONALS.

Miss Elliott spent her vacation in Trenton. Miss Ethel Baker has been quite ill during the past week.
Mr. James Little, Tyendinaga, was in town last Friday.

God Save the Queen.

DEATH OF MRS. A. G. REID.
Mrs. Andrew G. Reid Gananogue, died on Saturday, 20th inst., of inflammation, after an illness of only five days. Deceased whose maiden name was Mary Ann Crook, was the youngest daughter of Mr. James Crook, of Deseronto, was born on April 18th, 1818, and was therefore twenty-seven years of age, and had been married only three years and seven months. The death of one so young and much beloved on account of the fact that the deceased had expressions of sympathy in Gananogue was evidenced by the great number of floral decorations sent in by kind friends and neighbors. Deceased was a member of the Methodist Church and on Sunday evening Rev. F. C. Reynolds conducted an appropriate service at the house in which he resided. The funeral took place on Monday, the funeral took place on Monday, the casket being taken to the railway station and thence conveyed to Deseronto by the accommodation train leaving Gananogue at 7:40. On arrival at Deseronto a large number of friends were assembled at the railway station. The funeral procession proceeded to the Deseronto cemetery where the remains of the deceased were interred. Her infant child born during her illness, were interred, religious services being conducted by Rev. R. Taylor. The bereaved husband and friends have general sympathy in their great affliction. The deceased lady was a member of the Canadian Order of Chosen Friends and carried an insurance in that order of \$500.

THE CANADA LIFE.
In another column will be found the Forty-Eighth Annual Report of the Canada Life Assurance Company submitted at the annual meeting and which will be read with great interest by its numerous policy holders in Deseronto and the adjoining district. The facts and figures presented indicate the sound management which has always characterized this great company while they exhibit a wonderful progress in every department of the operations of this great Canadian corporation which must be very gratifying to all interested in the growth of the financial institutions of the Dominion. The new business of 1894 was the largest ever done in a year. The aggregate of death claims was considerably less than in 1893 and 1892. The present report is one of exceptional interest as it comes at the termination of a quinquennial period, and deals with the surplus of three years. Of this surplus the cash sum of \$2,168,000— or 65 per cent of the whole sum available for distribution—will be divided among the policy holders. This announcement will be received with lively satisfaction, since it means \$20 per \$1000 per annum addition to ordinary policies and the equivalent of \$20 per \$1,000 for endowment policies. This portion for distribution would have been \$3,011,000 on a 4 1/2 per cent basis, but the company, having a prudent regard for the future, reduced the basis of calculating earnings to 4 per cent, necessitating the laying aside of \$842,000 additional reserve. The company's reserve is now \$19,075,771. The report also gives proof of the very favorable mortality in the case of this company, giving an average of a careful study of lives. The Company must be congratulated on the favorable showing of this excellent report.

WALKER BROS' COLOSSAL SHOW

The Messrs Walker Bros. open the present season by giving their first performance in Deseronto, Saturday evening, May 4th.

No expense has been spared in order to place before the public the most complete rendition of that well known story of Slavery Days by Mrs. Harriet Beecher Stowe entitled Uncle Tom's Cabin which although familiar to the public will contain many new and interesting details of generation and its interest to the present by travelling troupes.
The play will start at the beginning, not at the second or third act as is often done by travelling troupes.
The Cotton Picking scene alone will be more than twice the price of admission.
New and appropriate scenery fresh from the brush of the well known scenic painter, Mr. A. C. Grant, will be used in all acts.
A free street parade will be made of the principal streets on the day of the show which will well repay all to see. The wagons alone are pronounced by cities to be the finest ever used in a wagon show.
The performance opens at 7 o'clock p.m. in their mammoth pavilion which will be situated on the lot east of the O'Connor House.
Those wishing to reserve seats can do so without extra cost by calling at T. J. Taylor's Restaurant and checking them off.

The Messrs Walker have always been popular at all the gatherings of the different societies in town and of charge, and with great inconvenience to themselves, and The Tribune trusts that in their first appearance to the public a crowded house will be an accomplished fact.
The best talent money could procure has been secured for this the best Uncle Tom's Cabin Show on earth.

DESERONTO COUNCIL, ROYAL TEMPLARS.
Deseronto Council of Royal Templars of Temperance has had a winter of great prosperity, all the branches of its work being in a satisfactory state. There are now about 170 members on the roll, all of them in good standing with dues paid up, etc. The insurance department is flourishing, the Order having an excellent reputation for the sound methods by which this department of its work is conducted. The meeting of the Council held on the evening of the 18th inst. was a pleasant character. There was a large attendance of members and the proceedings were of a very interesting character. At the beginning of the quarter prizes were offered to three members who should bring in the largest number of new members. The successful member was Mr. S. W. Smith, who presented to B. J. R. Booth who had brought in twenty-two new members. Gold pins were also presented to Sisters Mrs. S. W. Smith and Mrs. N. W. Perry, who had enlisted seven and six members respectively. The prizes were given by Bro. F. C. Davey, J. M. Smith and Russell. At the beginning of the quarter two captains, Bros. I. Vandewater and Harry Morien, whose sides to become responsible for the programmes, the side being to get up a play program to treat the Council to a supper. Capt. Morien's team was successful and accordingly Capt. Vandewater was in for the treat, which he provided and which was much appreciated. The members greatly enjoyed the evening's amusement.

A DREADFUL DISEASE CURED.
Messrs. Douglas Bro. & Co., Gentlemen,—I have much pleasure in offering you testimonial on the cure of Barbers Itch. For over three weeks my face was nothing but a mass of sores, and it was still getting worse. It got so bad that I was ashamed to go out on the street. I went to a very prominent doctor of this town and he told me it would take a few months before I could get rid of it. On a Sunday a neighbor came in to see me with about half an ounce of "Daisy" Egyptian Liniment and requested me to try it. I thought I would give it a trial. I put it on my face that same day, and inside of three days my face was as smooth as ever it was. I might also say that I only bathed my face since and that I consider I have a permanent cure. I cannot recommend your Liniment too highly for the value it has been to me. This I declare to be true and correct.
I remain yours,
C. A. MCDOUCH, Painter.
Tamworth, 16th May, 1893.

BUTTER MAKERS.
I have reduced the price of the Daisy, Dandy, Perfection and Cream Churns, and they are lower than ever. I will not be underlaid in these Churns—Miles S. Plumley.

CARD.
I desire to thank Mr. E. W. Scott and other friends in Deseronto for the many acts of practical sympathy and the kindly extended to me on the occasion of the death and interment of my beloved wife. Assuring them that I can never forget their kindness,
I remain
Very sincerely
A. G. REID.
April 22nd, 1895.

MONUMENTS.

A monument is something you buy but once.
Cautious buyers prefer to know just what they are getting.
Pictures and designs are often misleading.
Intending purchasers will take no risk by selecting from my large stock of Granite and Marble Monuments on hand this Spring.

Call and see before you place your order. Our work speaks for itself.

V. KOUBER,
NAPANEE.

NOTICE.

CITIZENS OF DESERONTO ARE hereby notified by the Board of Health that all cellars, yards and out-buildings must be thoroughly cleaned and the refuse removed, on or before the 15th day of May, and all wells, whether public or private, must also be cleaned out in a thorough manner before the same date.

All persons are strictly warned not to throw any dirt, filth, carcasses of animals or rubbish on any street of Deseronto. Parties requiring the services of the Scavenger will leave their names at the usual places.

Any person violating any of the provisions of the Public Health Act of Ontario, or the By-laws of the Corporation in reference to health laws, will be prosecuted.

JOHN NEWTON, M.D., Health Officer.
J. L. FERGUSON, Chairman.
Deseronto, April 22, 1895.

—OUR MOTTO IS—
'Quick Sales & Small Profits.'

A full and complete line of Furniture will be always kept on hand and inspection is invited.

HAND-MADE FURNITURE

and REPAIRING, a specialty. All work guaranteed to give satisfaction. This department will be in the hands of a first-class cabinet maker and finisher.

Our Undertaking department will be in charge of a first class undertaker. Elegant hearse and fine horses. Embalming free of charge. Prices so low as to be within the reach of all.

We hope by prompt attention and fair dealings to merit the confidence and patronage of the public generally.

DART & OKE.
